Lunches For Soldier Boys

Before the departure of the soldiers Saturday night each one will be provided with a lunch in a neat package. It is a thoughtful act and will be appreciated by the boys.

Patriotic Rallies.

A patriotic rally for the benefit of the soldier boys will be held tonight in Graham and tomorrow night in Burlington. Hon. E. S. Parker, Jr., will deliver the address in Graham The rally in Burlington will be ad dressed by a good speaker. The public is invited.

Birthday Dinner.

A very pleasant noon hour was spent at the home of Mr. Richard Burke, August 28. He with his work fellows, Bun Foster, N. J. Small, J. H. Moser, T. J. Reavis, Gaston Conklin, E. A. Fogleman. J. M. Buckner, C. R. Mann, and Henry Blaylock, Mrs. Blaylock, two children, Rev. Fleming Martin, wife and little son, Lloyd, Mrs. Strongest and daughter, with Mr. Burke's tamily partook of the sumptuous, annual birthday dinner, which was heartily enjoyed by all.

Farewell Services.

Two farewell services were held Sunday for the soldier boys to which the Red Cross and other orwhich the Red Cross and other organizations were specially invited. At 11 o'clock in Graham all the churches in Graham united in the farewell service at the court house. National hymns were sung and Dr. T. M. McConnell preached an excellent sermon. The congregation was large and attentive. At night a similar service was held at the Episcopal church in Burlington. The large edifice was packed. The devotional exercises consisted of hymns and prayers, and the sermon by the Rector, Mr. Gibble, was unusually strong and edifying. It was a most impressive service throughout.

Court Proceedings.

Court Proceedings.

The court last week cleared the docket of a large number of cases and left few to be carried forward to the next criminal term. Some scaped with the payment of costs, some with fines and costs, and others drew road sentences. The following were given road sentences: For manufacturing, selling or having liquor for sale: Wm. J. Edwards, 4 mos., Ebb Brewer, 4 mos., appealed; John Self, one year; Ed. Enochs, 4 mos.; Ed Austin, 2 mos., appealed; Oscar Bäss, one year.

Soldier Boys Leave Saturday Night.

The Headquarters Company, stationed here for the past month, and the Company in Burlington have been ordered to Camp Sevier at Greenville, S. C. They will leave here at eight o'clock Saturday might. The boys here have come to feel quite at home and the relations have been so pleasant octween them and the people here, the parting will be a source of mutual and sincere regret. The daily band concerts have been enjoyed and will be missed, and the brightfaced stalwart young men will be missed. Here's hoping that not one of them will suffer so much as the loss of a hair of his head, that the conduct of each will be that of a true soldier and patriot, and that when the conflict is over all of them will return to gladden the heat of carrieds and loyed ones. and that when the conflict all of them will return to the hearts of friends and lo of them will return to gladde hearts of friends and loved on

Just As Scores of Graham People Have.

Plant Now to Save and Increase the Plant Food in Your Garden to get Better Yields Next Year.

The old saying that "You can not eat your cake and have it too" does not altogether apply in the garden. Or, to put it differently, if you handle your garden in the right way in the fall you can get a lot of the raw plant foods which it contains "cooked-up" and ready for your crops to use next season and also save the next season's use the 'left-overs' that otherwise would go to waste from the plant foods you applied this year. The plant food in the soil exists

in two forms—called "available' and "unavailable." This simply means that the plant food that is termed available is in such forms that the roots of growing plants can make immediate use of it, while that termed unavailable is in such condition that it has to undergo chemical changes before the plant can take it up. To make we may say that the unavailable plant foods in the soil correspond to the materials of various kinds which the cook may have in the kitchen cupboard—flour, rice, kitchen cupboard—flour, rice, lima beans, spaghetti, etc. These are all "foods" but not available for human use until after they have been changed by cooking. The parallel may be carried a step tarther in that, after they have been prepared, they cannot be kept indefinitely, and unless made of a large percentage of them will be lost or wasted.

How to Keep Ready-to-use Plant Food

During the fall, winter and early spring a great deal of the plant food in soil that is left bare is carried away in the surface washing and in the drainage water result-ing from rains and from melting snows. In the case of nitrogen three plant foods most likely to be "short" in any soil—nitrogen phosphoric acid and potash—fur ther loss is occasioned by its pass ing off into the air. One of the gardener's most important pro there may be left of these available plant foods at the end of the season for another year. And, like the surplus foods in the

kitchen they may be saved by

'canning".

It may at first glance seem a rather difficult problem to can an invisible something hidden away in a foot or so of garden soil which it would take an expert chemical analysis to find. But in reality it is much easier than the kind of canning you do in the kitchen. By planting a crop that will grow through the winter and early spring the surplus available foods will be stored up in the roots, stems and leaves of the growing plants, and when these are plowed or spaded under in the spring and decompose, you get your plant foods back again, ready for use by the vegetables you plant next spring. In addition you fill your garden soil with "humus", or garden soil with "humus", or vegetable matter, which is almost as essential for the healthy, vigorous growth of your plants as hav ous growth of your plants as av-ing plenty of plant food in the soil. Humus keeps the soil broken up and porous and absorbs the surplus moisture, storing it up for the future needs of the growing plants during dry weather.

For these reasons you can readily see that the sowing of winter or cover crops on every square foot of your garden left uncovered foot of your garden left uncovered before freezing weather is not merely a hobby, but just about as important as putting mannre on the railroads war board. The your garden in the spring. South of Philadelphia either these or crimson clover may be used. Both the vetch and the clover are "legumes" and not only conserve plant food as described above but gather nitrogen from the air, ctually enriching the garden soul on which they grow. The earlier ters urging negroes to rise against these can be sown the more growth they will make before the ground will be no color line when Gerthey will make before the ground freezes up. The best way is to have enough seed on hand and sow each patch of ground as soon as it is available, instead of waiting until you can clear off all of for late crops, such as melons and beans, so that the cover crops will have more of a chance to The clover can be sown any time up to the first week of September, and the rye and vetch until early frost.

Clean the Garden Up Now.

Too many gardeners make the mistake of leaving all the cleaning up there may be to be done in the What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and hidden ocauty? crops, But these little jokes of the weather man are not so funny. What has become of the old fash-fashioned rumor that the Kaiser has resigned?

Although a pacifist never enlists, he is the first to want the militia called out when there's trouble in his neighborhood.

It may have been observed that the panic stricken Russ immediate-ly refaced the enemy when he found his wife in the rear.

Suspicion is naturally aroused when a newly married man whose young wife does her own baking comes out strong for seven wheat-less days a week. Ten days in Washington leaves the casual visitor with a distinct impression that the war is a great

ocial success. Germany's peace dove continu

Calling off their strike was a happy thought on the part of the striking switchmen.
