EUREKA Spring Water FROM EUREKA SPRING, Graham, N. C.

A valuable mineral spring has been discovered by W. H. Ausley on his place in Graham. It is noticed that it brought health to the users of the water, and upon being analyzed it was found to be a water strong in mineral properties and good for stomach and blood troubles. Physicians who have seen the analysis and what it does, recommend its use. Analysis and testimonials will be furnished upon request. Why buy expensive mineral waters from a distance, when there is a good water recommended by physicians right at home? For further information or the water, if you desire if apply to the undersigned.

W. H. AUSLEY.

AMERICAN TROOPS NOW IN TRENCHES

PERHING'S SOLDIERS NOW OCCUPY FRONT LINE TRENCHES IN FRANCE.

ARE FACE TO FACE WITH FOE

Men Have Adapted Themselves to Actual Trench Conditions in the Most Satisfactory Manner - Nation is Thrilled by News.

With the American Army in France. Following is the first official statement issued from the American headquarters:

"In continuation of their training as a nucleus for instruction later, a contingent of some battalions of our first contingents, in connection with veteran French battalions, are in the first line trenches of a quiet sector on the French front. They are supported by some batteries of our artillery in association with veteran French batteries.

"The sector remains normal. Our men have adapted themselves to actual trench conditions in the most satisfactory manner."

The nation was thrilled by word that American troops at last were face to face with the Germans across No-man's-Land. Announcement by General Pershing that several battalions of his infantry were in the front line trenches, supported by American batteries which already had gone in action against the enemy, fanned a new flame of patriotism throughout the country.

The absolute silence with which Secretary Baker and war department officials greeted the news, however, showed that although the movement into the trenches had been expected at this time, it was regarded only as the final phase of the men's training. German shells are breaking about the Americans and, although they have not taken over the trench sector, rifles, machine guns, bombs and bayonets in American hands will greet any enemy attack.

AUSTRO-GERMANS TAKE OVER 100,000 ITALIAN PRISONERS

Whole Italian Army Retracts and Every Line is Wavering. Berlin (Via London)—(Bulletin.)—The capture of 100,000 Italians and more than 700 guns is reported in the official communication from general headquarters, which declares that the Italian second and third armies are in retreat.

The text of the statement reads: "The Italian second and third armies are in retreat towards the west. Our pursuit is advancing rapidly from the mountains as far as the sea. Up to the present 100,000 prisoners and 700 guns have been enumerated."

Berlin (via London, British Admiralty, per Wireless Press).—The Austrians and Germans have forced their way through the mountains to the plains of northern Italy, capturing the town of Clivada, the war office announces. The city of Gorizia, on the Isonzo, also has been captured. The number of Italian prisoners, according to the report, is increased to more than 80,000.

The announcement follows: "Rapid development of the united attack on the Isonzo again brought entire success yesterday. The Italian forces which sought to prevent our divisions from emerging from the mountains were thrown back by powerful thrusts. In the evening German troops forced their way into the bustling town of Clivada, the first town in point of position in the plan. "The Italian front as far as the Adriatic sea is wavering. Our troops are pressing forward on the whole line. "The number of prisoners has been increased to more than 80,000 and the number of guns to more than 600."

Rome (British Admiralty per Wireless Press)—Units of the Italian second army surrender or retreated without fighting, permitting the Austro-German forces to break the Italian left wing on the Julian front and invade Italy, says the official report.

PRESIDENT IS STUDYING CONDITIONS OF ALLIES

Washington.—From a number of prominent Americans recently returned from European war fronts, President Wilson is gathering first-hand testimony concerning conditions there and among civilian populations of America's allies. Men who have made observations within the last few weeks across the water have been welcome visitors to the White House, where they have been pitted with questions by the President.

Every bunch of vegetable leaves you use for greens instead of throwing them in the garbage can is a bouquet on the grave of Prussianism. Save your bits!

INSANE MAN KILLS WIFE AND TWO SMALL CHILDREN

Statesville.—One of the worst tragedies in the history of this section occurred when Carl White, of Taylorsville, became violently demented and killed his wife and two small children. Mr. White was at the home of his father, Mr. W. E. White, who was a former representative in the state senate from Alexander county, when the killing occurred. It had been noted that Mr. White was slightly wrong, but no serious thought was given.

