GRAHAM, N. C., Nov. 17, 1917.

A few days ago it was announced that the Maximilian temporary regime in Russia was falling to pieces. Kerensky had escaped capture and was returning with an army to rescue Petrograd from the new socialist party.

An item appeared a few days ago to the effect that the soldiers' sugar ration would be cut off. It was given small prominence and there may have been nothing in it.

North Carolinians showed their patriotism in a substantial way in Liberty Loan bond subscriptions. Her maximum allotment was \$27,000,000, which was oversubscribed by \$531,200.

The majority with which woman suffrage carried in the great State of New York lends much hope to the women suffragists throughout the country that their cause will finally triumph.

Hon. James W. Gerard, former ambassador to Germany in under promise to take an address in Charlotte. The date has not been fixed.

R. G. Messer of Charlotte, 24 years old, flagman on Southern railway was crushed between two cars at Camp Green, while flagging a troop train, and instantly killed.

P. E. Gidney, a negro farmer of Cleveland county, lost his barn and three mules, harness, buggy, and a lot of feed by fire, supposed to be incendiary. Loss about one thousand dollars with one hundred and twenty-five dollars insurance.

At the Swift Fertilizer plant near Wilmington, Monroe Brown, aggrieved at Jerry Douglas, whacked Jerry across the head with an empty beer bottle, killing him instantly. Brown escaped. Both colored.

A bean which lodged in the windpipe of the 7-year-old son of Mr. and Mrs. G. L. Roberts of Greensboro, caused the child's death after five weeks of suffering. Surgeons were unable to remove the bean.

"Vann Home" the girl's dormitory of Liberty-Piedmont county was burned Wednesday night. No body was hurt and nearly all the contents of the dormitory were saved.

On the second Sunday in December Dr. H. A. Brown, who has served the First Baptist church of Winston-Salem as pastor for 40 years, will formally tender his resignation, as he desires to retire from the ministry.

Sparks Shows, which have wintered in Salisbury for several years, will not be there this winter. The show is out on the road and is unable to return to Salisbury because the Southern Railway refuses to haul show trains.

Morgan Meat dealers paid 55 cents for beef cattle and retained 30 cents. The Morgan authorities, following the example of Statesville, abolished the tax on meat dealers and the price took a big drop.

Chapel Hill, N. C., Nov. 12.—Nearly three-fourths of the students of the University of North Carolina are now taking the new course in military training. Four companies drill daily on the athletic field or work in constructing military trenches for the trench warfare. Capt. J. Stuart Allen, of Princess Patricia's Canadian Light Infantry, is in charge of the instruction, and much progress has been shown in the eight weeks of actual drill.

During the past week national and regimental colors were presented to the student battalion by two alumni of the University. These colors were competed for by Company A winning them for the first time. After six weeks they will be competed for again. On Friday of last week the companies held an exhibition drill for the Orange County Rally Day visitors.

The students have been busy constructing all kinds of military trenches for the past month. The trenches are now nearing completion and trench warfare will be taught at an early date. Two deep dugouts are also being constructed and barbed wire entanglements will be put up this week. The training is making use of modern war methods as far as it is possible to do so, and Captain Allen's long experience at the front in Flanders has enabled him to give most helpful instruction through his lectures on modern methods of fighting. Two field maneuvers have already been held, and night maneuvers are planned at an early date.

The whole spirit of the campus has assumed a more military air, and the khaki clad students give an atmosphere of camp life. Target practice will soon be begun, and instruction in modern methods of bayonet fighting have already been given.

The new plan of the extension work which the university proposes to do this year has just come from the press and an outline of the work is clearly set forth. An attractive bulletin has been prepared, describing the scope and purpose of the LaFayette Association. Through this association the University will co-operate with the public schools in relating community endeavors to problems of national life and the special problems of war. The University News Letter has also made plans to set forth for its 15,000 readers some of the factors involved in the present war and the reasons why America must now exert her full strength. The best that is being thought and said concerning national problems at the present time will be given publicity by the News Letter.

Town, university and Chapel Hill community came together last week to observe the fifth annual rally day. A large crowd thronged the town and campus. Exhibits of products of the farm and the home were held in Memorial Hall, entertainments were provided by the students and an exhibition drill was given by the military organization. Prof. M. C. S. Noble was in charge of the exercises of the day.

LaFollette Sues For \$100,000 Damages.

