THE NATION'S DINNER TABLE

When the dinner bell of this nation rings there have been slaughtered for the repast 13,000 beeves, 21,000 host, 4,600 sheep, 2,000 hundredweight of poultry and other meats, and there have been 700,000 bushels of cereals and 540,000,000 pounds of vegetables prepared for the feast. Multiply these quantities by one thousand, repre-senting approximately the number of meals per annum, and we have the annual contents of the nation's larder. But with all our immense quantity, superb quality and wide range of products, the American housewife, like

the wife of King Nebuchadnezzar, longs for variety and she goes market-ing in foreign lands. She buys abroad \$200,000,000 per annum of farm pro ducts that can and should be prod in the United States.
