### NINETEEN AND FOURTEEN.

We again stand on the threshold of a new year. The year 1913, with its successes and reverses, its pleasures and its pains its joys and its sorrows, has pass ed into history. Much of it will be pleasant to remember and much of it would be a relief to forget.

If the successes we hoped for and expected have not been realized, perhaps the fault lies in our selves for failure to do the thing we should have done or the fail ure to put forth the necessary ef fort. There is an old adage which runs thus: "The Lord helps those who help themselves," and in the failure to help ourselves with all the might and power with which we are endowed no doubt accounts for many of the seeming reverses that dot the pathway of life.

In the new year let us face abou with new determination for the ac complishment of better thing and cling to the purposes we have determined upon and watch re

The ambitions of the party in these two measures are high. Both are aimed to relieve the conditions of existence to make life less difficult to the humble citizen. The end the partnership of government is directed to the same end, and to safeguard the country against money panics, such as have in the past wrought suffering and disas-

Only experience with new laws will test whether the people for whose benefit they are ostensibly passed will be the gainers. Only time can tell whether the hopes of patriotic men are to be fulfilled in popular satisfaction. The effort, great or small, conscientious leadership to obtain the the fixed favors of the electorate may end in party disaster.

But, to all present seeming, they

have kept the faith. None now charges the contrary. The faulta alleged by critics of the administration are in the main faults of ignorance and incompetency. The admission seems to be general that Democrats have kept the faith,

In Charlotte Christmas night Chas. B. Skipper, a well known cotton mill man was stgruck and killed by a street car. What he was doing or how he came to get in the way of the car is a mystery. Skipper was 48 years old and is survived by a wife and two children. He had just bought an interest in the cotton mill at Brevard and expected to move to Brevad next month to take charge of the mill. His remains were sent to Baltimore for interment. Charlotte Christmas night

# The Terrible Case Of Mike Mullikan

Down about old Boston town, in the district of Back Bay, Mike Mulikan had his being, and also ran a dray, But the fates one day got after Mike, they would not let him be, and so one fine morning he had the pleurisy. Then followed coughs, sore throat and colds, and finally grippe and boils, and sunburn inflammation theathey got him in their colls. Mike also got some bruises, corns, bunions, burns and sprains, he had rheumatic symptoms, and lumbago gave him pains. Neuralgia, toothache, felon, crowded fast upon his ills, tonsilitis and PNEUMONIA then knocked him off his sills. The doctor said bronchitis, too would come most any day, and it looked like—Mike might have a job of riding his own dray. But just as death began to dance and mourners all looked grim, a kindly good old neighbor said: "TRY GOWAN'S STUFF ON HIM." And so they took beloved Mike and rubbed him hard all day, and Mike sings GOWAN'S praises now, and Mike still drives his dray.

Gasoline-Silk Folly.

A woman and her home were burned the other day in Spring-field, Mass., through ignorance of quite commonly known little old pait of facts that gasoline left open will quickly fill a closed room with gas, sometimes more dangerous than gunpowder, and that rubbing silk may produce a spark. The woman left a silk waist soaking in gasline in a bowl in a bath room to clean it. After a time she went back and began rubbing the silk between her hands producing a spark which ignited the gasoline fumes and blew up the place. Had she only known—Conservatism.

Sometimes it is ignorance. At other times it is thoughtlessness or carelessness. The result in fatality is the same.
