**EUREKA
Spring Water
FROM
EUREKA SPRING,
Graham, N. C.**

A valuable mineral spring has been discovered by W. H. Ausley on his place in Graham. It was noticed that it brought health to the users of the water, and upon being analyzed it was found to be a water strong in mineral, possessing good for stomach and blood troubles. Physicians who have seen the analysis and what it does, recommend its use.

Analysis and testimonials will be furnished upon request. Why buy expensive mineral waters from a distance, when there is a good water recommended by physicians right at home? For further information and or the water, if you desire it apply to the undersigned.

W. H. AUSLEY.

LIVES OF CHRISTIAN MINISTERS

This book, entitled as above, contains over 200 memoirs of Ministers in the Christian Church with historical references. An interesting volume - nicely printed and bound. Price per copy: cloth, \$2.00; gilt, top, \$2.50. By mail 30c extra. Orders may be sent to

P. J. KERNODLE,
1012 E. Marshall St.,
Richmond, Va.
Orders may be left at this office.

Dr. Otto Bauer, Austrian foreign minister, says: "For thirty years we will be the slaves of the allies economically. Austria loses her economic independence. Austria must cover 70 per cent of the sixty-eight billion crowns war debt. This shameful peace can be destroyed only through the victory of international solidarity."

The German premier has issued a warning to the country against hasty revolution. He admitted that the great masses of the people had just ground for discontent, and said it was the government's task to alleviate their suffering.

**WILSON SPEAKS ON
HIGH COST OF LIVING****EPITOME OF REASONS FOR THE
PRESENT EXORBITANT PRICE
OF NECESSITIES OF LIFE.****ONE REMEDY IS RATIFICATION****Energetic Enforcement of the Law is
Recommended to Force Out Hiding
Vast Stores of All Kinds.**

Washington.—President Wilson laid several specific proposals before Congress for checking the high cost of living, but at the same time declared permanent results could not be expected until peace time bases were fully restored by ratification of the peace treaty.

High prices, the President told Congress, were not justified by shortage of supply, either present or prospective, but were created in many cases "artificially and deliberately" by "vicious practices." Retailers, he said, were responsible in large part for exorbitant prices.

Strikes, the President warned the labor world, would only make matters worse and those who sought to employ threats or coercion were only "preparing their own destruction." Leaders of organized labor, the President said, he was sure would presently yield to second thought.

"Illegal" and "criminal" were the words the President used in characterizing the methods by which some present day prices have been brought about.

Present laws, he said, would be energetically employed to the limit to force out food hoarders and meet the situation so far as possible, but to supplement the existing statutes he specifically urged the following:

Specific Recommendations.

Licensing of all corporations engaged in interstate commerce, with specific regulations designed to secure competitive selling and prevent "unconscionable profits" in the method of marketing.

Extension of the food control act to peace times and the application of its provisions against hoarding to fuel, clothing and other necessities of life as well as food.

A penalty in the food control act for profiteering.

A law regulating food storage, limiting the time during which goods may be held, prescribing a method of disposing of them if held beyond the permitted period and requiring that when released goods bear the date of storage.

Laws requiring that goods released from storage for interstate commerce bear the selling prices at which they went into storage and requiring that all goods destined for interstate commerce bear the prices at which they left the hands of the producer.

Enactment of the pending bill for the control of security issues.

Additional appropriations for government agencies which can supply the public with full information as to prices at which retailers buy.

Early ratification of the peace treaty so that the "free processes of supply and demand" can operate.

Immediate steps by executive agencies of the government promised by the President included:

The limiting and controlling of wheat shipments and credits to facilitate the purchase of wheat in such a way as not to raise, but rather to lower the price of flour at home.

Sale of surplus stocks of food and clothing in the hands of the government.

The forced withdrawal from storage and sale of surplus stocks in private hands.

General Recommendations.

General recommendations included: Increase of production.

Careful buying by housewives.

Fall dealing with the people on the part of producers, middlemen and merchants.

