breaking, arrested and in Jail.

Friday night Arthur Graves, colored, about 35 years of age, was arrested in Burlington by Deputy Sheriff C. D. Story, and brought jail. He bears the reputation of being a bad negro, and a number store breakings are charged up to him. The first of last week the store of Mr. Claude R. McCauley, near Watson, postoffice was broken into. The small safe was taken out and broken open with an axe and mauk and about \$80 in cash, two watches and some jewelry were taken. Only a few articles were taken from the store. A silver watch was taken from Graves which has been identified by McCauley's Graves also had on his person a \$20 gold piece—\$65 in gold was taken from McCauley's safe and \$15 in paper money was found on Graves. A gold watch has not been recovered nor the jewelry.

So much for the hand method of spreading lime. Another plan, where hydrated or quick lime can be used directly is to apply it with a lime spreader some time certainly several days before seeding, and in this case, it is very much better to harrow or disc it into the surface soil and allow it to stand at least a week before seeding. There is, of course, far more moisture and far more carbon dioxide in the soil atmosphere than in the atmosphere above the soil and the carbonation of the lime takes place very much more rapidly and a very much better distribution is obtained by this method of lime application than any other.—Karl Langenbeck, Lim: Service Bureau, Washington, D. Even the paths of domestic animals through their pastures are of most artistic and gentle de-parture from the monotonous straight line. Still, we would not advise following these in the economic disposition of traffic, as did the Bostonians with Sam Foss call trail. Likewise, we should avoid violation of the dictates of common sense by trying to institute curves in a front walk from street to door when the distance is restricted scope precludes their use and straight lines must prevail. Still. the straight line is not, as Ruskin i
