GENERAL HUERTA

Former Mexican Dictator Who Died at El Paso, Texas.

1 KILLED, 2 DYING IN CHURCH RIOT

Many Others Injured as State Police Charge Crowd.

FACTION FIGHT THE CAUSE

Trouble Began When Constabulary Escorted Priest to Dupont Edifice and Attempted to Disperse the People.

One man was killed; two, including a state trooper, are dying; seven, including Captain Pitcher, Corporal Carlson and Trooper Stevenson, are seriously and scores of others battered and bruised in a clash at Dupont near Pittston, Pa., between the troopers and a mob of over a thousand persons, members of the Polish Catholic church.

It was the worst riot in the coal fields since the constabulary has been stationed at Wyoming.

The dead: George Greizer, aged 57, died five hours afterward with bullet wounds in the thigh and abdomen.

The injured: Roff Humer, of Carlisle, a constabulary trooper, was injured seriously, and scores of others battered and bruised in a clash at Dupont near Pittston, Pa., between the troopers and a mob of over a thousand persons, members of the Polish Catholic church.

The riot grew out of sectional strife at the Dupont Polish Catholic church, the faction which fighting Bishop Hoban's appointment of Rev. Francis Sowsnowski, as pastor about a month ago.

Trouble ensued when the pastor first attempted to take charge and the matter was brought before Luzerne county court. Eight members have been held for contempt of court. President Judge Fuller instructed Sheriff George Busb to take charge of the affairs and give police protection to the pastor, when the church was to be reopened after having been closed three weeks.

When Sheriff Busb, accompanied by Captain Pitcher and a squad of state troopers mounted, escorted the pastor to the church they found the edifice occupied by the Milligan faction and the edifice surrounded by over one thousand men and women.

Most of the men were armed with clubs many of which were studded with many nails. Others had their hands full of stones. The women had bottles of ketchup. The sheriff and troopers attempted to enter the gates and Sheriff Busb called for the crowd to disperse.

A decisive yell and a shower of stones was the reply. Father Sowsnowski became disoriented and refused to take further steps to get in but Captain Pitcher stepped to the police barracks at Wyoming for additional help and twenty troopers hurried to the scene in automobiles.

Captain Pitcher then insisted on the mob vacating the premises, and another shower of rocks followed. The police then demolished a portion of the fence, and led by the mounted of floors, charged into the mob, but the rioters stubbornly held their ground, meeting the charge with clubs, stones, mustard and pepper.

Each by inch, however, they were driven back. As fast as the police subdued the rioters they were hustled into the church basement and held as prisoners by the deputy sheriff. When finally the mob was dispersed, the injured were taken to Pittston hospital. Auto trucks were summoned from Pittston and hauled seventy-eight rioters, many of them nursing bruises, from their temporary prison, to the county jail.

Molten Metal Burns Eight.
A wave of molten steel from an overturned ladle in the steel plant of the Phoenix Iron company, at Phoenixville, Pa., swept through a group of workmen and terribly burned eight of them as they ran.

The accident is the most serious that has occurred in the big iron mills in ten years and the burns received by some of the injured men are expected to prove fatal. All are in the Phoenixville hospital.

The injured are: Francis McCallen, John Stasiz, John Oleosky, Harry

PREMIER SKOULODIS

Aged Greek Minister to Retire in Favor of Younger Man.

MONTENEGRO SUES FOR PEACE

Quitting of Little Kingdom Confirmed at Budapest.

SURRENDER IS UNCONDITIONAL

Marks the First Break in the Allies Rank—Terms Are Offered by Austria.

The Berlin Overseas News is a c. anno news that Count Tizze, the Hungarian premier, had declared in the Hungarian parliament that Montenegro had asked for peace.

Montenegro, which asked for the peace last Tuesday, consented unconditionally to lay down her arms and accept the preliminary conditions requested, the premier declared.

The news agency report ran as follows: "The proceedings under the first paragraph of the order of the day had just been completed when Count Tizze asked permission to interrupt the discussion. He stated that the king and government of Montenegro had asked the inauguration of peace negotiations."

"The announcement caused a great commotion in parliament. We asked that beforehand Montenegro would be secured the peace she requested, the premier declared. "Joyful shouts followed this statement."

"Just at this moment," continued the prime minister, "the news has arrived that the unconditional laying down of arms has been accepted."

"Since the preliminary conditions have been fulfilled, peace negotiations will be entered into immediately."

Terms Offered by Austria.
Terms of the separate peace said to have been offered by Austria to Montenegro are given in a Vienna despatch as follows:

Austria engaged to guarantee Montenegro all territorial rights in Scutaria in exchange for the coast of Mt. Lovcen to Austria.

Following Cettinje's fall, the Montenegro officials in Scutaria retired to Alessia, twenty miles south of Scutaria and near the Adriatic sea.

Fifteen allied aeroplanes, setting out from Salonika, have bombarded the Bulgarian camp on the Serbo-Greek frontier. The aviators report that a number of Bulgarian soldiers were killed and wounded.

Prince Paul, Frederick, son of the Kaiser, is reported by Swiss newspapers to have been sent to Athens on a special mission to King Constantine.

KING URGES SWEDEN TO ARM

Disregard of Neutral's Rights Increases Need of Preparedness.
The Swedish Parliament was opened. In the speech from the throne, as forwarded by Reuter's correspondent at Stockholm, King Gustave said:

"A ferocious struggle of ever-increasing intensity, which will decide the future of nations, is taking place. Our government earnestly hopes to be able always to maintain the neutrality which it decided to observe from the beginning, but to maintain neutrality and the sovereignty of Sweden, in crossed forces on land and sea must be in readiness."

