Jerusalen is no more in the hand of the unspeakable Turk who ha held the Holy City for twelve cen turies. It has been wrested from the Turks and is occupied by the English and other forces of the Al lies. All Christendom will rejoice over the outcome in Palestime.

Russia's part in aiding the Allie against the Central Powers-th on enemy amounts to nothing now, in that that country has a civi war of its own on hand for the time, which will result at any time, it is believed in the overthrow of the element that has temporary control in the North and is dickering with Germany about peace.

The war situation on the Europea battle fronts is at this time the most critical in many months. On account of the cessation of active fighting on the Russian front the Germans have been able to mass enormous armies on the Western and Italian fronts, which greatly outnumber the Allied armies, and they hope to gain advantage by sheer The Responsibilities and Duties numbers. So far no material advantage has resulted in favor of the Teutons, They have made savage and determined assaults with frightful losses of men, but the Allies have as determinedly held them back.

Food Administrator Hoover, a the days pass, is getting the food proposition better in hand. His is a task that no one comprehende to any great extent. He has had to get a line on the hoarders prifiteers-the hogs, if you please and all who were gathering and holding necessary foods to squeeze and exact the last farthing from the consumer. He is first going after those "higher up" and they will not escape so lightly as they perhaps, have imagined. He will cation. come on down the line. The gov ernment is behind him. The task immense, but enormous and un

justifiable profits out of helpless victims will not and should not b tolerated.

Her condition was so bad we were finally ready to give up all hope. I read of the many Southern people who were getting well with the Dreco treatment and sent for some. It worked wonders in her system. Everyone thinks it remarkable. She has fine color, her eyes are bright and she eats sleeps well now. I am recom-mending it to everyone."

Here's a case that many people say borders on the miraculous. W. M. Dull, the popular West Main St. contractor and builder, of Staunton, Va., was all crippled up with rheu-matism of the joints and muscles. This is what he says in a signed statement. "I havet aken lots of medicine and