Suit for \$100,000 damages has been filed at Madison, Wis., on behalf of Senator LaFollette against the Democrat-Printing Company and O. D. Brandburg, president of the company and editor of the Democrat. The action is based on alleged libelous contents of editorials, utterances, news dispatches, quotations from other newspapers and magazines and commendatory resolutions published in the Democrat. Intended to show that the Senator was giving aid and comfort to the enemy. Mr. Brandburg announces that the paper welcomes the test afforded by the suit.

Lieut. Hans Berg and Lieut. Alfred Loeschner, who on October 23 escaped with eight other Germans from the internment camp at Fort McPherson, Ga., were arrested near Laredo, Texas, while trying to cross into Mexico. The six other prisoners were captured soon after they escaped.

Not even Liberty loan speakers or soldiers and others appearing at theaters for government propaganda, are exempt from the war tax on admissions. The internal revenue commissioner has ruled that they must pay the tax imposed on persons admitted free.

Gaemel Dynamites

A Sluggish Liver

Crashes into sour bile, making you sick and you loose a day's work.

Calomel salivates! It's mercury, Calomel acts like dynamite on a sluggish liver. When calomel comes in contact with sour bile it crashes into it causing griping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel, and without making you sick, you just go and get your money back. If you take a calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you'll wake up feeling great, full of vim and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

The necessity for patriotic economy will be evident if we think of finance in terms of labor instead of in dollars. We have natural resources and we have capital invested in the tools of production, but even with these facilities our productive capacity is limited by the supply of labor. By labor we mean the personal service, whether of brain or of brawn, of the forty million of us who are engaged in gainful occupation.

To carry on the war we shall spend at least twelve billion dollars per year, or thirty-three million dollars a day. This is as much as great Britain is spending and fifty percent more than Germany is spending, and the figures are so huge that few of us appreciate what they really mean. Europe is already so deeply in debt that she may never be able to pay, and we are on the road to the same condition. Balance of trade statistics indicate that we have made an extra profit of five billion dollars, or about two billion dollars per year. The effect of this in enriching the country is suggestive of the result of three years of impoverishment at the rate of eight billion dollars.

Our normal annual savings are about four billion dollars, and not only will our war expenditure absorb all of these savings, but we must find eight billion dollars in addition. During the past three years our present allies have obtained much assistance from us, but as there is no country to whom we can turn we must carry our burden alone. Our savings go into public and private improvements, including the extension of business enterprises. These savings will not be available for war until we stop federal, state, municipal and private improvements; until we forbid all issues of securities except federal liability, following the example whereby England reduced the cost of industrial securities from \$400,000,000 in the first half of 1914 to \$11,000,000 in the same period of 1917.

The danger of a food famine has been brought home to us as never before. A real effort to reduce consumption, though our efforts to increase production are being seriously handicapped by the high price of labor. Immediately after war was declared the President warned the country that every one should produce more and consume less. The idea that business was to be suddenly reduced by a wave of economy was a shock to business men, and the cry "business as usual" spread over the country and caused the President's appeal to be forgotten. Not only are people spending as usual, but many are not only believe it their duty so to do.

Every dollar spent means the consumption of labor. We shall not be making it wrong if we spend four dollars spent consumes a day's labor, and that every twelve hundred dollars spent consumes a year's labor. The expenditure of twelve billion dollars will consume the labor of ten million people, 25 per cent. of our total labor supply. This added demand for labor has increased commodity prices 85 per cent. since 1914. The increasing demand reduces the efficiency of labor and thereby reduces the supply, and we are facing a further rise in commodity prices perhaps to exceed present conditions in England, where prices are up 120 per cent.

The most effective remedy is to decrease consumption, and it is imperative that everyone should make a drastic reduction in personal expense. The example must be set by the Government. A woman and child must be drawn into the movement until patriotic economy becomes the greatest fact of the country has ever known. Every one of us who will not economize during the greatest labor famine in our history, which has increased commodity prices 85 per cent. since 1914. The increasing demand reduces the efficiency of labor and thereby reduces the supply, and we are facing a further rise in commodity prices perhaps to exceed present conditions in England, where prices are up 120 per cent.