That there be no threats and undue insistence upon the interests of a single class.

Correction of "many things" in the relation between capital and labor in respect to wages and conditions of labor.

In concluding the President made a plea for deliberate, intelligent action, reminding Congress that an unbalanced world was looking to the United States.

"We and we almost alone," he said, "now hold the world steady. Upon our steadfastness and self-possession depend the affairs of nations everywhere. It is in this supreme crisis—this crisis for all mankind—that America must prove her metal."

**PLUMB CALMLY TALKS OF A
REVOLUTION AS ALTERNATIVE**

Washington.—All day long from a witness chair before the house interstate commerce committee, Glenn E. Plumb, counsel for the railroad brotherhoods and author of organized labor's plan for tripartite control of the railroads, responded to sharp questioning from the semi-circle of committee members who called on him to explain every phase of the labor bill.

Gravely, Plumb talked of revolution as an alternative in case the adoption of "some such plan" was not obtained by political action through Congress, and said that was the determination of the masses of men whom he represented, "though I hope never to live to see the day."

The income of the Plumb plan league, organized to forward the labor bill's passage, he said, was "in the neighborhood of \$100,000 or \$125,000 annually now," though only organized in July.

**COMMITTEE OF CONGRESS WILL
PROBE INTO MEXICAN MATTER.**

Washington.—Blanket authority to bring out all the facts about Mexican outrages on Americans and American property, and to formulate a remedial program, was given to the foreign relations committee by the senate.

Without debate and by unanimous vote a resolution directing the inquiry was adopted after its provisions had been stiffened in committee so as to make subject to investigation "any and all acts of the governments of Mexico and its citizens in derogation of the rights of the United States or of its citizens."

**WAR DEPARTMENT ISSUES
PRICE LIST OF SUPPLIES.**

Washington.—The war department made public a complete price list on all subsistence stores available for sale to the public through the parcels post or through municipal selling agencies. Costs of the commodities to the government, the department said, had been disregarded entirely in fixing the prices of sale which are materially lower than prevailing market rates.

The prices quoted are f. o. b. and from storage points in each of the 13 districts into which the country is divided for war department subsistence purposes. The department now is redistributing the food supplies in the 13 areas in order that each may have its proportion per population of the 72 articles offered for public sale.

**SOLUTION OF THRACIAN
PROBLEM IS REACHED.**

Paris.—The peace conference reached a solution of the Thracian problem according to The Intrinsigant, by dividing Thrace, some going to Greece and others being designated to form the future free state of Constantinople and a new free state under the league of nations.

The solution arrived at, according to The Intrinsigant, provides for dividing Thrace into eastern and western Thrace.

**STRIKING CHICAGO SHOPMEN
RETURNING TO THEIR JOBS.**

Chicago.—A break came in the strike of railway shopmen when several thousand strikers returned to work in response to President Wilson's request and the appeal of international representatives of the six crafts involved. Director R. H. Ashton, of the northwestern region, and Hale Holden, of the central western region, said there was much encouragement in the situation.

**JUSTICE CLARK
ON 'PRINCIPLES'****CHIEF JUSTICE OF SUPREME
COURT OF NORTH CAROLINA
CHAIRMAN CONFERENCE.****KEYS TO POSITIVE SOLUTION**

American People Are Asked to Weigh
Carefully and Without Prejudice
All Phases of Plumb Plan.

Washington.—A national conference to consider all plans submitted to Congress for solution of the railroad problem will be held here October 6, under auspices of the Plumb organization bureau.

In making public announcement of the meeting, Chief Justice Walter Clark, of the North Carolina supreme court, and chairman of the Plumb plan preliminary conference, said special committees would be appointed to analyze the different proposals.

The American people were urged by Judge Clark to consider all the proposals "without prejudice and without passion, and to examine those which have been outlined in the light of the principles which we have enunciated."

