TO RAISE HEALTHY CHICKENS

Lack of Vigor in Newly Hatched Chicks is Often Traceable to Weakness of Parents.

(Prepared by the United States Department of Agriculture.)

To be successful in raising chickens it is necessary to have healthy and vigorous breeding stock. For the lack of vigor in the newly hatched chicks is often traceable to weak parents. Only the most vigorous and the best grown birds should be put in the breeding yards. Each bird should be full of life and energy and free from any serious deformity. Yearling hens are usually better than pullets for breeders, for the reason that the hens are more mature and do not lay so many eggs during the early winter, and consequently do not reduce their vitality so much before the breeding season. Vigorous hens 2 to 4 years old can often be advantageously retained in the breeding yard. The male birds chosen should be young and active. An early hatched, well developed

Healthy and Vigorous Farm Flock.

Open cockerel is usually satisfactory, or a good vigorous yearling or 2-year-old cock may be chosen. The hens used for breeding purposes should be given the best care possible; they should be provided with large runs, and should not be forced for heavy egg production during the early winter.

Revival Planned For Entire South

Widest Evangelistic Effort Ever Made Will Be Launched Soon.

Nashville, Tenn.—Plans for an evangelistic movement which will cover the entire South and operate in 20,000 churches at the same time are being formulated by the Centenary Commission and the evangelistic committee of the M. E. Church, South.

Bishop U. V. W. Darlington is the chairman of the joint directing committee and Dr. O. E. Goddard is the executive secretary.

Standard Plan Made.

The movement will operate according to a standard plan. This plan provides for a preliminary survey of the entire South to discover what persons are not affiliated with any religious denomination.

Dr. A. C. Zumbrennen is in charge of the survey, and he has made preliminary investigations in a large number of typical sections as samples to guide pastors in surveying their own fields.

When these surveys are completed the evangelistic movement will be launched in an effort to interest all non-church members whose names have been secured.

It has been estimated that half a million workers will be enlisted to personally interview the persons who have no church membership.

Pennilion Singing.

Pennilion singing is quite common in Wales, and peculiar to the principality. It consists of an instrument playing over a tune in strict time and repeating it over and over again, while the singer or singers extemporize words to it in rhyme. The impromptu poetry must fit in with the music and is generally of an amusing character. The custom is quite common among the people, and the instrument used is their national instrument, the harp.

The Bible and Women Preachers.

Women preachers are taking comfort from the fact that one champion has discovered what they think is biblical recognition for them. In the prayer book version of Psalm 138, occurs the verse, "The Lord gave the word; great was the company of the preachers." The revised version of the Bible translates the passage thus: "The Lord gives the word. The women that publish the tidings are a great host."

Appropriate Gardens.

Much that has been said in regard to the house applies equally well to the garden. Let its style be determined by locality. Formal gardens with neat hedges and direct paths are more and more appropriate as we approach the conventionalities of city life. Let the picturesque surroundings, spacious, picturesque surroundings. Winding paths and other features of the natural garden require to be close to nature. An orchard, both more useful and more beautiful in the proximity of the small house that is not far from town. The cost of maintenance is least in the orchard garden with paved paths, flowering shrubs, and borders of perennials.

Do not overcrowd the houses, brood coops, brooder or colony coops.

Everything must be kept clean in warm weather to keep vermin down.

Turkey hens usually lay about fifteen eggs before beginning to go broody.

Break your Cold or LaGrippe with few doses of 666.

GIVE ME SOME WAR SAVING STAMPS

MANY PERSONS HELD BY HYPNOTIC SPELL

Erroneously Imagine That Value of Money Lies Within Itself and Not in Those Things It Will Buy.

Thousands of Americans are under the hypnotic spell of money. With distorted viewpoint they have come to regard money as a great treasure in itself whereas money has its real significance only in what it buys for us. A man's reward for his work does not depend merely on what he earns. For the true reward of labor is the service the worker is able to obtain with the money he earns.

It is evident that a man may earn twice as much as he once did in money and yet be no better off if the goods he needs cost twice or three times what they formerly cost. But it is apparent to all that apart from increase or decrease in wages as expressed in money, there is a wide difference in the real value earned by persons receiving the same in actual cash.

What a person gets out of the world in return for what he gives it, depends finally on the choices made in disposing of his income. One man by wise buying, careful and consistent saving and safe and profitable investment in such securities as War Savings Stamps, Treasury Savings Certificates and Liberty Bonds, may transform the reward of his labor into all the necessities and comforts of life that he requires and even its luxuries. Another, gaining exactly the same sum in actual cash, may, through waste, extravagance and failure to save, find himself unable to secure even the necessities.

Whether or not a worker earns a sum which fulfills his estimate of what should be his just reward for labor, the responsibility for the way he spends what he gets remains with him and with him alone and cannot be transferred to any other person. Prices of necessities and wages may ebb and flow like the tide but the fundamental fact remains unchanged that apart from the nature and volume of his earnings every man can, within limits, determine the richness of the reward of his labor. He can accomplish this by the amount of restraint and intelligence he exercises in spending what he has to spend and in saving and investing what he has to save.

