OLDER BUT STRONGER

To be healthy at seventy, prepar's at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Rumision which is a lood, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No sloohol in Scott's.
