## NATIONAL GUARDS NOW IN FRANCE

Men from every state in the Union now within war zone.

**IDENTITY IS NOT DISCLOSED**

All Those Who Sailed From United States Arrived Safely and Some Are Already in Training—French Population Give Welcome.

With the American Army in France.—National guardsmen from every state in the Union have arrived in France, it is permitted to be announced. They are among the troops now training, or lately arrived.

While it is not permitted to disclose the identity of units it may be said that all those which sailed from the United States have arrived safely and that some already are in training within sound of the guns on the battle front.

They are showing a spirit in keeping with the purpose to make the American expeditionary force a homogeneous American army in which each division, whether regular, national guard, or national army, shall be distinguished in efficiency from the others. The former state troops are billeted over a wide area and are pronounced excellent soldiers.

The guardsmen have been arriving in the American zone for many weeks. They are scattered somewhat, but as far as possible the units from the same state have been kept close together. They found the regular army had made good preparations for them, and while many are billeted in houses in French towns, others have been quartered in low wooden barracks specially erected.

The troops from the various states have been recognized by the French population and have been welcomed enthusiastically. Many of the units were the French red, white and blue cockades pinned to their campaign hats. After a sufficient time to rest from the journey, the troops have been set about training for actual service at the front. In all quarters they are declared to be most enthusiastic and their soldierly qualities have drawn high praise from the French instructors.

For the information of the relatives and families of the men, every one who sailed from the United States has arrived safely in France.

**MRS. DE SAULLES ACQUITTED OF MURDER CHARGE BY JURY**

Required Less Than Ten Hours—Gets Custody of Son.

Mineola, N. Y.—It required but one hour and forty-three minutes for a jury in supreme court here to reach a verdict of not guilty in the trial of Mrs. Bianca de Saullès for the murder of her divorced husband, John L. De Saullès, former Yale football star and clubman, at his home near Westbury, Long Island, the night of August 3.

In the verdict no reference whatever was made to insanity. It was a plea of temporary loss of accountability which formed the basis of the defendant's case. Mrs. de Saullès, who had maintained an air of extreme self-possession throughout the two weeks of the trial, received the verdict smilingly. She shook hands with each of the jurors as they left the box and to each gave a nod of appreciation.

As Mrs. de Saullès left the courtroom, a newspaper photographer touched off a flashlight. The shock of the explosion coupled with the young woman's heightened nervous tension, caused her to stagger, but she was prevented from falling by Dr. J. Sherman Wright, her physician. She was taken into a nearby room, where she soon recovered.

Mrs. de Saullès' acquittal automatically establishes her as the only legal custodian of her son, John L. de Saullès, Jr., according to her attorneys.

## PLAN TO IMPROVE HIGHWAYS

Ohio Township Aims to Make Roads More Pleasant to Travel Over in Heat of Summer.

"Coupled with a strong good-road sentiment in an Ohio township," says Farm and Fireside, "is a plan to line the roads of the township with trees. The principal reason advanced by the committee which has charge of the project is to make the roads more pleasant to travel in the heat of summer.

"In addition, the trees will in a measure help to keep the surrounding ground moist by preventing rapid evaporation, thus keeping down the dust. They will shelter travelers during storms, check the erosion of ditches on hills, beautify adjacent property, and add to the general attractiveness of land values of the community.

"Those who start such work are not likely to live long enough to see their plans fully completed and to enjoy the shade. This fact lends a pathetic touch to the project as well as indicating a sincere and unselfish desire to be of public service."

## SURFACES FOR HILLY ROADS

Slipping and Skidding on Smooth, Hard Covering is an Ever-Present Dread Among Farmers.

Slipping on hilly roads is one of the unfortunate results which horses must suffer as a result of covering the roads with hard surfaces, while the possibility of skidding on these slopes is an ever-present dread among motorists.

A special form of paving brick, called "hillside bricks," is made for use on grades exceeding one foot rise in 20 feet horizontal distance. These bricks have grooves cut across their tops to hold the shoes of the horses and the tires of the cars, and have been received with much favor by road builders. Recently the same object has been attained with bituminous roads built on hills, by leaving them with a rough surface.

In a letter received by Senator Overman from Secretary of War Baker, the secretary says German prisoners held at Hot Springs, N. The newspapers of North Carolina are solidly back of Col. F. H. Fries, director of the North Carolina war savings committee. This note was expressed in no uncertain terms at the meeting of editors held in Winston-Salem at the call of Colonel Fries for the purpose of preparing a wage campaign for war savings certificates. There were present editors of evening and afternoon dailies, weeklies, semi-weeklies and monthly publications.

The thirty-fourth annual convention of the North Carolina Teachers' assembly, after a three days' session in Charlotte was concluded with a magnificent patriotic celebration at the city auditorium, when Hon. Thomas W. Bickett, governor, was the principal speaker. Fully 1,000 delegates from over the state, and a number of notable educators from out of the state, had been in attendance. Following are the officers elected for the year 1917-18: President, N. W. Walker, of Chapel Hill; vice-president, S. B. Underwood, of Greenville; secretary, S. E. Sams, of Raleigh. Members appointed to fill vacancies on the executive committee are: Superintendent A. S. Webb, Miss Mary Arrington and Superintendent E. H. Latham.

Robeson farmers have gone "over the top" this year. A change that seems almost impossible has come about among the people of the rural districts since last spring. Many farmers grow tobacco and received unheard of prices for their crop and they all get cotton, which means that they have all got money. There are hundreds of farmers in the county who never had a dollar in a bank before now.

## M. CLEMENCEAU PRESIDING

CONFERENCE HELD ITS FIRST SESSION IN PARIS THURSDAY MORNING.

Delegates Lose No Time Getting Down to Work, Subdividing into Committees—Many Americans Were Present.

