### THE WAR.

For days the grapple between the Affied and German fighters has been desperate and bloody. While the casualty list is growing larger each day for the American troops, their determination is undaunted. They have gone over for a definite purpose-that conquering the Hun-and they steadily go forward-give no ground. As fighters the Americans have won the admiration and plaudits of the allied countries No less bravely, too, the French and British are fighting side by side with our own troops.

The German army has fallen rather been driven, back some ten miles where battle has raged fiercest for two weeks. It is now believed that the enemy is preparing to make a stand but he is having no rest.

FRANCO-AMERICAN TROOPS CON-TINUE PURSUIT OF HUNS: CAP-TURE GREAT SUPPLY BASE.

# RETREAT IS NOT YET A ROUT

Expected That Enemy Will Succeed in Retreating in Orderly Line When Stand May Be Made.

The Franco-American troops, tinuing their pressure on the Germans in retreat from the Marne, have reached and crossed the Ourcg river Tardenois, one of the great German supply bases for the enemy troops inside the Soissons-Rheims salient.

Meantime on the center of the allied right wing, southwest of Rheims, attacks by the French have forced the enemy to give further ground and enabled the French to capture several towns of strategic value and to draw their front appreciably nearer raw their front appreciably nearer he high road which runs northeast-ward from Dormans to Rheims.

On the extreme wings of the grad ally decreasing pocket—near Sois-ons and Rheims—the enemy, heav-y reinforced, is holding tenaciously his ground realizing that successes there would result in a general crum-bling of his plans of defense against the locking up of his entire armics inide the big bag. The crossing of the Ource, even if

only by advanced elements of the al-lied forces, presages a general cross-ing later on. The French official com-munications thus far during the battive in their estimates of the gains that daily have been made and it is indicated in unofficial dispatches that allied troops are considerably in advance of the line as announced offi-cially.

Where the Germans are in retreat from the south the cavalry has been ught into the fighting and numer ous tanks and machine guns in pro-fusion are everywhere harrying the enemy whose losses are heavy.

Meantime, airplanes are flying over the retreating hordes dropping bombs while the big allied guns from the sides of the salient are keeping up their intensive firing from all angles

their intensive firing from all angles into the densely congested area.

The retreat of the enemy has by no means become a rout, and so long as the picked troops around Soissons and Rheims are able to keep well open the mouth of the bag through which the Germans are falling back it is expected that the greater portion of the covernies of the ground prince. of the armies of the crown prince will be successful in reaching in order the line where it is intended for them to turn and make a stand.

Just where this stand will be made is problematical. More than half the pocket has been recaptured by the American, French, British and Italian troops opposing the enemy, and there have as yet been no signs of a let up in the retrograde movement.

Considerable Fighting in Macedonia and Albania with Allies Holding the Upper Hand.

IMPORTANT POINTS ARE TAKEN

The ninth-day of the allied offensive on the Soissons- Rheims salient saw a lessening in the intensity of the battle along the western side of the salient, where only mutual bombardments where only mutual bombardments were in progress. Along the Marne, however, and southwest of Rheims,

troops, debouching from the woods in strong counter attacks. The enemy, however, everywhere was forced slightly further back to the north and my second 1 the forests now have been almost en-tirely cleared of Germans.

Southwest of Rheims heavy reinforcements evidently have been thrown along the front, where the British, French and Italians are fighting. In the immediate region of Reuil, where the battle line turns sharply towards Rheims, the French have captured several important points of vantage, including the village of Reuil and also advanced their line north-ward, notwithstanding the violence of the German counter move.

Before the fighting died down along the western side of the Rheims-Soissons salient the villages of Ouichy le Chateau and Ville Monoire were cap-tured by French and American troops. Big allied guns have been pulled up in this region and are heavily shelling the sectors before them over which it is purposed to push forward for the capture of Fere En Tardenois.

In France and Flanders the British have been compeled to withstand several violent attacks by the Ger n.ans, near Hebuterne and in the vi-cinity of Meteren. The enemy in both sectors was repulsed with heavy cas ualties.

On the other battle fronts the mill tary activity is nominal, although con-siderable lighting in Macedonia and Albania with the allied troops holding the upper hand.

### MAY BE SETTING STAGE

Washington.-Behind the apparent Washington.—Behind the apparent limit in the struggle around the Aisne liul in the struggle around the Aisne Marne salient the high command of the allied and German armies may be true to the war. In that event it seems more than likely to observers here that the fourth anniversary of the begin sing of the world conflict will see a fame of fighting raging from east of Rheim's to the North sea; but with the crucial conflict in progress somewhere just north of the historic Marne where just north of the historic Marne where the Germans have twice tasted the bitterness of defeat.

There is nothing as yet in unofficial reports, however, nor in official advices so far as known, to show the plan of General Foch. Flickers of fighting have occurred to the north-that may have more than local signifi-cance behind them. There is some evidence of a feeling here that the time has not yet come when a suffi-cient American army has been assem-bled in France to warrant passing definitely to offensive tactics. It was recalled that General March recently it, they will be prosecuted for va indicated to members of Congress that this was not to be expected until later in the year. The situation has change ed greatly at the front since then, however, and only developments there will show what decision has been

WELL ON ROAD TO RECOVERY.

Any remedy that restores the natural functions of the human body is a health-making remedy. The use of Dreco, the great hert medicine, tends to restore the appetite, to procure natural diges-tion, which is followed by an in-creased circulation and nutrition of the whole body. Lean, haggard, bloodless people begin to gain weight, strength and flesh at once, from taking Dreco, as they them-selves declare in signed testimonials. For instance, Mrs. Maud Blackwell, the well known resident of Greenville, says: "I was

one of the worst run down women in Greenville. My water was always bloody, would huat and burn. I suffered from female troubles, and when I would eat The Germans strove hard in the forest region north of the Marne to hold back the French and American for breath. I have taken one bottle of Dreco. I have gained several pounds already but as I am not entirely well yet I am takine my second bottle and expect tg keep it up for it is helping mo very much. I'm sure it's the grandest medicine ever sold in Greenville and I'm telling every body about it."

People who are run down, tired out, debilitated, no matter what the cause, are advised to try this simple little test. Get from any well stocked drug store a bottle of Dreco. Take a spoonful with each meal for a few days and

watch how the change works through the entire body. The apthrough the entire body. The appetite increases, everything you eat seems to taste better. There is no dyspepsia or gas after every meal. The bowels, kidneys, liver and stomach work in harmony and the rich red blood goes cours ing through the veins. This is what hundreds of men and women of this section say Dreco has done for them. Isn't it reasonable to expect it can do the same for
