Entered at the Postoffice at Graham, N. C., as second class matter.

GRAHAM, N. C., April 2, 1915

The price of cotton keeps on the up grade. The demand for American cotton in Europe, it is stated, is not on account of its being manufactured into goods, but because it is used as wadding in the big guns used in the war. A statement is to the effect that each charge fired from one of the big guns requires about 300 pounds, or two-fifths of a bale. So when the war is over the cotton will be gone and nothing material to show for it. After all, then, it does not seem there is any very urgent need of reducing the acreage. The price is pushing up toward ten cents notwithstanding the 1914 crop was the largest yet—17,000,000 bales.

The Carter-Abrenethy investigation has thrust out some unpleasant things about each of them, but the charges which were aimed at the moral character have not amounted to much. A little more courtsey and consideration on the part of each would have saved the State some money and each of them an airing that will benefit neither. The committee finished taking evidence Tuesday.

The war still continues in Mexico. The question is liberty or proslavery and the arbitrator will be the way all nations have settled such matters, according to history.

Among the Sick.

Mrs. Martha Foust is quite ill at the home of her daughter, Mrs. W. F. R. Clapp.

Mrs. J. B. Farrell is still sick.

The Weather.

As the Almanac makers say, the weather has been "variable" for the past week. The last of last week was quite springlike, though cool and some icy every morning. It was cold Monday. Tuesday about three it commenced snowing and snowed till eight next morning. The ground was warm enough to melt it almost as fast as it fell, but Wednesday morning there was about two inches which quickly disappeared when the sun came out. In all there must have been between six and eight inches. Since it has been quite cold.

Triangle Debate.

Last Friday night the representatives of the High Schools through-out the State engaged in a triangle debate upon the query solved that the United States should adopt the policy of subsidizing her merchant marine engaged in foreign trade. Graham's affirmative, Lyric G. W. Walker, of Greensboro, and the negative, Hattie Merritt and Grady Pritchett, in the Graham School auditorium. After a spirited debate, which appeared almost evenly balanced, the judges, Dr. J. I. Foust of Greensboro, Dr. H. M. Wagstaff of Chapel Hill and Dr. W. C. Wick of W. C. College, gave a two to one decision in favor of Chapel Hill. Graham's negative team, Beatrice Forsythe and Boyd Harden, went to Burlington and lost to the Burlington team, whose negative team went to Chapel Hill and won. To qualify a school to enter the finals at Chapel Hill on 8th and 9th both affirmative and negative must win twice. For the past two years Graham has enjoyed that distinguished honor.

Presbyterial of Orange Presbytery

The body composed of the Women's Organizations of Orange Presbytery met in Graham Presbyterial church yesterday morning for a three day's session. Sessions are held in the morning, afternoon and at night. About fifty delegates from the various churches in the Presbytery are present. Only two men, Dr. C. G. Vardell of Red Springs and Dr. L. A. Lewis, missionary to China, are in attendance. Mrs. Lucy Little is also here with husband.

Among those in attendance are Mrs. S. Rankin, Mrs. B. S. Robertson, Mrs. Nannie Weatherly, Mrs. Robert M. Denny of Greensboro; Mrs. Archie McLean of Whitsett; Mrs. Eugene L. Harris of Chapel Hill; Mrs. O. W. Denny of High Point; and many others from a distance, whose names we failed to obtain.

Mrs. J. M. Turner of Graham is President of the body. Many discussions and interesting addresses have characterized the session. The good ladies of Graham are entertaining the visitors handsomely. At noon a lunch is served in the Sunday School room of the church.

Secretary Daniels has authorized a flag for the Vice-President. It is the first in the United States history. It will be used when Vice-President Marshall is representing the President aboard the flagship Colorado at the California exposition this month.

An appeal to its thousands of employees to lead has been made by the Carnegie Steel Company of Pittsburgh, Pa., as a part of a "safety first" campaign. Pamphlets distributed among the workers point out that dissipation leads to carelessness and general inefficiency.

Henry R. Sessions, inventor of the vestibule anti-telescoping device used on most railroad passenger cars, and several other railway devices died at his home in Chicago a few days ago. He was born in 1847 and was connected with various railroads in the capacity of master mechanic and superintendent.

Wm. R. Smith a young man of Swanton township, Wayne county, was killed last week by a falling tree which he had cut down.

News Snapshots Of the Week. Three battleships were sunk in attack on Dardanelles, the Bouvet, French, and the Irresistible and Ocean, British, while allied troops landed in attack on Turkish forts. Raue Tausler, shopgirl, said James W. Osborne, prominent New York attorney, for \$50,000 for breach of promise. After a siege of eight months Przemysl, a strongly fortified Austrian city, capitulated to Russian army under General Dimitrieff then advanced on Cracow, another Austrian city, and captured it. A strong force of Italian troops, about 150,000 prisoners being taken. Russian army under General Dimitrieff then advanced on Cracow, another Austrian city, and captured it. A strong force of Italian troops, about 150,000 prisoners being taken. Russian army under General Dimitrieff then advanced on Cracow, another Austrian city, and captured it.