Declaring that efficiency and economy in transportation are the keys to the solution of the problem of the high cost of living, Judge Clark added that any plan for solution of the railroad problem "must meet the test that it will provide transportation at actual cost."

**JAPANESE EDITORS CALM
ON SHANTUNG QUESTION.**

Tokio.—The newspapers generally are treating calmly in their editorial comment the various phases of the debate in the United States senate on the question of Shantung. The opinion most widely advanced is that the republican senators who are opposing the provision in the peace treaty relating to Shantung are using their arguments against Japan mostly for political purposes.

After pointing out that it is Japan's intention to restore Shantung to China and to conduct economic undertakings in Shantung jointly with the Chinese, The Hochi Shinbun interprets the attitude of the republican senators as being based on America's desire to achieve a world economic conquest including China, from which she desires to oust Japan economically.

**VIRGINIA LEGISLATURE TO
PROBE INTO PROFITEERING.**

Richmond, Va.—Governor Westmoreland Davis announced that he would have two bills offered in the special session of the legislature, directed to curb the profiteering in food. One of the bills calls for a rigid enforcement to prevent hoarding and making it a crime to fail to report at stipulated intervals the amount of food held in storage. A license also will be demanded of the storage warehouses. The date of storage, also must be stamped on the product and the date of its removal.

**CONFEDERATE VETERANS
IN ATLANTA IN OCTOBER.**

Mobile, Ala.—General William E. Mickle, chief of staff, United Confederate veterans, has announced that the next Confederate reunion will be held in Atlanta, October 7, 8, 9 and 10. The annual meeting of the Confederate Southern Memorial associations and the Sons of Confederate veterans will be held in Atlanta on the same dates, General Mickle announced.

**EVACUATION BY RUMANIAN
ARMY BODIES NO REAL GOOD.**

Berlin.—The retirement from Budapest of the Rumanian army, owing to pressure from the entente, is probable, but it will be a future withdrawal, boding no good for the future, according to dispatches from the Hungarian capital.

**STEPS TAKEN TO CONFISCATE
SUGAR UNLAWFULLY HOARDED.**

Richmond, Va.—United States District Attorney Hiram Smith received instructions from Attorney General A. Mitchell Palmer to take immediate steps for confiscation of all foodstuffs found to have been unlawfully hoarded. Advice has reached Attorney Smith that large quantities of sugar are being hoarded here and active search has begun. Two department of justice men were placed on the case.

**SEVEN BURNED TO DEATH
ON A "SCENIC RAILWAY"**

Montreal.—Seven persons were burned to death in a fire on a scenic railway at Dominion park, an amusement resort near this city.

The bodies of three men, three women and a boy were recovered from the ruins shortly before midnight. It is feared several more persons lost their lives and that the bodies will be recovered when search is resumed. It has been impossible so far to identify the dead.

**ANDREW CARNEGIE
ENTERS INTO REST****GREAT PHILANTHROPIST DIES
QUIETLY AT HIS HOME IN
THE BERKSHIRE HILLS.****HIS BENEFACTIONS IMMENSE**

Peace, Charity and Education Are the
Chief Beneficiaries of the Dead
Multi-millionaire.

Lenox, Mass.—Andrew Carnegie, ironmaster and philanthropist, died in his great mansion overlooking a lake in the beautiful Berkshire hills, where he sought seclusion when bodily infirmity overtook him and his mind was saddened by the entrance of his country into the world war.

Although he had been in feeble health for more than two years, his final illness was brief—a matter of days. A severe cold developed quickly into bronchial pneumonia, the aged patient lapsed into unconsciousness and the end came as though it were but the beginning of a deeper sleep.

When Mr. Carnegie returned to his summer home last spring, it was evident to his intimates that the once great industrial leader was a broken man and that any slight indisposition might have a fatal end. However, the air of the Berkshires and the seclusion afforded him his beautiful estate appeared to benefit him and he exhibited occasional flashes of the old exuberance that had made him a cheerful companion for so many years.