It is time for the Turkey gazette to issue a report. Austria is wondering where they got that stuff about "Sunny Italy." Do your Red Cross knitting early and keep at it. The British Lion roars in France with a Scotch brogue. Possibly LaFollette admires the Kaiser as a fellow egotist. The game in Flanders was not postponed for rain. Where is the man who used to sneer at England's part in the war? Hindenberg will go down in history and go down in the meantime. Noody can possibly have too many Liberty bonds. Whoever invented the wrist watch might stand up and admit that the war had justified him. By this time the Mexicans have no doubt become reconciled to the idea of not having Texas turned over to them along with a few iron crosses. A great many of Bernstorff's letters telling the Kaiser of his fine work in corrupting Americans were the merest scraps of paper. Boys in the German army are young enough to be listening to fairy tales, and they have been doing so. Cotton begins to look like thirty cents. If there be an "unwritten law" that is right, why not write it? Anyway, the air over Germany is still good enough for aviation. It's comforting to remember that Bernstorff was never married. Numerous recipes for preserving pumpkin are being circulated among housewives, but none has been found yet that is superior to preserving it in pumpkin pie.

CERTAIN CURE FOR CROUP.

Mrs. Rosa Middleton of Greenville, Ill., has had experience in the treatment of this disease. She says, "when my children were small my son had croup frequently. Chamberlain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for the coughs and colds with good results."

Hindenberg is 70. Should know better, too.

The 4 percent convertible gold bonds of 1937-47, which is the technical name for the bonds issued upon conversions, will be delivered directly at the time of the surrender of the bonds or interim certificates, or mailed or expressed to the owners at the addresses given on the request for conversion. Holders of interim certificates may have their bonds delivered to them without expense, as they have relieved the Government of the expense of issuing and delivering definite bonds. Holders of coupon bonds will receive their new bonds without expense if delivered directly to them, or the bonds will be sent to them by express at their risk and expense. Registered bonds will be delivered in person or mailed to the registered owners.

Holder of interim certificates should specify the denominations of the bonds desired. Holders of bonds will receive bonds of the same denomination as the bonds surrendered for conversion. Registered 4 per cent. bonds will be issued only upon conversions of registered bonds or, if requested, upon conversions of interim certificates.

France's Food Shortage.

The demand war is making on the resources of France is shown in statistics received by the United States food administration, dealing with wheat and food production there. In 1913 France produced 87,830,000 hundredweights of wheat; in 1914, 76,903,000 hundredweights; in 1915, 60,630,000; in 1916, 58,410,000, and in 1917, but 39,900,000 hundredweights. In foodstuffs, which comprises all cereals and includes potatoes and beet root, the 1913 production of 358,000,000 hundredweights has declined in 1917 to only 222,000,000 hundredweights. The figures quoted are from the statement of the minister for general re-arranging of France, Maurice Long, who says that his country must be brought face to face with realities.

RELIEF FROM COAL SHORTAGE PROMISED

Washington.—Immediate relief from the coal shortage in the east was promised by the fuel administration, which will issue an order modifying the arrangement under which shipments to the northwest have been given preference over all other movements. Priority orders will be suspended in a number of mining districts, particularly in Pennsylvania, to release both bituminous and anthracite coal for munitions plants and domestic consumers in the larger cities along the Atlantic seaboard. This, it is said, will assure a ample supply of fuel to the big steel-producing and ship-building plants. At present part of the coal mined in Pennsylvania, West Virginia, Kentucky, Ohio and Indiana is going to lake ports for transshipment to the northwest and to Canada. This movement has been so great that the north-west is in a position to have the supply cut down.

BRITISH MERCHANTMEN LOSSES SHOW DECREASE

London.—Fourteen British merchantmen over 1,600 tons were sunk by mine or submarine in the last week, according to the admiralty report. Four vessels under 1,600 tons were also sunk, but not fishing craft. The British losses of merchantmen for the current week show a considerable decrease as compared with the previous week when 17 vessels over 1,600 tons and eight under that tonnage were sunk.

FLIES FROM HAMPTON TO NEW YORK CITY

Mineola, N. Y.—Carrying eight passengers, Lieut. Sylvia Resnait arrived at the government aviation field here in his Caproni biplane, completing a flight of about 325 miles from Hampton, Va., in four hours 11 minutes.

BOB FITZSIMMONS DIES AFTER FIVE DAYS' ILLNESS

Chicago.—Robert Fitzsimmons, former champion heavyweight pugilist of the world, died at a hospital here after an illness of five days of pneumonia. The former champion became ill while appearing in a vaudeville theater, and his ailment was at first diagnosed as stomach poisoning. Later it was discovered that he was suffering from double lobar pneumonia and physicians declared that he could not live.