HELPS FOR HOME-MAKERS.

Edited by the Extension Department of The State Normal and Industrial College.

FOODS—Prepared by Miss Minnie L. Jamison, Director of the Domestic Science Department.

ECONOMY IN THE MEAT DIET. Economy in the meat diet may be observed in the home not only by buying the less expensive cuts and handling them intelligently but by using substitutes for meat, which is valuable as food.

Meat. Stuffed vegetables (left over meats). Peas and beans. Nuts, etc.

SUBSTITUTES FOR MEATS. STUFFED ONIONS. Boil Spanish onions in salt water until nearly tender, drain and simmer until the shells are soft.

CREAM SAUCE. Melt the butter, add the flour, mix until smooth; then add the milk and stir constantly until it boils. Add salt and pepper and pour over the onions.

STUFFED PEPPERS. Cold cooked ham, veal or beef, one pint. Milk, one cup. Flour, 3 tablespoons. Butter, 1 tablespoon.

BAKED BEANS. Beans, one quart. Onions, one. Bacon, one-fourth pound. Salt, one teaspoon.

BAKED CABBAGE. Cook the shredded cabbage in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

Potash, Lime and the Potato Scab. By Karl Langenbeck. In a journey through Long Island collecting soil samples for lime requirement analyses, the writer found that the potato growers of the Eastern Section were bitterly opposed to liming, though their soils were very acid.

Notes to Milk Consumers. Prepared by the Office of Dairy Experimentation, West Raleigh, N. C. Milk is one of the few valuable foods that is consumed in its raw state. Milk containing more than five hundred thousand bacteria per cubic centimeter should not be used as a food.

Solution of Transportation Problems. The Corporation Commission, Railroads and Division of Markets working in co-operation have just solved some important transportation problems. To help move over 300,000 bushels of corn in Hyde county, the Norfolk and Southern Railroad granted a reduction in rates from Hyde county to the important points on its railroad.

MAKING CABBAGE. Cook the shredded cabbage in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING POTATOES. Cook the shredded potatoes in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING ONIONS. Cook the shredded onions in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING PEPPERS. Cook the shredded peppers in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING BEANS. Cook the shredded beans in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING ONIONS. Cook the shredded onions in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING PEPPERS. Cook the shredded peppers in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING BEANS. Cook the shredded beans in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

BAKED CABBAGE.

Cook the shredded cabbage in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MACARONI WITH CHICKEN. Macaroni, one cup. Salt, one tablespoon. Water, two cups.

Drop the macaroni into boiling salted water, cook until tender, drain, pour cold water through it to keep it from sticking. Put a layer of macaroni in the baking dish and a layer of chicken alternately and cover with cream sauce.

When bits of beef are left from a roast or stew, the same may be used with macaroni and tomato sauce as a meat substitute.

See Tomato Sauce under Brown Beef Stew.

Solution of Transportation Problems. The Corporation Commission, Railroads and Division of Markets working in co-operation have just solved some important transportation problems.

MAKING CABBAGE. Cook the shredded cabbage in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING POTATOES. Cook the shredded potatoes in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING ONIONS. Cook the shredded onions in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING PEPPERS. Cook the shredded peppers in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING BEANS. Cook the shredded beans in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING ONIONS. Cook the shredded onions in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

MAKING PEPPERS. Cook the shredded peppers in boiling unsalted water until tender, drain and salt then cover with tomato sauce and grated cheese.

Potash, Lime and the Potato Scab.

By Karl Langenbeck. In a journey through Long Island collecting soil samples for lime requirement analyses, the writer found that the potato growers of the Eastern Section were bitterly opposed to liming, though their soils were very acid.

The result of the investigation showed that soil acidity checks the development of the potato scab more than it hinders the growth of the potato. The average potato crops under such circumstances are not much more than half those of Europe.

It is gratifying in this connection to state that the plan was laid out by Dr. Otto Appel, professor of Plant Diseases at the Berlin University and Privy Counselor to the German Government, who endorses it. Dr. Appel is now in Washington.

There is more Catarrh in this section of the United States than in any other, and until the last few years it was supposed to be incurable. For a great many years it has been cured by a special and prescribed local remedy, and by continuing its use, Catarrh has been cured in many cases. Science has proven Catarrh to be a constitutional disease, and the only permanent cure is by the use of Chamberlain's Catarrh Remedy, manufactured by F. J. Chamberlain, Druggist, 208 N. 2nd St., St. Paul, Minn.

Nothing So Good for a Cough or Cold. When you have a cold you want the best medicine obtainable so as to get rid of it with the least delay possible. There are many who consider Chamberlain's Cough Remedy, a household name, and it is true. It is a household name because it is so good. It is a household name because it is so good.

Why suffer from rheumatism when relief is had in so small a cost? Write Mrs. Elmer Hatch, Peru, Ind. "I have been subject to attacks of rheumatism for years. Chamberlain's Liniment always relieves me, immediately, and I take pleasure in recommending it to others." For sale by all dealers.

