-Conservation, or the saving, of food has been talked a great deal. Some gave little heed to the admonition, while others went forthwith to saving or putting forth extra efforts stated, while it was yet time to plant and reap the crop this year, that this would be the "hungriest winter ever experienced in this country." Those, many of them, who thought he talk-ed "wild," will no doubt realize before the reaping of another crop that he knew what he was talking about. You are lucky if you can find and get sugar now before the winter has fairly set in. Your bread costs no more than it did several months ago, but when it comes to meat the price is about double what it has ever been before.

PERSONAL. Captain John Richard Store brates His 90th Birth Anniversary.

The relatives and neighbors of this man gathered at his residence Nov. 11, 1917, to celebrate the 90th birthday of this distinguished citizen of Alamance. A large number came together, bringing refreshments in abundance and many other tokens of friendship and love. The day was bright and suny and everybody, including the Captain, was happy.

After exchanging many glad greetings the writer spoke briefly concerning the blessedness and sweetness of life; life in this world and the hope of life eternal in the world to come.