"Sweden has felt the effects of the war in enormous ways during the last year. Bellicose nations have neglected an ever-increasing degree to observe international law providing for protection of neutrals and for limitation of deeds of violence."

King Gustave emphasized Sweden's part in upholding international law and the constant difficulties she is meeting to obtain her economic rights because of the attitude of belligerents. The government had been compelled more than once, he said, to resist attempts to place the industrial and commercial rights of the country under the surging control of another power.

The Girl of It.
"Last December I had a very severe cold and was nearly down in bed. I bought two bottles of Chamberlain's Cough Remedy and it was only a few days until I was completely restored to health. writes O. J. Metcalf, Weather, Mo. If you would know the value of this remedy ask any one who has used it. Obtainable everywhere."

VILLA MEN KILL 2 MORE AMERICANS

Mining Prospectors Slain by Mexican Bandits.

GORE PLANS JOINT ACTION

Senate Resolution Would Establish a Neutral Zone, Policed by Both Governments.

Albert Simmons, of Los Angeles and Victor Hamilton, of Culiacan, were murdered at Piedrich, Mexico, by Villa bandits, according to a despatch from Mexico. The men were mining prospectors.

The Carranza official said that as far as they have been able to learn, the two Americans were killed while out on a chance to get out of the country and that the murders were committed simply because the men were Americans and subjects of the Wilson administration which is supporting the Carranza government.

Piedrich, the place where the Americans were killed, is sixty miles west of Torreon.

The report of the killing of the two Americans came through the Carranza military officials at Juarez. They declared that Simmons and Hamilton had been killed by bandits under the leadership of the Arreeta brothers.

Urges Joint Action to Stop Murders.
Establishment of a neutral zone in northern Mexico, to be jointly policed by the forces of Mexico and the United States unless the disorders are speedily controlled, is proposed in a resolution introduced by Senator Gore, Democrat, of Oklahoma. The resolution, which was referred to the foreign relations committee, was introduced by the president to enter into an agreement with General Carranza to use troops to restore order and make life secure in that portion of Mexico adjacent to the United States. There was no discussion of the proposal.

State department agents indicate that Carranza's officials at Chihuahua as well as Carranza, head of the party of American mining men, of whom sixteen were killed near Santa Ysabel that no report was necessary.

What opinion many of the American miners hold, although they had suggested to the authorities the advisability of sending troops with the party.

The advice further said the Carranza governor of Chihuahua gave Carranza permission to enter into the Carranza immigration authorities in Juarez gave a general pass for the whole party. These developments are taken to point to responsibility of the Carranza government for not adequately protecting the Americans.

What opinion many of the American miners hold, although they had suggested to the authorities the advisability of sending troops with the party.

The Carranza government for not adequately protecting the Americans.

ELISEO ARREDONDO

Carranza Assures U. S. Mexican Bandits Will be Captured.

SHELL LILLE WITH BIG GUNS

Lens, Key to French City, Also Under Bombardment by Allies.

Rungs to match the mighty, long range big guns of the Germans have at last reached the allies' front in France, says an Amsterdam despatch.

Chief interest is centered in the German announcement that the British have bombarded Lille (in France), using a gun with a range, estimated at twenty miles.

This is the first time that Lille has been under artillery fire since it fell into the hands of the Germans in September, 1914. German guns with a range of twenty miles, which were used for the bombardment of Dunkirk and Ypres, were hitherto unattached on the allies' side, but the latest developments show that the Germans must now face equal metal.

It is regarded as significant that the English make no announcement of the shelling of Lille, while the French war office states that the British have bombarded Lille (in France), using a gun with a range, estimated at twenty miles.

The German war office announced an allied bombardment of Lens, called the key to Lille. Sixteen inhabitants of the town were killed or wounded by the shell fire, the Berlin statement adds.

TRAIN KILLS COUPLE

Children Were Hurled From Their Arms, Escaping With Slight Injuries.

Blinded by a snowstorm, John Stach, thirty-three years old, and his wife, Mary, thirty-two were caught in a cut on the Pennsylvania railroad at Union Furnace, near Tyrone, Pa., and instantly killed by a freight train.

The husband was carrying his four-year-old daughter, Mary, and the wife the two-year-old daughter, Anna, at the time, but the children escaped with comparatively slight injuries. Mary suffered a broken leg, and Anna received lacerations of scalp. The children are in an Altoona hospital.

The Stachs had been to Tyrone shopping, and returned to Union Furnace on the local train. They took the shortest route to their home through the cut. The wind was whirling the fine snow in the freight train. Hear the No. 21 approaching, they stepped onto an adjoining track and were run down by the freight.

HISTORIC PAPERS BURNED

Documents by Washington Lost in Ruins of College Building.

William Smith hall, the main building of Washington college, at Chestertown, Md., was wrecked by fire.

So rapidly did the flames spread that all the archives, including many historic documents, some of them in the handwriting of George Washington, were burned. The building cost \$75,000.

WOMEN OF SEDENTARY HABITS

Women who get but little exercise are likely to be troubled with constipation and indigestion, and highly beneficial. Not so good as a three or four mile walk every day, but very much better than to allow the bowels to remain in a constipated condition. They are easy and pleasant to take and most agreeable in effect. Obtainable everywhere.