Peace, charity and education are the three institutions that have benefited most from the vast donations of Andrew Carnegie. He erected his own memorials in the 3,000 libraries that perpetuate his name throughout the world, in the \$1,500,000 temple of peace at The Hague, Holland, in his hero, peace and educational funds.

**THE PRESIDENT DECLINES TO
GRANT REQUEST OF SENATE**

Washington.—President Wilson sent to the foreign relations committee a copy of the original American draft of a league of nations covenant but declined to furnish other papers relating to the peace negotiations asked for in the senate resolutions.

To another resolution asking for a copy of the letter written by General Bliss regarding the Shantung problem, Mr. Wilson replied that he re-

garded the letter as confidential since it contained certain references to other governments.

**"THE COMEBACK" ISSUES
WARNING TO THE PUBLIC.**

Washington.—Publishers of The Comeback, the official soldiers' newspaper, issued a warning against swindlers in soldiers uniforms who have been collecting thousands of dollars through the southern states representing themselves as solicitors for subscriptions to the newspaper.

The Comeback, an official announcement says has no solicitors in the southern country.

**TWO MILLION BLANKETS TO BE
SOLD BY WAR DEPARTMENT.**

Washington.—Offering to the public of 2,000,000 surplus all wool, cotton and wool, and cotton blankets was announced by the war department, arrangements having been completed for their distribution through post-office and municipal channels on the same plan as that adopted for foodstuffs.

For individual purchases, prices will be \$5 for new wool blankets, and \$4 for reclaimed wool; \$5 for new cotton mixed, and \$3.50 for reclaimed; \$3 for new cotton, and \$1.25 for reclaimed cotton; the reclaimed, it is explained, are blankets used less than a year which are renovated and laundered.

**INTERNATIONAL LABOR
CONFERENCE OCTOBER 29.**

Washington.—The international labor conference, provided for in the peace treaty, has been called by President Wilson to meet in Washington, October 29.

All nations members of the international labor organization, as defined in article 897, of the peace treaty, and those which probably will become members prior to the conference, have been invited to send delegates.

**FLYING BOAT FALLS INTO
SEA; PASSENGERS KILLED.**

London.—It is reported that a flying boat, one of the largest of its type yet built, fell into the sea, 500 yards off shore, near an English summer resort.

The plane crumpled under the impact with the water and it is reported that several passengers were killed. Lieutenant MacLellan, who was piloting the machine, was found drowned, strapped in his seat, when the wrecked craft was towed ashore.

**FOOD CROPS SHOW
SHARP DECREASES****DROUGHTS AND PESTS IN MUCH
OF THE GREAT PRODUCING
AREAS CAUSED DECLINE.****WHEAT LOSS IS TREMENDOUS**

Crops of Corn, Oats, Barley and Potatoes Also Show an Appreciable Loss in Almost Every Section.

Washington.—With living costs soaring, the nation's principal food crops showed sharp decreases during July, resulting from droughts and pests over much of the growing area.

Wheat production fell off 221,000 bushels during the month, according to the forecast of the department of agriculture; corn showed a reduction of 27,000,000 bushels; oats 137,000,000 bushels; barley 27,000,000 bushels and white potatoes 24,000,000 bushels. Rice alone of all the crops showed an increase.

Total production of wheat was forecast at 940,000,000 bushels, but this was an increase of 23,000,000 bushels over the forecast last December 1 and 149,000,000 bushels over the five-year average from 1913 to 1918. Winter wheat showed the greatest loss with 124,000,000 bushels, with spring wheat production showing a decline of 97,000,000 bushels.

It is a well known fact that an Oriental never sets foot upon his rug with even the soft sandals that he wears. When his foot is set upon his rug it is entirely bare, and this is the reason why oriental rugs woven hundreds of years ago are still perfectly preserved. The hunting rugs of Persia have a great historical value, as they depict authentically how the phoenix and elephant were hunted in ancient days. Mounted hunters pursuing the lion, deer, and other creatures, both fabulous and real, form the groundwork of all of these rugs.

