now disposing of the various bills now diagrams of the considered. A week set as the date, after which no more bills would be inconsidered. This action may have cut out legislation that would legislation that would have been useful, but at the same time it eliminated the flood of bills that would have poured in up to the

The freight rate question and the proposed constitutional amendments are the really important matters which the Legislature met

Freight rates have claimed much attention of the general public and the entire State has become interested by reason of the fact that more information has been published than ever heretofore about the discriminations against their State. For weeks and months the officials and railroads have been trying to get to an agreement, and while the last proposi tion of the railroads is not all that the people wish and ultimately hope to obtain, yet the proposition will afford much relief. The Democratic caucus Monday night appears to have concluded that the sition was a long way toward the desired end and almost unanimously voted to accept it.
This action does not preclude the

making of better terms.

The proposed constitutional amendments are receiving attention, and we do not believe that any of them are going to be passover with undue haste. can be threshed out in the Legis lature better than they can who they come before the people for ratification. Two of these-the nitiative and referendum" and that for providing for reading the Bible in the Public Schools-have

The Democratic pledge to give the people a revenue tariff bill has been The bill was signed by President Wilson last Friday night at 9:09 o'clock in the presence of a company of distinguished Democrats. He wrote his name with two gold pens. With one he wrote "Woodrow and presented the pen to Representa-tive Underwood, with the other he wrote "Wilson" and presented the

pen to Senator Simmons.

We are printing in this issue a concrete statement of the provisions Underwood-Simmons tariff the prevention of tuberculosis. This bureau will take the form of training school, in which the State

In recognition of the long fight enroll every tubercular person in the State. The Sanatorium will be in Congress by the late Senator of Alabama for the the analagous to a central univerigation around which will be built up a construction of an Isthmian Canal one of the principal forts at the Panama Canal named "Fort John T. Morgan". Senator Bankhead, who is taking an active part in the movement declared that it was not only fitting that Senator Morcause of his brilliant efforts in advancing the Isthmian Canal idea but on account of his many other achievements while in Congress.

and a complete program has been arranged for the day. Governor enters the nean very leading.

There is a great deal of misapprehension as to the intensity of the pain caused by the entrance into the human body of various objects. Many persons fancy that if a man is shot at all he must therefore suffer intensely The reverse is true. A slight wound, a mere abrasion of the skin is sometimes far more painful than a wound caused by the entrance of a bullet directly into the muscles or even into bone. The skin is filled with nerves and when any of them are torn by the ball the pain is extreme.

If the bullet plunges directly through the skin into the body, the only nerves disturbed are those in the only nerves disturbed are those in the comparatively small space the bullet strikes. Since there are few nerves in the muscles, the nerves of the skin convey the sensation of pain to skin convey the sensation of pain to the brain. In the same way the greater portion of the pain experi-enced in the amputation of an arm or a leg is occasioned when the skin is cut, and the subsequent cutting the muscles and the sawing of the bone, in which all the pain is pop-ularly supposed to be centered, amount to little in comparison.—Har-ner's Weekly Health And Hygiene. Raleigh, Sept. 26, 1913.-Dr. Gorrectors of the State, Sanatorium or the Treatment of Tuberculosis, per's Weekly. at Montrose, to-day introduced

Demoralized by Autos.

In a recent lawsuit the counsel for the defense nearly precipitated a riot in the courtroom by declaring that ten years ago he would have put cred-ence in the testimony of the witness under examination, but now he felt compelled to doubt it.

In Moment of Inspiration.

The present Lord Tennyson tells in his charming biography of his father, the late poet laureate, that he wrote "Crossing the Bar" in a few minutes. He had been down to Solcombo, near Bolt Head, where there is a bar which makes a curious moaning. He sat on the cliffs listening to it, but it was not until long afterwards that the great lyric came "like a flash of inspiration."

Preparation of food is the part of the home labor that seems to call out the most ingenuity. If jelly making is in order the fruit is put in a combination colander and press that yields the juice at once. From this it is poured into a strainer that is supported by its own iron standard.