Relief in Six Hours

Distressing Kidney and Bladder Disease relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water almost immediately, in male or female. Relieves retention of water almost immediately, and cures this in the remedy. Sold by Graham Drug Co.

OLD NORTH STATE NEWS

Brief Notes Covering Happenings in This State That Are of Interest to All the People.

That pound of wheat that YOU save every week will weigh very heavily on the Kaiser's mind.

Every time you use the bread knife on a non-wheat loaf you cut a slice off Germany's chance to win the war.

You don't want American boys to die needlessly. Saving food in American kitchens will save lives of American boys in France.

President Wilson says American women can do most to help win the war by enrolling as members of the food administration.

Fat pigs lightwood was sent from Red Springs to Washington for Mrs. Meadoo to use in kindling the Liberty bonfires.

Within the very near future the new and handsome church building in Elizabeth City will stand on the corner of Bond and Church streets. That, at least, is the present outlook.

The Mutual Cotton Mills, one of Gaston's newest plants, began operation several days ago when the first bale of cotton was opened and started through the pickers. Lee Smith is superintendent.

The Lincoln county council of defense, composed of R. S. Reinhardt, chairman; J. W. Mullen, secretary; L. B. Wetmore, R. F. Goodson, Dr. H. N. Abernethy, Dr. W. C. Kiser, Dr. J. Beam, has selected the members of the home guard for Lincoln county in accordance with the proclamation of Governor Blount.

A municipal coal yard and a fuel house for the winter, with which the people of the city can get coal and wood for the winter at cost, was discussed by the board of aldermen upon presentation of the question by Mr. J. P. Taylor, who stated that the local socialists had adopted the recommendation of State Food Administrator McAlester, of Greensboro, that fuel be furnished at cost.

The North Carolina Teachers' Assembly will meet in Charlotte during the Thanksgiving vacation, Nov. 28-30. The executive committee of the assembly and officers of the departments have arranged a most interesting program. Some of the best known educators in this country will speak at the general meetings. In the various departments of which there are nine, there will be papers and discussions concerning present day problems in the schools of the state.

Dimittie Mitchell Wooten, boy scout, took up a wee bit of space on Queen street in Kinston. A casual observer would have supposed Mitchell to be doing nothing else. But the lad's meekness has given him an opinion on a good big acreage when the promised partitioning of it of the earth occurs. "How about Liberty Bonds?" asked Scoutmaster Alfred Chealey, dodging five pedestrians and a toy balloon to get to the apparently lost Mitchell. "I'm doing a little something," said Mitchell, or some such words. He headed Mr. Cheney subscriptions for \$10,000 worth.

"The needs of many of the orphan institutions of the State were never so urgent as they are today and the necessity of making our appeal more direct and to a wider circulation than has been created by these abnormal conditions." This is the statement of the North Carolina Orphan Association in making its appeal to the men and women of North Carolina to contribute, on or near Thanksgiving Day, at least one day's income to the orphanage of his or her choice. The appeal has been delayed purposely, this year, so that it would not run counter to the Liberty Loan campaign. The publicity committee is composed of M. L. Shipman, James R. Young, John D. Berry, A. B. Barnes and Livingston Johnson.

A war-time conservation that promises to become world-wide in its scope and will probably last long after the necessity for conserving for war purposes has been inaugurated in Stokes county. The movement, recently started as an experiment, has spread over the entire county and is now in other sections.

Every bunch of vegetable leaves you use for greens instead of throwing them in the garbage can is a bouquet on the grave of Prussianism. Save your bits!

Robert Blackwell, 20 years old, an engineer on the Salisbury yards of the Southern, was instantly killed and his body badly mutilated last week. He had left his engine to remove a hot clinker from a track. When he did not return for some time, his fireman started a search and found him dead. Another shifting train had run him down. His widow survives.

What YOU save from what YOU serve will help turn the scale against Kaiserism. Think of this when you sit down to eat.

CERTAIN CURE FOR CROUP

Mrs. Rose Middleton of Greenville, Ill., has had experience in the treatment of this disease. She says, "When my children were small my son had croup frequently. Chamberlain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for coughs and colds with good results."

