County Fair Oct. 5th-8th.

The manager, Mr. A. G. Thompson, of the People's Fair Association, is busy working for the Fair to be held on Oct. 5th to 8th. The Fair will be held at the old Alamance Fair Grounds. The best Fair the county has ever had is promised. Furthermore they say they will pay the premiums awarded, a thing that has not always been done in the past. People, who go to the trouble to get up exhibits and win premiums and then do not get them, soon get tired of that kind of game and drop out. As a matter of fact premiums never pay for the trouble it takes to get them, but exhibitors are satisfied when they do get them.

Boiler Explosion near Snow Camp Kills Three Men and Seriously Wounds Others.

Yesterday afternoon, about 2 o'clock, the boiler at the saw mill of Johnson & Fuqua, about one mile from Snow Camp, in the southern part of the County, exploded. The results were disastrous. It is reported that three were killed outright—Sidney Boggs, aged about 22 years; Otis Johnson, one of the owners of the mill; and Flem Fuqua young son of one of the owners. Mr. Fuqua, one of the owners, lost his right arm below the elbow. Mr. Elbridge Boggs, whose son was killed, suffered injuries but they are not serious. Others who were nearby were hurt but we have been unable at this writing to obtain their names. The saw mill was completely wrecked.

WOMEN'S WOES

Graham Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up"; must attend to duties in spite of constantly aching backs or headaches, dizzy spells, bearing down pains, they must stoop over, when to stoop means torture. They must walk, and bend and work with racking pains and many ache sfrom kidney ill. Keeping the kidneys well has spared thousands of women much misery. Read of a remedy for kidneys only, that is endorsed by people you know.

Mrs. A. Bradshaw, Mill Street, Graham, says: "I had pains in my back and sides that hurt me all the time. My kidneys were irregular in action and I was nervous and unable to sleep well at night. Doan's Kidney Pills made me feel Pbetter than I had in years. I have given Doan's Kidney Pills to the children and know they are a safe medicine."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same Mrs. Bradshaw had. Foster-Milburn Co., Props., Buffalo, N. Y.

FULL WEEK OF COURT.

Liquor Sellers Get Road Sentences Coupled With Fines—Other Road Sentences—Three Go to Pen.

WILL WILLIAMSON FOR MANSLAUGHTER GETS 5 YEARS IN PEN.

Morris Graves Takes Wife's Place and Goes to Roads 3 Months.

Last week was a busy one in Alamance Superior Court, and lasted the whole week.

The liquor selling cases were hard to deal with, but Judge Allen is disposed to break it up by giving road sentences to those convicted: Billy McCoy, an afflicted man, is fined $100 and costs; James Perry and Henry Jeffreys each pay a fine of $100 and costs and go to roads for terms of six months; Rainy Shanks 3 months.

Other road sentences were imposed as follows: Will Walker, resisting officer, 3 mos.; Ed. Durham, concealed weapon, 4 mos.; John McMullin, concealed weapon and resisting officer, 12 mos; Doc Shavis, concealed weapon and larceny, 12 mos.; Jim Graves, escape, 4 mos; Will Cook, assaulting wife, 4 mos.; J. G. Latta, false representation, 12 mos.

Will Williamson, indicted for the murder of Ed. Moore, submits to a verdict of manslaughter and is sent to the penitentiary for 5 years.

Arthur and Jack Graves, convicted of house-breaking and larceny, each get 5 years in penitentiary.

Four colored boys are bound out and a white boy is sent to a reformatory. These are under 14 years of age and plead guilty of taking money and other things.

Morris Graves' wife was convicted of selling liquor and sentenced to a jail term. He gallantly proposed to the Court to take her place. The Judge appreciated the fine spirit of the man and let him plead guilty in a case and sent him to the roads for 3 months.

Investigation with a view to promoting home production of vast quantities of chemicals now imported will be made by Dr. Thomas H. Norton, chemical expert of the bureau of foreign and domestic commerce. Doctor Norton says the United States has available raw material for fully 75 per cent. of the $95,000,000 worth of chemicals imported annually.

At Winona, Minn., Rev. Patrick Heffron, bishop of the Winona diocese of the Roman Catholic Church, who was shot as he was celebrating mass in a private chapel at St. Mary's College, by a priest, is believed to have to a fair chance to recover. The priest was arrested. He was enraged by the belief that the bishop had mistreated him in Church matters.

