Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardni. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardul, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

The ARDUI Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardul handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardul has helped over a million women. Try it.

Write to: Ladies' Advisory Dept., Chattanooga, Medicine Co., Chattanooga, Tenn., secial Instructions, and 64-page book, "Home Treatment for Women," sent free. J 51

THANKSGIVING ONCE A YEAR.

"There are some folks," says preache
"I think are awful queer.
They never think of thanking God
Until November's here.

"They get their mercles right along, Their blessings come to cheer; But, no; it's not Thanksgiving day. Wait till November's here.

"The church bells tell of mercles, And they call to duty clear; But, no; the time to offer thanks Is when November's here.

"God's poor are ever with us. They oft hunger and need che

They oft hunger and need cheer, But Thanksgiving day's for charity. Wait till November's here.

"It's right to have Thanksgiving day
If thankful all the year,
But what a sham to put off thanks
Until November's here!

"Thanksgiving is a hollow shell Unless the heart is in it. We must the Giver imitate, Whose gifts are so infinite." C. M. BARNITZ.

hogs and turkeys on second growth mberland that is good for nothing se. Barren land is considered ideal or poultry by many until they try the

trick.

There is a canard going the rounds that hens will double their output if the house is illuminated at night, and market chickens will eat and grow faster. Hens must have a regular amount of sleep, like humans, or they break down, and their egg machiners, and digestive apparatus can only do a certain amount of work and must have uset also or a collapse occurs.

Lo. M. Tomit

Persons troubled with partial paralysis are often very much benefited by massaging the affect-ed parts thoroughly when apply-ing Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

from the morth, and other is a matter I wish you to explain. I recently visited my aunt in New York state and found the eggs there fresh, sweet and large and 30 cents per dozen, but down here, in Florida the eggs are small, mostly stale and as low as 12 cents. Do you suppose any one could be gentus enough to make an egg farm pay here? A.—In the far south many farmers consider hens a necessary evil. They keep small sized mongrels and let them scratch for themselves all summer. Their eggs are laid anywhere and lie in the heat all day, and the bad nesting, handling and storing spoils them. Near towns and cities the farmers market a better product, but in out of the way places the eggs wait for a chance customer and often wat lone and ■Out of 135,867 persons in North wait for a chance customer and often wait long and, being low in quality, the price is low. An egg farm produc-ing a bon ton laid while you wait prod-uct ought to flourish in such rotten egg Carolina who were examined last year, 42,132 were infected with the hookworm disease and 96,176 treatments were given by mem-bers of the staff. This is the gist of the annual report of State It is wise for the crate fattener to Director John A. Ferrell to the The inheritance tax paid to the estate of Wm. 8, Olxon, dec'd, all persons

It is wise for the crate rattener to be on the lookout for sick and dead fowls, especially in the hot season and toward the end of the feeding period. The removal of a fowl that is off its feed to a grass run often restores it quickly. When a dead fowl is left to putrefy in a crate the whote bunch is often knocked out.

There is always wisdom in knowing that runs into bronchitis or paeument of the propriety of the rest to the restore to the restore to the runs into bronchitis or paeument. quickly. When a dead fowl is left to putrefy in a crate the whole bunch is often knocked out.

There is always wisdom in knowing when to quit. We refer here to exhibitors who start with big wins at the opening of the show season and then lose all and more than they have gained in the end. One way to thus fall down is to send the same birds to too many shows. They start fine, get worn out and then lose.

Musty straw is unhealthy for hems to scratch in, and oats stored in the sheaf, if there is much of it, often sweat and mold. Clean, dry wheat straw is, our favorite for scratch floor litter.

Feeding heps grain in the start of the star

Feeding hens grain in the sheaf is not practical. While they get some exercise tearing the sheaves apart, they nearly always get too much grain and much is wasted. It is better to thrash the grain and make the hens dig for all they get in the straw.

At Des Moines, Ia., Florence Gamble, 32 years old, confessed to Federal authorities that she had corresponded with more than 500 bachelors over the country, from some of whom she received amounts ranging for the straw.

they nearly always get too much grain and much is wasted. It is better to thrash the grain and make the hensidg for all they get in the straw.

State bulletins give us much information about the birds as insect destroyers, but seldom do you read of the destruction done by poultry to the pests. Turkeys and guiness are at the head of the bug killer procession, and their propagation should be encouraged. What is more, they turn these pests into pounds of fancy meat. That the modern chicken thief is a scientific expert is shown by the manner in which the whole flock of Harry Bodine of Collingdale, Pa., was stolen. The theves simply threw a rag, saturated with chloroform, under the roost and skipped with the unconscious birds.

In placing leg bands on fowls they should not be scaled to constrict the leg, and allowance should be made for future growth of shank. It is torture for a fowl to wear a band that is itos small, and when this is allowed to become imbedded in the leg the owner should be pulled by the S. P. C. A.

A company has been organized in felumbia county. Pa., for the raising