UNCLE SAM SAYS HERE'S LIBERTY BOND'S BROTHER.

Treasury Savings Certificates are a new issue of United States government securities. They are of \$100 and \$1,000 denominations. They run for five years and bear 4 per cent interest, compounded every three months.

They are little brothers of the Liberty Bond and big brothers of the War Savings Stamp.

A \$100 Savings Certificate costs \$84.40 this month. It will be worth \$100 January 1, 1924. It is cashable any time with accrued interest at any postoffice on ten days' notice. It is a government obligation.

A \$1,000 savings certificate costs \$844 this month. It will be redeemed by Uncle Sam January 1, 1924, for \$1,000. It is cashable with accrued interest at any time at any postoffice on ten days' notice.

Treasury savings certificates are registered in your name, thus insuring against loss.

BRITISH NOW SAVING LARGE SUMS OF MONEY.

In spite of the exigencies of war, the volume of savings deposits in England has grown tremendously in the last five years according to the comptroller of the British Post Office Savings Bank. Only twice, the comptroller states, was the flow of savings deposits interrupted: once by the war loan of 1915 and once by the 5 per cent loan of 1917.

Total deposits increased despite the fact that depositors transferred over \$1,000,000,000 from their postal savings into the various issues of the government. The recent figures show conclusively, the comptroller asserts, the power of saving of the British public for the amount diverted to the government war issues has not been wasted or dissipated but must still be included in the savings of the nation.

Cannot Photograph in Colors.

It seems a remarkable thing, considering the progress of the science of photography and cinematography, that color photography is still an undisclosed secret. There are processes by which a very natural colorization of Nature can be produced, but the plate is yet to be made which will produce a landscape in autumn in all its wondrous tints, or take a portrait of a lady with the natural coloring of the hair, eyes, and complexion, with the various colors of her costume "in the manner as she lives."

SCALPER OF WAR SAVING STAMPS ARRESTED.

From every Federal Reserve District in the United States information is being received by the Treasury Department in Washington that a determined war being waged against persons, who, by prying upon the unwary, are trafficking in War Saving and Treasury Certificates.

The latest information regarding the activity of the "scalpers" comes from St. Louis, where two arrests have been made by Deputy United States Marshals. Both prisoners were released on \$5,000 bonds and are now waiting for a hearing before the Federal commissioner.

One of the men is said to have altered registered numbers on War Savings Certificates, it being alleged by St. Louis postal authorities that in the man's office were found \$875 in War Saving Certificates from which the registration numbers had been removed. It is charged that a determined man had in his possession \$566.90 worth of altered government securities.

One of the suspects is employed by a St. Louis brokerage concern; the other is the proprietor of a hotel.

Grass, Straw, Stalks and Leaves Should Be Plowed Under for Humus-Making Material.

According to the Ohio experiment station, vegetable matter, such as grass, straw, stalks and leaves, loses in six months fully 50 per cent of its carbon or humus-making material. In other words, these materials plowed under in the fall are twice as valuable for humus as when plowed under in the spring. Here is an excellent reason why every day, when the ground is dry enough, should be utilized in plowing under the dead vegetation on your fields.

Six Small Farms AT AUCTION

SATURDAY

November 29, 1919

LAST CHANCE

To get a small farm in the edge of the town of Graham, on good road, and about half a mile from the Court House

THE CHAS. A. THOMPSON FARM OF 63 ACRES

Divided into 6 small farms, ranging in size from 6 to 20 acres---good land, suitable for trucking and Dairying

SALE AT 2:30 O'CLOCK

Answer this question for yourself: How many people do you know who have lost money buying land like this? It will bring more the next time---do not worry about that. The man who does not make money in real estate is the man who does not buy. It is better to look ahead and be happy than to look backward and be sad.

Music by the Band--Valuable Prizes Given Away

R. L. HOLMES, Owner

Their Medicine Chest For 20 Years

It is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers--what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestine, while others would act only on the lower or large intestine, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as **Remedy**, which I truly believe goes further and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of **Nature's Remedy** as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and the results of its use in my own family and among my friends, before I ever offered it for sale, caused me to have great faith in **Nature's Remedy** from the very first.

And now as I find myself nearing the age when I must bow to the inevitable and go to another life, my greatest pleasure is to sit each day and read the letters that each mail brings from people as old or older than I, who tell of having used **Nature's Remedy** for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefited by it.

It is a consoling thought, my friends, for a man at my age to feel that aside from his own success, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a **Nature's Remedy** (SR-Tablet) and will be better, healthier, happier people for it. I hope you will be one of them.

CALOMEL

Calomel is a dangerous drug. It is mercury--quicksilver; and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tone" Instead!

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick, I want you to go back to the store and get your money.

Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.