African Pigmies.

The historian Herodotus, 2500 years ago, described the African pigmies which he located near the source of the Nile. Herodotus, for once, told the truth, for it is in that region that modern explorers have found them. Stanley described them as having huge stomachs and short legs, and as "leaping about like grasshoppers." One specimen he saw was a full-grown young woman, three inches short of three feet in height, but "perfectly formed and of a glistering sleekness of body, with absurdly large eyes."

Sun Pressure on Earth.

The light of the sun exerts a pressure of 70,000 tons on the earth, according to a British scientist.

Optimistic Thought.

To the wise there is pleasure in solitude.

The New Pied Piper**DON'T LET HIM LURE AWAY YOUR GOVERNMENT SECURITIES.**

You remember how the Pied Piper of Hamelin Town played a siren tune on his pipe and lured the children away. The land is now full of Pied Pipers who are trying to induce people to sell their Liberty Bonds and War Savings Stamps. They are making "golden" promises; they are offering stock in concerns which they say will make you rich. Hold your government securities. Don't let the Pied Pipers make a laughing stock and a sucker out of you.

**HE TELLS WHAT HE
THINKS OF AMERICA****Byrian Says Now is Time For Every
Man To Prove Patriotic Answer
Found in War Savings
Stamps.**

It sometimes takes the new-comer to appreciate America. The native-born is often too close to the situation to realize what this country means to the world today. He is used to all that it offers, taking it as a matter of course, and frequently loses the vision in sordid detail; while the new-comer—just listen to what one of them had to say.

He is George E. Ribbany of the 1919 class of the Boston High School of Commerce and he came to this country from his native land, Syria, when he was 10 years old. In a four-minute speech on the value of War Savings Stamps, given at the school recently, he said in closing:

"Hate is not characteristic of the American people, but the Germans taught us unwillingly how to hate. Now it is a sin not to hate the spirit the Hun showed and not to abolish it from the face of the earth. Of the latter we are positively sure, because the American passion for justice is a hundred times stronger than was the German passion for conquest."

"I never entertained the idea of becoming an orator and I am sure that I lack oratorical ability, but such qualifications are unnecessary on an occasion like this, because the only and best inducement to a true American is the call of his duty and government, and not even the best oration of the greatest speaker of all times."

"Whether we all realize it or not, we are now in the midst of a period which will be known to the eyes of present peoples of the world as the Americanization period. Now is the time for every one of us to prove whether he is a sham American or a genuine American."

The practice of thrift and the purchase of War Savings Stamps are just now good indications of the genuine American. They make for financial independence, freedom, prosperity and happiness.

**UNCLE SAM'S MONEY
BEST IN THE WORLD****Color Looks Good To Boys Coming
Home After Seeing Only Foreign
Currency for Months.**

Just how good American money looks to a man away from home is illustrated by the story told by one of those boys who fought in France in the war for the preservation of civilization, and who afterwards saw service across the border in Germany.

Sergeant H. H. Coffey was attached to Company L, 354th Infantry, and for six months was at Trier, Germany, 20 miles from Luxembourg. Now he is back home.

"While we were in France," said Sergeant Coffey, "we were paid in French money. And afterward, when we were in Germany, we were paid in German money. The difference between the French and German money, as compared with United States money, is amazing. It is printed on white paper, and one gets an awful wad of it for comparatively a small quantity of American money."

"When we got this foreign stuff the boys were very liberal with it. They would gamble with it, they would lend it, they would use it for anything. When we got to the States, we found that money was exchanged for real American money, all that liberality disappeared, and it was guarded jealously."

That is one of the lessons the war has taught. American money, any promise to pay on the part of Uncle Sam, is mighty valuable in the eyes of the world. That is why the Liberty loan is so ready a market, and that is why the War Savings Stamps look just as good as money. They are both evidences of indebtedness on Uncle Sam's part and his written promise to pay. There is no record obligation that he ever failed to meet and yet.