The Teutonic worm is turning back.

DAIRY FACTS

RECORDS WILL AID BREEDER

Dairymen Must Answer Various Questions Asked by Prospective Buyer of Herd Sire.

(By L. W. WIND, JR., Missouri Agricultural College.)

The present sharp competition in the dairy business and the increased price of feed force the successful dairymen to secure the greatest return possible from his outlay. If he has registered sows he expects more for his progeny than if he had only grades. But to obtain more and enough more to pay to keep purebred stock, the dairymen must be able to answer the following questions from the prospective buyer of a herd sire. Is the sire registered? What is the record of his dam? How many advance registry daughters and granddaughters has he sired? And what are the records of his granddams and grandfathers? If the breeder is selling a registered cow he must answer: What is her record; the record of her dams and granddams and the ability of her sire and grandfathers to produce advance registry daughters and granddaughters?

Superior Purebred Bull.

Several squadrons of tanks participated in the battle. Many prisoners were taken. Losses to Germans were extremely heavy.

VALUABLE HINTS FOR DAIRY

Overfeeding Causes More Trouble Than Underfeeding—Make Change to Skim Milk Gradual.

(By E. H. KILDEE, University Farm, St. Paul.)

In rearing and developing dairy heifers: Don't overfeed. Twice as many calves are stunted by overfeeding as by underfeeding. Don't change suddenly from whole to skim milk. Don't keep calves in damp, dark, crowded, poorly ventilated barns. Don't feed milk in dirty pails. Don't be irregular as to time of feeding, temperature or amount of milk. Don't feed too much alfalfa hay before the calf is three months old. Don't let calves suck each other after drinking milk. They should be placed in stanchions and fed grain. Don't let calves drink without water because it has had milk. Don't let calf drink foaming milk just from the separator.

MILKROOM IS A NECESSITY

Particularly Desirable in Warm Weather and Should Be Sorensen and Kept Clean.

A milkroom is a necessity in dairying and is necessary in the dairy instructor in dairy husbandry in the Kansas State Agricultural college.

A milkroom is needed at all times, but is particularly important in warm weather, pointed out Mr. Tomson. Milk must be kept away from flies. The room should be tightly screened and kept in sanitary condition. The milkroom should have facilities for keeping the milk cool. This is essential because when the temperature of the milk is higher than 5 degrees undesirable bacteria that cause the milk to spoil in a short time are likely to develop.

GOOD TREATMENT FOR COLIC

Disorder is Result of Feeding Materials Not Adapted to Stomach of Young Animals.

Colic in calves is the result of feeding materials not adapted to the undeveloped stomach of the young animal, or the feeding of the regular ration at unusual hours or in unusual amounts. The calf usually suffers violent abdominal pain, indicated by an unusual activity of the animal, frequent and continuous kicking, and, finally, complete prostration. Unless relieved within a short time, death usually follows. A standard treatment is to drench the calf at intervals of two hours with a mixture containing a teaspoonful of turpentine and a tablespoonful of raw linseed oil.

GIVE RIGHT AMOUNT OF FEED

Careful Feeders Study Individual Animals and Keep Them at Their Maximum Production.

Many careful feeders have their cows giving the most milk four or five weeks after the freshening time. They study the individual animals and endeavor to keep them at their maximum production by giving just the right amount of feed and no more.

You Can Cure That Backache.

Pain along the back, stiffness, headache and general languor. Get a package of Mother Gray's Australian Leaf, the pleasant run-down herb cure for kidney, bladder and urinary troubles. When you feel all run down, tired, weak and without energy use this remarkable combination of nature's herbs and roots. As a regulator it has no equal. Mother Gray's Australian Leaf is sold by Druggists or sent by mail for 50 cents. Address: The Mother Gray Co., Le Roy, N. Y.

Freckle cures are being crowded out into the background by remedies for chapped hands.

PAUL PAINLEVE

Paul Painleve, minister of war in the Ribot cabinet, is now the French premier.

PERSHING WITNESSES VICTORY

PRESENT THROUGHOUT BATTLE NORTHEAST OF SOISSONS AND SAW VICTORY.

Several squadrons of tanks participated in the battle. Many prisoners were taken. Losses to Germans were extremely heavy.