In preparing the fruit there are many little conveniences, such as strawberry hullers, cherry nitters or strawberry hullers, cherry nitters or the Memory is the Only Secret

In this day when lace is in its ele ment the professional cleaners must be reaping a fortune simply from the sace frocks and blouses, petticoats, hats and neckwear that are brought to them to be made spotless. For Then how our grandmothers, who used to beat eggs with a fork, or, indeed, our mothers, who made their mayonnaise by laboriously dropping the oil with one hand while they beat with the other. most women are afraid of lace. The will tackle gloves and shoes, velvet silk and chiffon wiht a will, but the

balk at lace.

In reality lace is no more difficult to clean than any other fabric, if you know how to do it. But, of course, to be successful as a lace cleaner you want to the tenth of the cleaner of the course, the tenth of the course of must take the trouble to learn some thing about the various methods of

cleaning and drying.

Wash net, which is much used for blouses and frocks, can be washed and dried and troned just like any other cotton fabric. It should be carefully troned, of course, so that it will not be pulled out of shape. There is little danger of stretching it; in fact, it shrinks a little. But as it must be froned when fairly damp in order to come out freshwand new looking, it

have done much to standarize those two important products of the kitchen. Knives of some new shape to exactly fit their purpose are constantly apfully is to get most of the dirt and dust and grime out of it with as little rubbing as possible. First shake the lace in the open air and give it a lace in the open air and give it a bath in the sunshine. Sunshine, by the way, and fresh air are friends of lace. Just as dust and darkness are its worst enemies. Then, after sunning and siring it, soak it in lukewarm soapsuds. For this suds dissolve shav-ings of castile or other white soap in TOMATO SOUP FOR COLD DAY boiling water, and to every gallon of ild Be Put Up While Vegetables

small, the easiest way to clean it is to put it in a big fruit jar, cover it with soapsuds and let it stand for four or five hours. In the days when One peck of ripe tomatoes, washed and cut into pieces. Wet six table-spoons cornstarch in enough water to fool free were the rule, even in summer kitchens, good results were had from putting the jar containing lace and suds in a cool oven at night and leaving it there until morning. The heat of the oven kept the temperature burn them, and put with tomatoes and boil until thoroughly cooked, keeping tle. Add one pound white sugar, salt and pepper to taste (spice can be add-ed if liked) and two quarts of boiling of the soapy water at a low heat pressing out all that will go through, then through cheese cloth. Put back on stove and when bolling hot in jars and seal, and keep in a cool, dark place. This is a delicious, clear, red

jar from time to time. If it is very soiled change the soapy water two or three times. Of course if the piece of lace is too big to get in a jar, soal it in a big granite saucepan or tub. in three or four changes of clear luke

the soapy water and don't wring it when it is in the clear water.

To get rid of the water simply press the lace firmly between the hands, or press it between two clean bath tow-els. When it is moderately free from water pin it, right side up, on an iron-

If it is necessary to stiffen the lace dissolve a little gum arabic in water and add this to the last rinsing water. In the case of pure white lace a little blueing should also be added to this

ALAMANCE PHARMACY.

Land Sale!

Saturday, Nov. 8, 1913

FIRST TRACT.

A tract or parcel of land lying in the county of Alamance, State of North Carolina, known as the Celia Allen tract, and bounde das follows by the lands of Elizabeth Wyatt, and others, Beginning at a stake near the branch on Elizabeth Wyatt's line; running thence N. 31 1-6 chs. to a stone, Catharina Wyatt's line; thence E. 49 chs. to a postoak on J. E. Murray's line; thence South with said line 18½ chs. to postoak; thence W. 21 chs. and 40 links to a hickory; thence S. 42 deg. W. 3 chs. to a maple on Scrub Creek; thence 77 deg. W. 4 chs and 20 links to a stake; thence 70 deg W. 20 chs. to the beginning, containing 115 acres more or less.

This is a tract of land that was conveyed to Barbara A. Allen by Jos. S. Vincent, Ex'r of Celia Allen, by deed dated May 7, 1869, and recorded in Book No. 13, page 234, of Deeds for Alamance county, and was owned by the said Barbara A. Allen up to the time of her death.

