The third floor of a big building under construction at Youngstown, Ohio, collapsed. The inside of the building fell into the cellar, carrying the workmen with it. Some of the men escaped by clinging to jutting beams; others were thrown clear of the wreckage into the street. Of the seven men buried under the concrete and steel, three were rescued alive and three bodies were recovered.

COTTON LOAN FUND

PLAN NOT ILLEGAL

ATTORNEY GENERAL GREGORY SAYS PLAN DOES NOT VIOLATE FEDERAL LAW.

SUCCESS TO MOVEMENT SURE

President Wilson Asked the Attorney General For An Opinion—Up to New England Bankers.

Washington.—No violation of Federal anti-trust laws is threatened by the cotton loan plan recently perfected by bankers and members of the Federal Reserve Board, according to an opinion handed down by Attorney General Gregory at the request of President Wilson.

Success of the \$135,000,000 pool now believed by treasury officials to be assured. More than \$50,000,000 of the \$100,000,000 to be raised among northern bankers already has been subscribed and practically all of the remainder, it is understood, had been promised on condition of a favorable opinion from the Attorney General. New England financiers, it was said, were reluctant to enter the plan until definitely assured that the method of raising the fund would not be construed as unlawful.

Attorney General Gregory's opinion was rendered after a conference with President Wilson. The Treasury Department made public the following correspondence:

"The White House,
"My Dear Mr. Attorney General:
"I am sending the enclosed papers, submitted to me by the Secretary of the Treasury, in order to ascertain whether in your opinion the proposed cotton loan fund may be lawfully formed. I know that it is contrary to the practice of the department of giving opinions beforehand to contemplated transactions, and I think that such opinions ought never in ordinary circumstances to be given, but the circumstances with regard to the handling of the great cotton crop which have been created by the European war are most extraordinary and seem to justify extraordinary action. It is for that reason that I venture to ask you to depart in this case from the usual practice of your department.

"It occurs to me that the fund contemplated stands in a class by itself. It is hardly conceivable that such arrangements should become settled practices or furnish precedents which would be followed in the regular course of business or under ordinary conditions. They are exceptional in their nature as the circumstances they are meant to deal with and can hardly be looked upon as, by possibility even, dangerous precedents. It is for this reason that I feel the more justified in asking for your opinion in the premises.

"Cordially and sincerely yours,
(Signed)
"WOODROW WILSON."
Mr. Gregory replied at once to the President's letter stating that he was unable to see how such a plan could be thought to fall within the purview of the anti-trust laws.

VICTORY UNDER SHERMAN LAW.

Railroads Give Up Stock in Coal Mines Valued at 3,750,000.

Cincinnati, O.—Stock in Ohio and West Virginia coal mines valued at \$3,750,000 passed into the hands of John S. Jones, a Chicago coal operator, as a result of an entry made by three Federal judges here in a suit brought by the government against the New York Central and the Chesapeake & Ohio Railway Company, their subsidiaries and various coal companies they control.

The case was brought under the Sherman law, which prohibits the holding of stock in coal mines by the owners of the railroads. The Federal court in its decision declared that the case has been known as the "East Ohio and West Virginia bituminous coal case."

Attorneys for both the railroads and the government appeared before the court with an agreement that the properties of the railroads be discontinued and ownership dissolved.

Capital Paid in by Banks.

Washington.—Payment of the first installment of the capital stock of the Federal reserve banks, called for November 2, practically has been completed. The Federal Reserve Board announced that \$1,947,106, as follows: Boston \$1,217,925; New York \$3,520,330; Philadelphia \$2,058,555; Cleveland \$2,012,385; Richmond \$1,065,415; Atlanta \$777,248; Chicago \$2,191,000; St. Louis \$912,000; Minneapolis \$794,500; Kansas City \$916,000; Dallas \$957,335; San Francisco \$1,323,248.

Cattle Quarantine Covers 10 States.

Washington.—Officials of the Bureau of Animal Industry enlisted the cooperation of state officials in the fight to stamp out the epidemic of foot and mouth disease which has resulted in a cattle quarantine covering 10 states. With strict maintenance of the quarantine, immediate destruction of all infected herds and close inspection of all suspected centers, the Bureau believes it now has the situation under control. Practically every shipment of cattle, which passed through Chicago has been traced.

JAPANESE TAKE GERMAN FORTRESS

German Stronghold at Tsing-Tau, China, Surrenders After Many Weeks of Siege

BRITISH DEFEATED AT SEA

Loss Four Cruisers Off Coast of Chile, German Armies Retreat in France.

After many weeks of siege, about which the outside world has known little or nothing, the Japanese have finally captured the German fortified positions at Tsing-Tau, China. With the surrender of the forts at Tsing-Tau, Germany loses the last strategic position outside of the empire in Europe.

The attack made on the German forts in China by the combined forces of Great Britain and Japan was made on both land and sea. The forts were almost entirely demolished by the big guns from the ships in the harbor before the land forces made a general assault.

Again there has been somewhat of a lull in the fighting between the allies and the German forces in the north of France and in Belgium. It has been repeatedly reported and generally admitted from Berlin that the Germans have been forced to retire from the region of the Yser.

