in which the navor or quality depends importantly on absolute freshness. Peas and string beans or lima beans, to be at their best, should be cooked almost immediately after they are gathered. Peas kept even for a day lose their delicate bloom and sweetness. Consequently as much space as possible should be devoted to such vegetables and other vegetables in which fresh

ing in Jerusalem, and this young man was her son. We might infer from Zech. ii, 4; Jer. i, 6, 7; that both of these men were called to be the Lord's mesand other vegetables in which fresh-ness does not count so importantly should largely be used as fillers to keep the ground at work. Effort also should be made in a garden to have special vegetables, such as okra, of which the family is fond and which are difficult to obtain in local markets on one community high priced. The sengers as young men. Paul's sister's son' was certainly the Lord's me these nurderers. The result was that Paul was started off to Caesarea by night with an escort of 200 soldiers, or are commonly high priced. The

harvested the second crop will be i bearing and the plants of the third well advanced. Next study your garden bulletins or books on horticulture and the seed cat-alogues to determine what can be grown in your climate under the con-ditions of exposure, soil and drainage in your back yard. This study may lead you to plan ditches to improve drainage, show you that your soil needs finely sifted ashes to break up its sticky character or that you mus add rotted manure, dried blood, bone meal, wood ashes, lime or other fer-tilizers to make it suitable for vege tables. Then comes the consultation with the family to determine the sorts of

the ramity to determine the solts of vegetables the different members like and which, therefore, they personally will be interested in raising. Confine your selections to the standard well tried sorts. Finally, and this is most important, is the conference betwee the garden force and the housewife as to what vegetables really are worth raising in the back yard. It will hard-ly pay to raise in a small space potaoes, corn, cucumbers, squa melons, which occupy a large area in

that sitteth in the heavens shall laugh meions, which occupy a large area in proportion to yield and which can be bought cheaply in nearby markets. In general the aim of the back yard gardener should be to raise those veg-etables which are either expensive or "The Lord shall have them in derision." "The Lord bringeth the counsel of the heathen to nought. He maketh the devices of the people of none effect." "Take counsel together and it shall come to nought" (Ps. ii, 4; xxxiii, 10; Isa, viii, 10). Now we come to a young man in which the flavor or quality depend boy whose loaves and user than 5,000 and other young r We are also
