FOCH READY TO ACT IF HUNS REFUSE TO SIGN THE TREATY

Paris.—The fact that Marshal Foch and the allied commanders have agreed upon the military and naval teps which will be taken in the event the Germans refuse to sign the treaty has made a good impression upon the country and the tendencies which are becoming daily manifest in favor of firm alliance, at any rate, until the peace terms have been executed, are greeted with great satisfaction.

The position of America in a mat-

The position of America in a mat-ter of this sort is specially delicate, but there seems to be some ground for thinking President Wilson will not be rable to some form of alliance until the league of nations is got in working order. Rightly or wrongly the impression has been encouraged that only the financial clauses of the peace treaty are open to discussion by the Germans and that this discussion would be limited. The Germans, it was believed, would be heard as to best means of enabling them to carry out the financial obligations placed upon them by the treaty. It is clear from the German attitude that enemy counts still upon inter-al-dissension.