The German navy scored another decided victory over the British when five German warships met and defeated four British cruisers off the coast of Chile. Two of the British cruisers were sunk, one was badly damaged and another is missing. This makes eleven fighting vessels the British have lost since the war began. In the North sea the German submarines succeeded in sinking seven British cruisers at various times.

A lively fight, in which shells dropped upon the coast of England, occurred on the North sea between British and German ships. England was a target of the German attack. For nearly three months the little German garrison of about 7,000 men, and nearly wholly composed of reservists in China, has held out against the land and sea attacks of the Japanese, of certain British detachments of both white and Indian troops that found themselves in China at the outbreak of the war. What the losses of the garrison have been are not known, but the official Japanese and British reports have indicated that Tsing-Tau has been taken at heavy cost of men on the part of the allies.

It was on August 15 that Japan threw herself into the European war as Great Britain's ally, after demanding that Germany withdraw or intern all German warships in Asiatic waters and relinquish possession of Kiaochow. In the statement from Tokyo that accompanied this declaration, Japan asserted that her intentions did not contemplate the retention of one foot of ground on Chinese territory, and later affirmed that she did not intend to extend her holdings in the Pacific.

Los Angeles.—While efforts were being made to raise funds here to succor Belgian war victims, Dr. Milbank Johnson, president of the Municipal Charities commission, published a statement declaring that relief sent to Europe meant prolongation of the strife and suggesting that charity should be directed to the home front. "Scientific methods of war," said Doctor Johnson, "as exemplified in Europe, have brought combatants to realization of the potency of suffering women and children in compelling the conquered to sue for peace. If Europe is determined to win a war of extermination, relief should be directed to the home front. War in Europe has thrown thousands in this country out of work. The consequent suffering and privation are appalling. Charity should begin at home. Has it occurred to many who eagerly hearken to Europe's cry that they have not contributed to the relief of our own unfortunate?"

Germany Withdraws From Yser.
London.—A dispatch from Amsterdam says: "The Telegram learns from Brussels (Holland) that the Germans have fled from the Yser and that the Belgians have occupied both banks of the river. The last village evacuated was Stuyvenkerke, the troops returning from there to Brugge. "The battle is proceeding in the triangle of Diksmuide, Roulers and Ypres. Many of the inhabitants are leaving Brugge and are making their way towards Holland."

German Cargoes Are Affected.
London.—The closing of the North sea to all shipping except that which places itself under the protection of the British fleet is recognized as the first stroke of Admiral Baron Fisher, the new first sea lord of the admiralty and as one of the most important events of the war. All cargoes destined for German or Austrian consumption must run the gauntlet of British inspection in the English channel, the strait of Gibraltar or the Suez canal.

Use of German Uniforms Denied.
Washington.—A foreign office dispatch to the French embassy denied accusations of the German press that the French were using German uniforms. "This ruse," said the dispatch, "to which the Germans often have recourse, has never been employed by our soldiers, who, proud of their uniform, are content to fix their bayonets and hurl themselves into the assault of a position. The Germans, however, often have abused the white flag."

Prince of Battenberg Killed.
London.—Princess Henry of Battenberg, the newly appointed American ambassador to Russia, presented his credentials to Emperor Nicholas and formally assumed charge of the embassy.

Exchange of Subjects Arranged.
Washington.—Germany and Great Britain have reached an understanding through the medium of the American government whereby each will permit all enemy subjects except those between the ages of 15 and 50 to return to their respective countries. In no case will women and children be detained. The detention of those between 15 and 50 years is due to the fact that both Germany and Great Britain desire to keep all enemy subjects who could bear arms from joining their colors.

Another rebellion has broken out in British South Africa—this time headed by Generals Christian de Wet and Beyers. Neither of these men has any political following but it is feared burghers, who like themselves, retain some of the bitterness-aroused by the South African war will join them.

LIFE UNDER MILITARISM--THE SPY SYSTEM

CHICAGO DAILY NEWS

Tokyo.—It is officially announced that the German fortress of Tsing-Tau has surrendered to the Japanese and British forces.

It is officially announced that the first step in bringing about the surrender of the fortress occurred at midnight, when the infantry charged and occupied the middle tower of the line of defense. In this operation they took 200 prisoners.

The fall of Tsing-Tau ends the most picturesque of the minor phases of the great world-war now raging.

On two continents and in many islands of the sea, where colonies of the warring nations were planted, combats of more or less interest have taken place, garrisons have been captured and towns occupied peacefully, but in the little German concession on the south side of the Shantung peninsula of China, there has been going on since late in August a reduced scale of war that from all accounts has duplicated nearly all features of those battles in Europe that have resulted in the capture of fortified positions.

The capture of Tsing-Tau loses to Germany her last foot of possession on the Asiatic mainland, as well as her last strategic position outside of the German empire in Europe. For nearly three months the little German garrison of about 7,000 men, and nearly wholly composed of reservists in China, has held out against the land and sea attacks of the Japanese, of certain British detachments of both white and Indian troops that found themselves in China at the outbreak of the war.