Stomach Trouble Cured. Mrs. H. C. Cleveland, Arnold, Pa. "For some time I suffered from stomach trouble. I would have sore stomach and feel very sick. I had tried many remedies but until I took Chamberlain's Tablets. After taking two bottles of them I was cured." For sale by all dealers.

Stomach Trouble Cured. Mrs. H. C. Cleveland, Arnold, Pa. "For some time I suffered from stomach trouble. I would have sore stomach and feel very sick. I had tried many remedies but until I took Chamberlain's Tablets. After taking two bottles of them I was cured." For sale by all dealers.

GRAHAM CHURCH DIRECTORY

Baptist—N. Main St.—Jas. W. Rose, Pastor. Preaching services every first and third Sundays at 11.00 a. m. and 7.30 p. m. Sunday School every Sunday at 9.45 a. m.—C. B. Irwin, Superintendent.

Graham Christian Church—N. Main Street—F. Morgan, Pastor. Preaching services every second and fourth Sundays at 11.00 a. m. Sunday School every Sunday at 10.00 a. m.—E. L. Henderson, Superintendent.

New Providence Christian Church—N. Main Street, next the Depot—J. F. Morgan, Pastor. Preaching every second and fourth Sundays at 11.00 a. m. and 7.30 p. m. Sunday School every Sunday at 2.30 p. m.—Arthur T. Walker, Superintendent.

Friends—North of Graham Public School—J. Robert Parker, Pastor. Preaching every Sunday at 11 a. m. and at 7.30 p. m. Sunday School every Sunday at 10.00 a. m.—Miss Belle Zachary, Superintendent.

Methodist Episcopal, South—cor. Main and Maple St., C. M. Grant, Pastor. Preaching every Sunday at 11.00 a. m. and at 7.30 p. m. Sunday School every Sunday at 9.45 a. m.—W. B. Green, Supt.

Methodist Protestant—College St., West of Graham Public School, Rev. O. B. Williams, Pastor. Preaching every first, third and fourth Sundays at 11.00 a. m. and every first, third, fourth and fifth Sundays at 7.00 p. m. Sunday School every Sunday at 9.45 a. m.—J. S. Cook, Supt.

Presbyterian—West Elm Street—Rev. T. M. McConnell, pastor. Preaching every Sunday at 9.45 a. m.—Chas. C. Thompson, Superintendent.

Presbyterian (Travosa Chapel)—J. E. Lobby, Pastor. Preaching every second and fourth Sundays at 7.30 p. m. Sunday School every Sunday at 2.00 p. m.—Harvey White, Superintendent.

SCHOOL NEWS. On Saturday night, March 27th, Woodville School had a Fiddler Convention. A number of good musicians were present and the evening was thoroughly enjoyed.

The Osage School closed Friday night with a good entertainment. On Saturday the people plowed up the school grounds, sowed grass and planted flowers and shrubbery.

Great improvements have been made here this year and Osage's friends expect to see it the model school of the county soon.

The Emira School closed with a play Saturday night.

State Supervisor of Rural Schools, Mr. L. C. Brogdon, is spending several days in the county this week. He spoke Monday night at the School, Tuesday night he will be at Friendship and Wednesday at Sylvan. Mr. T. E. Browne of Raleigh, will also be at Sylvan Wednesday night also.

Mahan School will close Friday with big picnic and general good time. Rev. Tuttle of Burlington will make an address in the morning. Athletic contests will be held in the evening.

The High School Triangular Debate last Friday resulted in victory for both the Sylvan teams over the Friendship High School. (Liberty High School dropped out of the race). The affirmative side of the question was upheld at Sylvan by Messrs. Foster and Algis Newlin, the negative by Messrs. Seymour Stafford and Norman Alexander. The Sylvan negative team, Messrs. Harry Johnson and Earl Williams spoke at Friendship against Messrs. Lynn Dodson and Carsa Wheeler, the affirmative team of that place.

This is the second time the Sylvan boys have won out in the local contests, and here's hoping that they will do their best for Sylvan and for Alamance at the round up debate at Chapel Hill, April 9th.

Why Snow is White. Water being transparent, rays of light pass through it without being refracted by the water itself. When drops of water are partially frozen, drops of water are partially frozen into snowflakes they are transformed into a crystal, and the rays of light are partially reflected surfaces from which the rays of light are sent back just as a mirror reflects a great deal of the light or color of the object before it.

A mass of snow is whiter than a single flake on account of the countless number of crystals that are compactly grouped, thereby greatly increasing the reflective power. Like a mirror snow will color of any light thrown upon it.

A Wilson dispatch in the Wilmington Star says that Richard Brewer, plowing on the farm of Hawkins Bowkin in Johnston county, uncovered \$750 in coins, nearly all in gold, which is supposed to have been buried many years. The landowner according to report, laid no claim to the money but allowed the finder to keep it.

Distressing Kidney and Bladder Disease relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Immediate retention of water almost immediately. If you want quick relief, and cure this is the remedy. Sold by Graham Drug Co.