First Maine Post Office.

In 1775 the first post office in Maine was established at Kennebunk, Falmouth and Bath. The mails were carried by carriers on foot or on horseback and the average week's mail did not amount to five letters at each office. The rates were high, 64, 124, 184, 25 and 374 cents, according to the distance the letter had to be carried, and double the rate when the letter was on more than one sheet of paper.

**KEEP GRIP ON YOUR
WAR SAVINGS STAMPS****Advertising Clubs Issue Warning To
Protect the Public Against Ubiquitous
Stock Swindlers.**

Various ways for prospective investors to detect the unscrupulous stock promoters are contained in a bulletin recently issued by the National Vigilance Committee of the Associated Advertising Clubs of the World. The bulletin indicates several unmistakable signs of the "wild cat" stock peddlers which owners of War Savings Stamps and Liberty Bonds will do well to consider before exchanging their valuable securities for the offerings of northern stocks. The warning to prospective investors is as follows:

"So far as we have been able to ascertain not a single case has been reported where the promoters of a legitimate, worthy enterprise have offered to take Liberty Bonds in payment for the capital stock of a new company. We believe that the very offer to take Liberty Bonds should prompt the bond owner to consult a banker or legitimate broker as to the value of the stock that is offered in exchange for the bonds. The offer to exchange is an earmark which should serve as a warning."

"Another earmark of the faker is his attitude when it is proposed to postpone action pending an investigation. He will usually sneer at the thought of consulting a banker or broker of standing, suggesting that, of course, they would not recommend the stock because they have stocks of their own to sell."

"In such a case the prospective investor might be sensible enough to remember that it is the one who casts reflections upon business men of standing who is likely to be the fly-by-night salesman, and that the bank has been in the community many years and will not doubt continue in business for many more. He might reason that an established firm would figure that it could not afford to deceive. Yet there are thousands of people who allow themselves to be hoodwinked because they believe such fairy stories."

**HAND GRENADE BANKS
WILL SOON BE READY****Children Are Urged to Begin Saving
Money At Once So That They
Will Not Lose Any Time.**

Some 250,000 hand grenade banks will be ready for distribution in the Fifth Federal Reserve District by August 20, according to a statement issued at the War Loan Organization of this district.

Every one of these hand grenades was manufactured by the Army Ordnance Department, and now, with percussion cap and explosive removed, they are to serve in the campaign for thrift. Made into penny-saver banks they will be lent, one to each child under sixteen years old who calls at a bank. Then, if enough money to purchase one or more War Savings Stamps is saved in a specified time, the hand grenade becomes the property of the child.

There has been some delay in Washington in getting the grenades ready for distribution, due to the large number that had to be prepared for their new capacity, but it is now assured that they will shortly be ready. Every child who would like a real souvenir of the great war can get it by calling at the bank as soon after August 30 as possible, for there will probably be more than 250,000 children in the district who will want the grenades, and the supply is necessarily limited.

Meanwhile, the children are urged to begin saving at once so that they may have a "running start" when the grenades banks are delivered. The sooner enough money is saved to buy a War Savings Stamp the sooner the hand grenade belongs to the child, and the sooner the child begins to save the sooner the desired end will be reached.

Coin Thrift Into Thrift Stamps.

Cash Value of Bolt.
It has been estimated by an European scientist that the commercial value of the electricity in a flash of lightning lasting one one-thousandth of a second is 29 cents.

Gas in Scotland.
More than 23 per cent of Scotland's illuminating gas is made in municipal plants to more than 51 per cent in Ireland and about 30 per cent in England.

**Calomel Dynamites
A Sluggish Liver****Crashes into sour bile, making
you sick and you loose
a day's work.**

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes in contact with your bile it crashes into it causing griping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel, and without making you sick, you just go and get your money back.

If you take calomel today you'll be sick and nauseated tomorrow; besides it only salivates you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.
