THE WIDOW OF GEN. PICKETT.

Graham had the honor Tuesday morning for a few brief minutes to have as her guest Mrs. La Salle Corbell Pickett, widow of the famous Major-Gen. George Ed-ward Pickett, one of the most distingnished Confederate officers in Civil War, and who history tells us led the greatest infantry

charge in the annals of war.

Mrs. Pickett was under the es cort of the officers of the Daughters of the Confederacy and several Confederate veterans.

In the afternoon Mrs. Pickett delivered her famous lecture, "Friends of Yesterday," at the Burlington Chautauqua. Her lecture abounds in many pathetic and absorbingly interesting stories of famous men and women of the South and North of those days.

In the afternoon Mrs. Pickett was given a reception at the home of Mrs. Ernest Sellars in Burling-ton by the various women's clubs of that sity in which Graham Chapter of the Daughters of the Con-federacy participated. The re-ception was splendid in every detail and was an honor to the clubs and worthy of the occasion.

Vote July 20—Some Whys For Voting Bonds.

It is now less than two weeks till Graham and Thompson townships will vote on bonds for the Alamance, Durham & Orange Railway. The election will be held on Tuesday, July 20th.

This is a matter that the people have their own choice about, but it behooves them to choose wisely, broadly, progressively, enterprisingly, intelligently, with an eye single to the interest of every person in the township, individually and collectively.

There are times when one can interest of a preparation of the control o

portunities—when plenty more are confing or wanting to come. But not so in this case—we hear of no others like this heading this way.

Graham and Graham township, of all the rest, can least afford to be a stumbling block to this enterprise. As a town Graham warts

State of North Carolina,

Some years ago the Commissioner of Agriculture drew a bill, which was unanimously passed by the Legislature, to reduce the cost of legume inoculating material from the exhorbitant price of two dollars an acre to a price at which the felt the average farmer could afford to use it. The effect of this bill was to reduce the price of this material not only to the farmers of North Carolina, but to those of the entire South-as well, and a number of other Southern States have since followed the lead of North Carolina in reducing the price of this material to their farmers, also.

At first the Commissioner placed a cost price of 50c an acre on the material with the determination to reduce the price lower and lower as the demand increased. During 1914, the Department distributed neiffy 8,000 acre bottles from August to December, thus effecting a direct saving to the farmers of the State of over \$10,000 in less than four months.

During the past six months the distribution has reached around 1,200 acres, and the season has hard-by opened. The Commissioner feels, therefore, that the time has come to make another cut in the price, and he now plans to reduce the cost price of the material from 50c an acre to 40c an acre, beginning July 1st, 1915.