SECOND TRACT

Beginning at a stone in L. W. Allen's line North of tobacco barn, thence S. 35 deg. W. 9½ chains to a stone; thence S. 13 deg. E. 6 chs and 88 links to a stone; thence S. 20 deg. E. 7 chs. and 11 links to a stone on on Rufus Aldridge East of his L. W. Allen's corner; thence N. 1½ deg. E. 20 chs. and 72 links to the beginning, making 6 1-10 acres. Be the same more or less. This is the tract of land that was conveyed to Levi W. Allen by Alfred Wyatt and wife by deed lated Sept. 19, 1878, and recorded in Book No. 10, page 330 of deeds for Alamance county.

THIRD TRACT. A certain tract or parcel of land in Pleasant Grove township, Alamance county, State of North Carolina, adjoining the lands of L. W. Allen, Joseph Wyatt and others, bounded as follows, viz: Beginning at a rock, corner of said Allen on Alfred Wyatt's line running thence N. 35% deg. R. \$ chapter of the state of the st

This is the tract of land that was conveyed to L. W. Allen by Alfred Wyatt and wife by deed dated Nov. 2, 1889, which is recorded in Book No. 13, page 599, of Deeds for Alamance county. FOURTH TRACT.

A certain tract or parcel of land in Pleasant Grove township, Alamance county, and State of North Carolina, and adjoining the lands of Mrs. Sarah C. Wyatt on the West side, and Joseph Pace, dec'd on the North, Julia Hurdle on the East, amd L. W. Allen on the South side, and known as a part of Frederick Wyatt, dec'd, Home tract on the East end and containing five and one-half acres. This is the tract of land that was conveyed to Levi W. Allen by Alfred Wyatt and wife by deed dated

FIFTH TRACT.

A certain tract or parcel of land in Pleasant Grove township, Alamance county, State of N. C., adjoining the lands of L. W. Allen, A. Wyatt, R. G. Aldridge and others, bounded as follows, viz: Beginning at a rock corner with said Aldridge running then N. 18 deg. W. 61 links to a rock corner with said Allen; thence N. 11% deg. W. 3 chs. to a rock in said Allen line on the S. side of a branch; thence S. 61% deg. W. 2 chs. and 50 links to a rock; thence S. 17% deg. E. 9 chs. 34 links to a rock; thence S. 85% deg. W. 2 chs. 9 Minks to a rock; thence S. 85% deg. W. 2 chs. 9 Minks to a rock; thence S. 85% deg. W. 3 chs. 21% links to a rock; thence N. 26 2-3 deg. W. 3 chs. 21% links to a rock; thence N. 86% deg. W. 7 chs. 78 links to a rock on East side of Haw River road; thence S. 86% deg. E. 7 chs. 72 1-2 links to a rock; thence 26 2-3 deg E. 3 chs. 24 links to a rock and Aldridge; thence N. 88 3-4 deg E. 12 chs. 18 links to a rock corner with said Aldridge; thence N. 85 3-4 deg E. 5 chs. to the beginning, containing two and ninety-nine one hundredths acres more or less.

This tract of land was conveyed to L. W. Allen by Alfred Wyatt, and wife by deed dated April

This tract of land was conveyed to L. W. Allen by Alfred Wyatt and wife by deed dated April 29th, 1905, and recorded in Book N1o. 27, page 585 of Deeds for Alamance county.

SIXTH TRACT. A tract or parcel of land in Pleasant Grove township, Alamance county, North Carolina, adjoining the lands of Levi Allen, Rufus Aldridge, George Patton and others, and being the same land conveyed by James E, Murray to Julia Hurdle, and bounded as follows: Beginning at pointers at James Patton's corner, running W. 21.30 chs. to a stake; thence S. 16,75 chs. to pointers; thence E. 4.75 chs. to a p. 0.; thence S. 25.40 chs. to a B. Jack; thence E. 16 chs to a stake; thence N. 42 chs. to the beginning, containing 157 acres, more or less.