Paris.—The inter-allied conference, which has been called for the purpose of discussing closer unity in the prosecution of the war and co-ordination of resources, opened in the ministry of foreign affairs shortly after 10 o'clock Thursday morning, with 15 nations represented. The French premier, M. Clemenceau, presided and welcomed the delegates.

The Italian representatives were the first to reach the conference hall. They were followed by the envoys of Japan. The American war mission, augmented by Ambassador Sharp, General Pershing and Vice Admiral Sims conferred at their hotel headquarters before going to the foreign office, which opened promptly at ten o'clock. The British delegates came right on the heels of the Americans. There were large crowds outside the hotel where the Americans and British are quartered and also in front of the foreign ministry, but there was no cheering nor demonstration of any kind.

Meetings of the supreme war council in which only France, Great Britain, the United States and Italy are represented, will follow the inter-allied conference. This war council is a permanent body and will deal only with questions relating to military operations on the western front.

## DIFFICULT FOR REGISTERED MEN TO GET COMMISSIONS

Washington.—So-called "slacker commissions" by which men of draft age seek to escape service in the ranks and get officers' places in non-combatant branches of the army, have struck a snag in two general policies laid down by Secretary Dyer.

These are: first, that no man of draft age be commissioned unless it is shown clearly that they are better fitted for the special work of which they are called than any civilian beyond the draft age whose services can be secured; second, that no function of the army that can be carried on efficiently with civilians shall be placed on a military footing by commissioning the men needed to super-vice the work.

## JACK TAR LOSES LIFE TO SAVE HIS COMRADES

Washington.—Osmond Kelly Ingram, of Pratt City, Ala., the gunners' mate lost overboard when a German submarine attacked the American destroyer Casin in the war zone on October 16, deliberately sacrificed his own life to reduce the risk to his messmates.

## SOLDIERS ARE USING SHORTER OVERCOATS

With the American Army in France is undergoing a further change. A large number of troops have turned in the long overcoats to receive in exchange coats of the same material, but much shorter in length. Because of the perpetual mud it was found the long coats soon became caked and heavy. They flopped about the legs of the soldiers, hindering the free movement of the wearers.

## SECOND SESSION CONGRESS BEGINS

BIG WAR SESSION IS EXPECTED BY ALL CONGRESSMEN TO BE LENGTHY ONE.

Appropriation Estimates Are Received—Members Say American People Everywhere Favor Vigorous Prosecution of the War.

## BIG CALENDAR OF BUSINESS

Washington—Congress reassembled Monday for its second war session. Most of the senate and House members were complete for the first meeting of what promises to be another epochal session. Increased determination of the American people for vigorous prosecution of the war was the message universally brought by the returning members.

Brief and routine opening session were held by both senate and house. Immediately after convening and appointing committees formally to notify President Wilson and each other that the second session of the sixty-sixth congress is in readiness, adjournment was taken out of respect to members who died during the recess. Senator Husting of Wisconsin, who was accidentally shot, and Representative Martin, of Illinois.

Another feature of the opening day was receipt of appropriation estimates, aggregating many billions of dollars, for war and general governmental purposes for the next fiscal year.

Before the holiday recess, which Speaker Clark and others favor abandoning, disposition of the national prohibition question is to be pressed.

Revenue legislation will not be taken up immediately, but a deficiency appropriation bill before the holidays to care for unexpected war expenditures is probable. The senate democrats' steering committee and house ways and means committee will meet this week to discuss tentative legislative programs, but no party caucuses or conferences for that purpose are planned.

## AMERICAN, BRITISH, FRENCH AND ITALIAN MISSIONS ARE ALREADY READY TO PRESENT.

Questions for Unified Action Will Occupy Attention—The Situation in Russia—House and Lloyd-George Among Those Present.

The representatives of the chief nations at war with the Teutonic allies are assembling in Paris for the inter-allied conference at which are to be discussed momentous questions for more unified action on the prosecution of the war.

The American, British and Italian missions already have reached the French capital. They are led respectively by Col. E. M. House, David Lloyd George, the British prime minister, and Vittorio Orlando, the Italian premier.

In addition to determining a basis for stronger joint action against the enemy countries, the conference doubtless also will discuss at length the anomalous situation in Russia, where the Bolshevik factions are in control and where German staff officers are reported to be acting as military advisers to the Lenin government. Possibly a most pertinent point in the discussion will be the future attitude of the allied countries toward Russia—whether the situation as it now stands does not place the Bolshevik government and its followers in the category of allies of the central powers.

Inside Russia the unsettled conditions of affairs daily seem to be growing more serious. All communications now has been severed between north and south Russia, even the foreign embassies in Petrograd being unable to get in touch with Odessa and other points to the south. Unofficial advice are to the effect that the Russian northern army is in dire straits.

Atlanta, Ga.—Chairman William J. Harris, of the federal trade commission, will resign at an early date for the purpose of opposing Senator Hardwick, of Georgia, for re-election, according to a statement made public here by Mr. Harris.

## BEGIN CURTAILMENT OF NON-ESSENTIAL INDUSTRIES.

Washington.—The government's first move toward curtailing non-essential industries during the war was made when the fuel administration sent to coal producers a preferred list of consumers to serve when filling orders. The list establishes preliminary shipment for government orders, railway fuel, household requirements, public utilities, steel plants, coke ovens and munitions plants.

## GYPSIES AND BOOTBLACKS REGARDED AS IDLERS

Baltimore.—The status of Gypsies and bootblacks was established as idlers and they will come under the provisions of the Maryland compulsory work law. Following a conference between Police Marshal Carter and George A. Mahone, state director of the work bureau, a number of Gypsies were rounded up. They declared they had work and stated that some weeks they earned \$500 as horse dealers and cooperatives.