With the French Armies in France. General Pershing, commander-in-chief of the American forces in France was present throughout the battle northeast of Soissons, accompanied by General d'Esperey, of the French army. When the splendid victory by the French army had been accomplished, the American commander went over the greater part of the conquered territory, visiting among other points, the Vauxrais farm, which is more than a quarter of kilometer beyond the original French line.

Several squadrons of tanks participated in the battle and did excellent work in company with the advancing infantry. It was by means of these most modern war implements that the Filain farm was captured. "Most of the prisoners taken, who up to night numbered approximately 8,000, while others were still pouring out of the deep caverns, were caught in quarries. One group, composed of 400 men, was led out to surrender by a German soldier who spoke French and who assured his comrades that they need not fear bad treatment from their captors, despite the assertions currently made to them by their officers that the French massacred prisoners."

ARE YOUR HOGS PROFITABLE?

Pregnant Brood Sows Do Well on Clover or Alfalfa Forage and Bar or Two of Corn Daily.

Clover was worth over \$100 per acre in replacing corn in the hog ration in one test conducted at the Ohio experiment station, when corn was valued at \$1.98 per bushel. Other forage crops proved almost as valuable. Are you cheapening pork production by the use of such crops? There is no cheaper feed up to a certain point. Pregnant brood sows will do well on clover or alfalfa forage and an ear or two of corn daily. Young pigs and shotes must have more grain, of course, but they will thrive on alfalfa and clover. The Eber is a vessel of 984 tons. She is 205 feet long and has a draught of nine feet and eight inches. She has a complement of 125 men.

SHEEP RID FARM OF WEEDS

Also Return Fertility of Soil in Form of Manure—Grass With Cut Very Nicely.

Roadsides, lanes and fence corners may be kept clean and tidy by flock of sheep. Not only will sheep rid the fields of weeds and turn them into a marketable product, but they will return the fertility of the soil to the land in the form of manure. Sheep will graze with cattle nicely where grass is abundant, and will eat the plants the other stock leave.

TREATMENT FOR WILD COLTS

Complete Directions Given for Getting Foot of Refractory Animal into Position for Shoeing.

To raise a hind foot, put on a rope as on the front foot and draw the foot forward. To put a rope on the hind foot of a wild horse, tie up a front foot, have the assistant hold his hand over the eye on the same side as the foot to be lifted, or take the headstall in one hand, the tail in the other and whirl the horse until he becomes dizzy. While in this condition he may be handled with safety. Lift the foot forward two or three times and gentle it. As soon as the horse gives in carry the foot backward into a shoeing position and trim the hoof.

MINERAL MIXTURE FOR PIGS

Department of Agriculture Gives Formula for Animals on Pasture—Keep in Handy Place.

To supply mineral matter and a tonic for pigs on pasture the following mineral mixture is good, says the United States department of agriculture. It always should be accessible. Dissolve the copperas in hot water and sprinkle over the mixture. Copperas two pounds, slaked lime four pounds, wood ashes one bushel, sulphur four pounds, salt eight pounds, fine charcoal one bushel.

ELEVEN REGIMENTS ARE ORDERED TO CAMP GREENE

Washington.—The war department has worked out the schedule under which regular army regiments in posts to which they were sent for expansion will be transferred to winter quarters at national guard cantonments or national guard camps. The assignments include the 4th, 7th, 47th, 53th, 98th, 60th and 61st infantry, all at Gettysburg, Pa., and the 30th, 31st, 39th and 50th infantry, all at Syracuse, N. Y., to Camp Greene, North Carolina.

WANTED!

Ladies or men with rigs or automobiles to represent a Southern Company. Those with selling experience preferred, tho' not necessary. Brand new article. Excellent pay for hustlers. Address Mr. Gregory, 160 4th Ave. N. Nashville, Tenn.

MRS. P. O. STUCHELL TELLS HOW SHE CURED HER SON OF A COLD.

"When my son Ellis was sick with a cold last winter I gave him Chamberlain's Cough Remedy. It helped him at once and quickly broke up his cold," writes Mrs. P. O. Stuchell, Homer City, Pa. This remedy has been in use for many years. Its good qualities have been fully proven by many thousands of people. It is pleasant and safe to take.

