ANOTHER GEOLOGICAL SURVEY FIRE.

Health And Hygiene.

This Time Entire Buttding and Contents Barely Escape Destruction.

The United States Geological Survey had another close call on Sunday. May 18th, in a destruction of the basement of the entire building which it occupies. Owing to fire the congested condition of the store rooms and document rooms and to the escape of gas, the fire proved to be most stubborn and difficult to handle and resulted in the collapse of some twnty firemen, among them the Chief of the Washington Fire Department. There was little flame but the washington Fire Department. There was little flame but the washington Fire Department. There was little flame but the fire confining the firemen, who however, found the grant of dying from consumption. You run more chances to room and the collapse of some twnty firemen, among them the Chief of the Washington Fire Department. There was little flame but the fire confining the firemen, who however, found the fire confining within the basement of the leaves of the consumption. You run more chances to dy digrathoea an heart disease. Children and old people have the least to fear from consumption at a bout one death out of the fire confining within the basement the Survey building, sufform confining the firemen, who however, found the fire confining the firemen, who however, found the firement of the confining the fi

hall, which had been erected on the recommendations of the Chief they can keep it out. If you want of the Fire Department and the to have better chances get it 24 ters, after installing every pos-sible safeguard, it appears that

In the noted N. Glenn Williams liquor case, Standing Master A. H. Price has decided in favor of yation by Congress of a new Williams, and takes occasion to work on it cannot begin until the work on it cannot begin until the The freight rate question is still a live one in this State, and it appears. Meely to continue so, until the State and railroads reach an understanding.

money is made available in the germs coughed or sneezed out in the air are not so likely to infect us if we keep the well expense. Meely to continue so, until the State and railroads reach an understanding. quarters. According to the rec-ord of the last few years, three, or possibly four more fires must be reckoned with, since an annual fire event for the Geological Survey building has come to be ex-pected copy for the Washington newspapers.

Fire Sale!

The Geological Survey institutes unique proceedure in offering its Geological Folios at one-fifth the usual price as the result of fire

in Survey building.

As a result of the recent fire in the Geological Survey building the Director has announced a "fire sale" of geologic folios. The entire basement in which the fo-lios were stored was filled with dense smoke and many of the folios were burned, others scorched, and all more or less damaged by water. With the approval of Secretary Lane the Director announces that he will sell the en-tire remaining stock of some 150,-000 folios, four-fifths of which are probably as near perfect as goods urually offered in a smoke or fire sale at the nominal price of 5 cents each. The regular retail price of the standard folios arlington is connected with Graham and trie line with Graham and Service, which furnishes a populion of about: 15,000 to tail price of the standard folios is 25 cents, but a few unusually was nearby and the thickly populated rural sections throughout as county of Alamance so it ould seem that the local manement has made a wise decisted in the field is 50 cents. All of these are now to be had at 5 cents each, but no wholesale rate applies to this fire sale.

in opening in Burlington, ir. Badgett reports that the pole in all three towns are very husiastic about the college's ming and are promising their rty endorsement and co-operation.