IT SHOULD MAKE A MILLION FOR HIM

Cincinnati man discovers drug that loosens corns so they lift out. Good news spreads rapidly and druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which lifts out with the fingers. A quarter of an ounce costs very little at any drug store which handles drugs, but this should be sufficient to rid one's feet of corns hard or soft or callus. You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which when applied and never inflames or even irritates the surrounding skin. This discovery will prevent thousands of dollars annually from being lost to the people of America by law and infection before resorting to the surgical hand of cutting corns.

INTO WHICH MEN TO BE DRAFTED WILL BE DIVIDED Shows Order in Which They Will Be Called To Service. Every Man Registered Is Included.

Washington.—The five classifications into which men awaiting draft will be divided, under the new regulations, approved by President Wilson, have become public much before the time planned by the provost marshal general's office and are here published. It was discovered that what was to have remained an official secret for a week or more was divulged at a dinner in New York which Secretary Baker and Provost Marshal General Crowder attended. The provost marshal general discussed the new regulations, without intending to make public the classification, but some members of a New York local exemption board, thinking to elucidate the general's speech, printed the classifications on the back of the menu card. The classifications are as follows, and show every man registered, to which class he belongs and in what order the dependant classifications will be called to service:

- Class 1. 1-Single man without dependent relatives. 2-Married man (or widower with children) who habitually fails to support his family. 3-Married man dependent on wife for support. 4-Married man (or widower with children) not usually engaged, family supported by income independent of his labor. 5-Man not included in any other description in this or other classes. 6-Unskilled laborer. Class 2. 1-Married man or father of motherless children, usually engaged, but family has sufficient income apart from his daily labor to afford reasonably adequate support during his absence. 2-Married man—no children—wife can support herself decently and without hardship. 3-Skilled farm laborer engaged in necessary industrial enterprise. 4-Skilled industrial laborer engaged in necessary agricultural enterprise. Class 3. 1-Man with foster children dependent on daily labor for support. 2-Man with aged, blind or invalid parents or grandparents dependent on daily labor for support. 3-Man with brothers or sisters incompetent to support themselves, dependent on daily labor for support. 4-County or municipal officer. 5-Firemen or policemen. 6-Necessary artificers or workmen in arsenals, armories and navy yards. 7-Necessary custom house clerk. 8-Persons necessary in transmission of mails. 9-Necessary employees in service of United States. 10-Highly specialized administrative experts. 11-Technical or mechanical experts in industrial enterprise. 12-Highly specialized agricultural expert in agricultural bureau of state or nation. 13-Assistant or associate manager of necessary industrial enterprise. 14-Assistant or associate manager of necessary agricultural enterprise. Class 4. 1-Married man with wife (and) or children (or widower with children) dependent on daily labor for support and no other reasonably adequate support available. 2-Mariners in sea service of merchants or citizens in United States. 3-Heads of necessary industrial enterprises. 4-Heads of necessary agricultural enterprises. Class 5. 1-Officers of states or of the United States. 2-Regularly or duly ordained ministers. 3-Students of divinity. 4-Persons in military or naval service. 5-Aliens. 6-Allen enemies. 7-Persons morally unfit. 8-Persons physically, permanently or mentally unfit. 9-Licensed pilots.

Employee of Weybridge Chair Company Tells Why He Will Never Again Be Without Dreo. Interesting Story.

J. E. Hodges who resides at 119 Center street, Winston-Salem, is perhaps one of the most popular employees of the Forsythe Chair Company. He is a member of the Junior Order and a number of other fraternal and social organizations. Recently Mr. Hodges was troubled with a severe form of kidney trouble combined with indigestion, loss of sleep and rheumatic pains in the back and limbs. A friend told him about the wonderful new herbal medicine called Dreo which is now being introduced in this section and prevailed upon him to give it a trial. This is what he says after only one bottle of Dreo: "My pains and stomach trouble are all gone. So is the kidney disorder. I made a mistake in not getting another bottle as soon as the first gave out—but I'll never do that again, for Dreo put new life into me, all right! I want all my friends to try it."

No two cases of stomach trouble, kidney disorder or similar ills seem to be exactly alike. Some will require more Dreo than others before the sufferer can say "I am cured at last." It is therefore well always to keep a good supply of this medicine on hand at all times, if only as a matter of precaution. Dreo is sold and recommended in Graham by Graham Drug Co. adv.

Secret service agents have discovered foodstuffs and other property at more than \$25,000 worth stored in warehouses in New York City, which has never been reported to the government as required under trading with the enemy act. This is only a small part of what is expected to be uncovered before the search ends, says a New York dispatch.