FARM STOCK

POPULAR BREEDS OF SHEEP

Shropshire Combines in Fairly High Degree All Qualities Sought by American Breeders.

Sheep die easily sometimes, especially so for the man who is inexperienced with them. It may be said that the larger the breed the less hardiness they exhibit. Internal parasites kill more sheep than all other causes combined. Pneumonia, however, is quite common among the large English breeds. The Merino is the hardiest of all breeds, and the Southdown of all the English breeds. But the Shropshire is perhaps the most popular sheep in America today. It combines in a fairly high degree all the qualities that are

First Prize Shropshire.

sought in a sheep. However, there is a difference in the hardness of individual sheep just as there is with men. Some families of men break down and die young as compared with others. Similarly, some families of sheep die more easily than others. Selection, breeding and care and management are also factors in determining the health and vigor of sheep.

COAL PRICES TO GET GENERAL INVESTIGATION.

Instructions Have Been Sent to Attorneys to Prosecute Violators.

Washington.—A general investigation into the retail and wholesale prices of coal throughout the country appears to be in prospect. In a minor way, investigation of prices consumers assert they have been compelled to pay already has been started by the department of justice in various sections of the east and middle-west, both as to anthracite and bituminous coal.

These instructions were based upon complaints received by the department here to the effect that the margin of profit allowed dealers by the government had been exceeded.

FOREIGN LABORERS PAY CASH FOR BONDS

Bridgeport, Conn.—Twelve laborers of foreign birth in the yard of a local munition plant were approached by a Liberty loan canvasser who talked for half an hour without a sign of recognition. Then one of the group brought out a good sized roll of crumpled bills and said: "I take these bonds." In a few minutes the twelve laborers had subscribed for \$11,000 in bonds and had paid for them in cash.

ELEVEN REGIMENTS ARE ORDERED TO CAMP GREENE

Washington.—The war department has worked out the schedule under which regular army regiments in posts to which they were sent for expansion will be transferred to winter quarters at national guard cantonments or national guard camps. The assignments include the 4th, 7th, 47th, 53th, 98th, 60th and 61st infantry, all at Gettysburg, Pa., and the 30th, 31st, 39th and 50th infantry, all at Syracuse, N. FOR A WERK STOMACH.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you find that you have eaten too much and when constipated, take one of Chamberlain's Tablets.

IS HINDERED RUNNING OUT OF GREAT STRATEGIC RETREAT?

As time goes by the singular appropriateness of the goose-step becomes evident.

GRAHAM CHURCH DIRECTORY

Graham Baptist Church—Rev. W. D. Davis, Pastor. Freshening every first and third Sundays at 11:00 a. m. and 7:00 p. m. Sunday School every Sunday at 8:45 a. m. P. Williams, Supt. Prayer meeting every Tuesday at 7:30 p. m.

BRAZIL PROCLAIMS WAR WITH GERMANY

CHAMBER OF DEPUTIES AND SENATE DECREE THAT STATE OF WAR EXISTS.

IS SANCTIONED BY PRESIDENT

Senate Unanimously Approves Step and Vote in House of Deputies is 149 to 1—Torpedo Boat Destroyers Get Orders.

Rio Janeiro.—The chamber of deputies by an almost unanimous vote, declared that a state of war existed between Germany and Brazil. The vote was 149 to 1.

The tribunes were filled to capacity. After a debate on the opportune necessity of proclaiming martial law, the president of the diplomatic commission spoke in favor of a law worded as follows:

"A state of war between Brazil and Germany is hereby acknowledged and proclaimed. The president of the republic is authorized to adopt the measures enunciated in his message of the 25th of October, and to take all steps tending to ensure national defense and public security."

The virtually unanimous vote of the deputies was received with general acclamation.

The senate unanimously approved the proclamation of a state of war with Germany.

President Bras has sanctioned the proclamation of a state of war with Germany.

According to the newspapers, torpedo boat destroyers have received orders to proceed to Bagia and take possession of the German gunboat Eber, which has been lying there for some time.

The Eber is a vessel of 984 tons. She is 205 feet long and has a draught of nine feet and eight inches. She has a complement of 125 men.