Rev. Edmund Kayser, a Luthern minister who was found murdered at Tolleston, Ind., a few days ago, was, it is said, very pro-German and an active German sympathizer,, and the belief is expressed that he was killed on this account: Another theory is that a woman had a hand in his murder, as it is said he had received anonymous letters making threats on account of his attentions to ladies.

Charges have been filed by George S. Shepherd, an attorney of Portland, Ore., with Senator George E. Chamberlain, chairman of the Senate military affairs committee, against Capt. Leonard T. Waldron, in command of the Ninety-third Coast Artillery, stationed at Fort Stevens, Ore., and Lieut. Harold L. Gardiner, of the same company. The officers are charged with drinking a toast to the Germans, which they deny.

The wife and three children of Gen. J. J. Pershing, an army officer, were suffocated in a fire that destroyed their quarters at the Presido, San Francisco. Gen. Pershing was absent, in command of troops on the Mexican border. Only one member of the family was rescued alive—a boy five years old.

Physicians who have seen the analysis and what it does, recommend its use.

Analysis and testimonials will be furnished upon request. Why buy expensive mineral waters from a distance, when there is a good water recommended by physicians right at home? For further information and for the water, if you desire it. apply to the undersigned.

Educational Column Conducted by J. B. Robertson.

For four years the Superintendent of schools has published through the columns of our county papers school news. By this means the work of the schools, the progress made has to some extent been kept before the people. This has been done that every one may know what is being done, and that we may be instructed and encouraged by our own accomplishments.

It is our purpose this year to run weekly an educational column, and in this column publish school news and also to give instruction of every nature concerning school work. The larger part of the column will be devoted to instruction rather than news, however, news will have a place and a part.

We are constantly studying the work with the view to making it bigger and better. The ensuing year we hope (1) to increase the attendance over last year by making a close campaign for every child between 6 and 21; (2) to do a more efficient grade of instruction in every academic subject; (3) to increase the number of schools that do industrial work; (4) to do more direct work for the community through the school as an direct agency; (5) to have a bigger and better County Commencement by organizing each department and by putting it under the direction of a special committee. A blank will be furnished every principal teacher in each school on which she will be required to write the name of each pupil who does not enrol during the first two weeks, also the reason he or she has not enrolled. With this information every delinquent will be canvassed personally for the school. We shall try to work out a more efficient grade of instruction by giving the Primary teachers special instruction in Primary methods, by requiring professional reading on the part of the teacher and by closer supervision. We are planning to directly benefit the communities more by having more nearly complete community fairs, by organizing road patrols among the boys, and by lectures on rural improvement. We shall plan from the beginning for a larger, and hence a better, commencement. We have reached the place in development where the work cannot be done by one force. We shall organize each department that each department may have the time and attention of an entire force and thereby be enlarged and strengthened. And, also, we shall not be forgetful of recording the record we make. Every school will be given a blank for making a complete record of every phase of school work; and every teacher will be required to read that record, so made and recorded, at the end of school that all may know the work the school has done.

Miss Jeffcoat has worked out some very practical helps for the Primary teachers of our county, which she proposes to give to the Primary teachers and to the teachers of the "one teacher schools," beginning Saturday, Sept 11, and continuing through the following Saturdays, the dates being Sept. 11, 18 and 25. She will meet the class only on these days and will outline work for them which she wishes them to do at home and present at the following meeting of the class.

There's a Right Way To Do Everything. Napoleon Knew This

By MOSS.

MR. BUSINESS MAN, don't ditch this. READ IT.

Advertising consists of HAMMERING AWAY at the same point until the inert covering of the public mind is penetrated.

Advertising is the SYSTEMATIC sowing of seed, not the scattering of salt on the desert.

Advertising is the STEADY plying of the ax of publicity upon the tree of obscurity until the tree is cut down.

Perhaps you are the kind of merchant or manufacturer who has heretofore bought space for one insertion of an ad, and then resisted all efforts of our solicitors to get you to follow it up, or you have followed it up when too late.

One tap of the hammer, one blow of the ax, is not enough. Scattering a handful of seeds never raises a crop in rows.

You can't CONVINCE people that your goods are reliable if your advertising is UNRELIABLE.

Napoleon never would have been Napoleon if he had not been the most DARING, most CONSISTENT planner and campaigner of the age.
