GENERAL SCOTT READY TO REPORT

HAS BEEN TO BORDER IN CON-FERENCE WITH MEXICAN LEADERS.

RETURNS TO WASHINGTON

Has Been Working For Several Weeks In Furtherance of Pan-American Peace Plans.

Washington.—Gen. Hugh L. Scott, chief of staff of the army, returned to Washington from the Mexican border where for several weks he has been warking in furtherance of the Pan-American peace plans. He would not comment on the results of his mission, which he will discuss with Secretary Lansing.

General Scott's first mission on ar

rival at the border was to confer with General Villa and settle difficulties arising from seizure of propert of foreign merchants at Chihuahus The General also discussed with Villa the Pan-American convention proposal, which Villa and his followers

have accepted.

Since then the nature of Genera Since then the nature of General Scott's discussion has not been disclosed. It is reported that he tried to get in communication with General Obregon, General Carranza's chief in the field. Whether he suceeded in this has not been learne Obregon, however, responding to the Pan-American appeal, said that Carranza's answer would be his.

It is taken for granted here that

General Scott brought back a fund of interesting information. The chief of staff has long been familiar with conditions in Mexico, and is person-ally acquainted with many military

No disclosures have been made as to the next step the Pan-American conferees are planning with reference to Mexico. There will be no until Carranza's reply to the appeal for a peace conference has been received. The conferees will urge recognition of the Carranza gov

JULY EXPORTS BREAK RECORD.

Greatest Ever Recorded For That Month, Valued at \$267,978,900. Washington.—Exports of the products of American farms and factories in July—valued at \$267,978,900— were the greatest ever recorded in that month, the department of commerce has just announced. The near-est approach to the new record was made in July, 1918, when American shipments abroad reached \$160,990,

The trade balance for the monththe excess of exports over imports was \$124,879,370, compared with a balance of \$21,929,008 in July, 1913. In July, 1914, exports were less than imports by more than \$5,000,000.

Exports for the first seven months of the year valued at \$1,969,787,495,

gave a balance of trade in favor of the United States only a little short of one billion dollars. The balance was \$960,878,054, compared with 60,-888,789 in the first seven months of

July imports were valued at \$143,-099.62, compared with \$159,677,291 last year; for the seven months \$1,-908,909, 441, against \$1,140,593,373.

GUSTAV KOPSCH ARRESTED AT WASHINGTON FOR MAKING PICTURES OF FORTHS.

Had Photographs of Military Reserva tions and Guns at Fortress Monroe and Also at Cape Henry.

Washington. - Gustav Kopsch, young German employed as an instru ment maker by the Carnegie institu-tion here, was arrested by agents of the department of justice charged with violating the Federal law for protection of the national defense by making pictures of military reservations. He was held in \$5,000 bail and will be sent to Norfolk for trail in the United States District court

According to the officers, Kopsch had in his possession photographs of the fortifications and guns at Fort-ress Monroe and of the reservation at Cape Henry, Va., where the government is planning extensive works to

Germana Are Now in Possession of the Whole Line of Railway From Cheim to Bialystok.

London.-Brest-Litocsk, the main Russian fortress and concentration center for the Bug River line of defenses is now occupied by the Austro-Germans. While the Russians offered stout resistance during the invaders' approach, it is apparent no attempt was made to defend Brest-Litovsk itself. It was evacuated as was Osso-wetz, in conformity with the Russian intention to take up new positions farther east.

The Germans now are in possession of the whole line of railway from Chelm to Blalystok. The Russians having already avacuated the latter city, the lesser fortresses of Grodno and Olita now are the only strongly defended positions remaining in the hands of the Russians. Both these re-being approached by the Germans. They probably will be given up when they have fulfilled their purpose of facilitating the Burstan states. facilitating the Russian retreat.

The Russians have not yet entered the wast Bleloviezh forest, which exends 30 miles north and south and has a width of from 17 to 30 miles The forest is a famous hunting center and a bison preserve. the profit derived from the production of spring lambs. A circular just issued by the agricultural experiment issued by the agricultural experiment station at the University of Missouri reports the work done with ewes suckling lambs, fed on rye and blue grass pastures. Ewes were placed in four lots. In one lot ewes received grain on rye pasture. Those in another lot received only rye pasture. In a third lot the ewes were fed grain on blue grass pasture, while these in on blue grass pasture, while those in lot four received only blue grass pas

consisted of equal parts of crushed corn, cats, bran and rape. The re-sults show that the feeding of grain to ewes on ryo and blue grass pasture was not profitable, if the ewes were to be kept. If the ewes were to be marketed with the lambs, the feeding of grain would have been profitable, because the ewes which did not receive grain became very thin and were not in condition to sell on the market, while those receiving grain maintained about the same condition of fiesh throughout the experiment. There was little difference in the

efficiency of rye and blue grass pas-tures for ewes suckling lambs. In cases where grain was fed, the ewes on blue grass had decidedly the ad-vantage, while in the other two lots had the advantage. The difference in each case was small. Rye will come a little earlier in the spring than blugrass, but will not afford as good s the rye heads and the sheep do like coarse, woody stems.