This is the tract of land that was conveyed to Levi W. Allen by John W. Bason, trustee, by leed dated Aug. 8, 1894, and recorded in Book No. 17, page 47 of Deeds for Alamance county. The above described tracts of land adjoin, all going to make up one large tract or farm, being the home place and farm of the late Levi W. Allen and Barbara Allen his wife. This land lies in Pleasant Grove Township, Alamance County, in a prosperous community and is well adapted to raising tobacco and all other farm products.

Said real property will be offered for sale in two tracts, all land included in the descriptions from tract first to tract fifth, both inclusive, and going to make up 143.85 acres of land, more or less, will be offered as one tract; and that tract described as tract sixth and containing 157 acres, more or less, and known as the Teer place, will be offered for sale separate from the other.

TERMS OF SALE: one-third of purchase price to be paid at time of sale, other two-thirds to be secured by bonds of purchaser for six and twelve months with interest from day of sale until paid, title reserved until purchase money is fully paid.

Sales will be reported to the Court for confirmation and will remain open for twenty days therefrom for advanced bids.

This October 6th, 1913.

E. S. PARKER, JR., Commissioner,

ARRANGEMENT OF NEST BOX

Canadian Expert Recommends Use of Earth or Overturned Sod, Co With Straw or Chaff.

A nest can be made out of an old A nest can be made out of an old box 'about 12 inches square and six inches deep. Professor Graham of the Ontario Agricultural college recom-mends that "some earth or an over-turned sod be placed in the bottom of orange Float.

White sugar, juice of one quart of boiling water, cons of cornstarch, wet into flat cake three-quarter inch thick.

Hamburg Steak.

Get bottom round steak, run through chopper, season with sait and press into flat cake three-quarter inch thick.

Next put on about two inches of Press hard so it will stick together well. Then put it on your toaster and broil over hot coals like any steak. Remove to platter and add butter. Worth trying when tender steak is 30 cents per pound.

Starching Colored Clothes.

If a glossy starch is added to the ordinary lump starch used for dark prints, the pieces can easily be ironed on the right side without making any visible change in the appearance of the material, which is noticeable when ironing dark red, blue and black pieces especially.

Cook steamed Pudding.

Cook steamed Puddings by putting the batter in an angel-cake pan and setting this in the steamer. This altowather cook as quickly as the sides and does away with the transfer of the personner of the nest and setting the nest and setting the nest and setting the nest and does away with the transfer of the nest and setting quietly the next day it will be safe to put the eggs under her."

Another nest box that has given in three compartments. A 12 inch board out in three four foot lengths and one the right satisfaction, is made in three compartments. A 12 inch board out in three four foot lengths and the other for the back, and the other for the back, and the other for the back, and the other for the solution. The partitions and ends are made of the partitions and ends are made of the partitions and ends are made of the safe to put the eggs under her." ting the hen can be proceeded with as already described. These boxes may be piled one above the other.

When the hens are let off the nests to feed, the doors of the nest boxes should be closed, which compels the hens to remain on the floor until they have had a chance to feed. The hens have had a chance to reed. The near will not return to the same nests, but this is rather likely to be of benefit than otherwise. All hens do not set at exactly the same temperature, and an occasional change averages up the temperature for all the settings of

eggs.

No hen should be allowed to set, un-less she is free from lice. The inac-tion of the bird is conducive to rapid tion of the bird is conductve to rapid unltiplication of any lice there may be on her. These will make her irritable and a poor setter. In addition, should she bring off a hatch in such a condition, the chicks will be open to infection. Dust the hen well with flowers of sulphur or some other insect powder before setting, and again a day or two before the hatch finishes.

ishes.

About the seventh day the eggs should be tested, the infertile ones removed, and the balance put back in the nests. After testing it is usually found that the eggs from four heas

found that the eggs from four hease can be put under three. This leaves one hen with no eggs, and a new setting can be put under her.

When the chicks arrive two or three batches can be put with one hen, which leaves more hens at liberty to sit, or if there is no more hatching to be done they can be put back in the laying pens.
