A SAFE STOCK FOR ALL

W.S.S.

OLD KING SOLOMON WAS A WISE OLD BIRD

Know How to Save His Shakes By
Putting Them Into Safe Invest-
ments Bankers Could Find.

Old King Solomon was a wise bird.
He distributed a lot of mighty good
advice.

But he is dead. You will have to
make your own decisions and deter-
mine your own course of action and
your own future. It will not do you a
bit of good to try to communicate
with Sol and have him solve your
problems for you.

If you got his ear, you probably
would not take his advice.

You will have to acquire your wis-
dom as Sol acquired his, by gaining a
broad view-point and taking advan-
tage of your own experience and that
of others. Solomon was a man before
he was a king and a man before he
was a sage. He was a man who was
not much different from that of
wise workers of the present day.

You may be sure that the high cost
of living was a problem in Solomon's
day as well as in 1919 and that the
purchasing power of a shekel, minted
from the gold of Ophir, fluctuated just
as does the dollar minted at Philadel-
phia.

But Solomon knew that thrift and
saving, the stimulation of production
and the elimination of waste would
solve those problems just as the wise
worker man knows it today. He laid
up a lot of coin through safe and con-
servative investment just as wise
men and women have put money for
the future in Liberty Bonds, Treasury
Savings Certificates and War Savings
Stamps. Also there is no record that
anyone ever took any of that coin
away from Old Sol by inducing him to
speculate in wild cat stocks.

He left one bit of advice, the wis-
dom of which the years have not
changed. He said: "A good man
leaveth an inheritance to his child-
ren's children."

You can follow that advice by
steady consistent saving and invest-
ment in War Savings Stamps and
Treasury Savings Certificates and in
Liberty Bonds at present prices. These
securities bought now will be an
inheritance for your children's children.

Sol had to get wise.

You can get wise just as he did. If
you fail to save you will regret
through many years.

SING A SONG OF SAVINGS STAMPS

Sing a song of Savings Stamps,
The cost of living's high.
But have you counted all the
things
These Savings Stamps will buy?

They help to take that little trip.
Or buy some needed clothes.
How many things they'll help you
get
Goodness only knows.

War Savings Stamps bring 4
per cent interest, compounded every
three months. Hilt high prices below
the belt by investing in United States
securities. The dollar you save today
may be worth twice as much five
years from now.

COLLEGE PRESIDENT OUTLINES REMEDY

Tells How High Cost of Living Prob-
lems May Be Solved by Every
Man and Woman.

President Nicholas Murray Butler,
of Columbia University, in a recent
discussion of the high living costs
said:

"Punishing profiteers is a good
thing, but it won't reduce the cost of
living. If we had all their hoarded
goods it would do little good.

"Only the operation of inexorable
economic laws can bring us back to
tolerable conditions. The remedy is
to save, to practice public economy
and private thrift. We must have and
invest in productive industry. Bor-
rowing for non-productive reasons
means bankruptcy."

In the opinion of the best econo-
mist in the United States the peo-
ple's greatest weapon against high
prices is the government's Thrift
campaign. Every family should have
a budget, just as every successful
business has a budget. The first
thing on that budget should be the
amount to be saved from the weekly
or monthly income—not the amount
to be spent. Make what you save
govern the amount you spend, not
what you spend govern the amount
you save.

War Savings Stamps bring 4
per cent interest, compounded every
three months. Hilt high prices below
the belt by investing in United States
securities. The dollar you save today
may be worth twice as much five
years from now.

USE PLANE TO OVERCOME STRIKE PROBLEM

Strikes or no strikes the Wildroot
Company, Buffalo, had to get a ship-
ment of its product to New York and
it did.

Confronted with an almost inex-
tricable transportation problem, the
company found a solution—it hired
one of the Curtiss Aeroplane Com-
pany's machines and Capt. Leo
Chase this morning landed in New
York with a shipment of about 600
pounds of the company's product that
wouldn't have reached there for days
otherwise.

The picture shows Vice President
Robert J. Kidney giving Capt. Leo
Chase final instructions before de-
parture.

This was the situation that cropped
up for the Wildroot Company:
An advertising campaign that it is
conducting in New York made it ex-
tremely necessary that a quantity of
its product be sent there as soon as
possible. The railroads were tied
and found wanting. Strikes on the
express companies and other strikes
forbade their use as a messenger.

"We didn't know what to do at
first," said Robert J. Kidney, vice
president of the company, who is
seen in the picture talking to Capt.
Chase just before the aeroplane hopped
off yesterday.

"Then we thought of sending it by
air and the Curtiss company supplied
us with an aeroplane and a pilot.
They did the trick."

Capt. Chase took the air at the Cur-
tiss field at Buffalo and planned to
make the trip by way of Syracuse
and Albany, because of the stops pro-
vided there. He had to descend at
Troy, because of slight engine trouble,
but he got started again this morn-
ing.

It was the first aerial freight trip
across the state," said W. G. Rich-
ardson. "Other short trips have been
made in and around the state, but it
was the first time that the state was
crossed by air with a load of freight."

That the Curtiss company is plan-
ning on making aerial freight busi-
ness a permanent establishment is
shown in the fact that the company is
building a model machine, which will
carry one ton.

Capt. Chase carried his load in the
observer's pit, but it was an old war
machine and not shaped up for
freight and commercial purposes as
the new Curtiss machine is planned.

LIFT OFF CORNS!

Apply few drops then lift sore,
touchy corns off with
fingers

Doesn't hurt a bit! Drop a little
Freezone on an aching corn, instantly
that corn stops hurting, then you lift it
right out. Yes, magic!

A tiny bottle of Freezone costs but a
few cents at any drug store, but is suffi-
cient to remove every hard corn, soft
corn, or corn between the toes, and the
calluses, without soreness or irritation.

Freezone is the sensational discovery of
a Cincinnati genius. It is wonderful.

The Secret of a Superlative Tire

The whole question of a super-tire is a matter of principles.
For there is nothing exclusive in the industry. No patent,
no secret formulas prevent a conscientious maker from build-
ing the best.

But cost and competition modify ideals. The Brunswick
idea is to pay perfection's price and get it.

That has been the Brunswick policy since 1845. And it ac-
counts for the growing preference for Brunswick Tires.
Motorists expect the utmost from a tire bearing the name of
Brunswick—and get it.

You, too, will be convinced by your first Brunswick, that
here is an extraordinary tire, and that more money cannot buy
a better.

Better tires of their type are impossible—or better tubes.
That we guarantee.

Try ONE Brunswick—learn how it excels.
