Haw River Man Shot - Woman Cause - Husband Does Shooting - Wound Serious.

Monday morning's Greensboro Daily News contained the following item in regard to a shooting in which Haw River parties were the principal actors:

Wort Montgomery, white man of Haw River, is in St. Leo's hospital here in a serious condition from a gunshot wound said to have been inflicted by Bill Andrews, another Haw River white man, at Proximity yesterday morning about 2:30 o'clock. The wife of Andrews is said to have been brought to Proximity Saturday night by Montgomery, and it was also reported yesterday that she, along with Montgomery and two other Haw River men, Ed. Foster and J. B. Hughes, were seated in an automobile there when the shooting occurred early yesterday morning. A 25 caliber automatic pistol was the weapon used, and Montgomery was shot through the side. The bullet was still in his body last night, and it was said that his condition was critical. Andrews is in the county jail here, and a hearing in the case has been set for next Thursday afternoon at 2:30 o'clock before Justice of the Peace Sims at Proximity.

Sheriff Stafford, who brought Andrews back here from Burlington, where he was apprehended about five o'clock yesterday morning by the Sheriff there, said yesterday that the cause of the shooting as told to him was that Montgomery, Foster and Hughes brought Andrews' wife here from Haw River Saturday; that Andrews heard they were coming to Greensboro, and followed them, running across all of them in the machine at Proximity after 2 o'clock yesterday morning; that Andrews walked up to the car and fired six times into it or toward it. Only Montgomery was hit, and but one bullet struck him. Then, it is said, Andrews ordered his wife to get in his car, which she did, and drove off.

Sheriff Stafford was notified of the affair shortly after it happened, and telephoned the chief of police at Burlington, requesting him to have the sheriff there apprehend Andrews. This the Burlington officer did, the man being taken into custody there as he was about to pass through. Sheriff Stafford was notified of the arrest about 5 o'clock yesterday morning, and he, accompanied by other officers, went and brought Andrews to the Guilford county jail.

Result of School Clinics for Tonsils and Adenoids.

Believing that the people generally would be interested in knowing the results of the operations for diseased tonsils and adenoids performed last fall in the school clinics, Supt. M. C. Terrell sent out the following letter to 85 parents who had children operated on. Fifty-three parents replied to this questionnaire, and below is given a tabulated list of their answers:

Dear Sir:

It has now been about three months since your child was operated on in the school clinic conducted by the State Board of Health. I am very anxious to know what the parents think of this work; so will you please describe as accurately as you can what effect, if any, the removal of tonsils or adenoids had upon your child's health, disposition, progress in school. Please state whether the child was operated on for tonsils or adenoids, or both. Use this sheet for your letter.

Cordially yours,
 M. C. TERRELL,
 Superintendent.

The replies tabulated showed the following:

Health: No change 4, improved 48, worse 1.
 Disposition: No change 9, improved 43, worse 1.
 Progress in School: No change 10, improved 41, worse 2.

Big Value in Tires for The Smaller Cars

Back of the manufacture of Goodyear Tires for the smaller cars is the same purpose to supply high value in the product that is behind the manufacture of the Goodyear Tires that equip the most expensive automobiles built.

This purpose is expressed by the enormous resources, extraordinary skill and scrupulous care applied to the manufacture of Goodyear Tires in the largest tire factory in the world devoted solely to the 30x3, 30x3½, and 31x4-inch sizes.

The effect of this endeavor is noted in the fact that last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

It is also noted in the fact that if you own a Ford, Chevrolet, Dort, Maxwell, or other car requiring one of the sizes mentioned, you can secure Goodyear Tires and Goodyear Heavy Tourist Tubes at the nearest Goodyear Service Station.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread	\$23.50
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread	\$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag. \$4.50
