VOL. XLVI

GRAHAM, N. C., THURSDAY, SEPTEMBER 16, 1920

NO. 32

RALEIGH LETTER

Special Correspondence.

Raleigh, Sept. 13.—The latest effort of the Republican management of the campaign to interfere with the operation of the absentee voters' law at the approaching November general election, may be regarded right at the start for what it is—a loud call for the calf rope.

Meanwhile Chairman Warren is advising all voters (especially school teachers, male and female), who expect to be absent from their homes during the registration period (Sept. 30 to Oct. 20), to demand their right to register at any time before that period, which they can do by applying to the chairman of the county board of elections in their respective home counties.

The suit instituted by the Republican campaign management at Greensboro in the name of the Republican candidate for State Treasurer, J. J. Jenkins, to secure an injunction restraining the State Board of Elections and the State Auditor from sending out absentee voters' blanks, etc., will be heard in Raleigh on Thursday of this week by Judge Kerr. The application is based on the alleged "unconstitutionality" of the law, and as able lawyers here say there is nothing but a Republican trick to it, Judge Kerr will probably have no hesitation in dismissing it.

The Republicans can appeal from his decision and if they do a decision from the Supreme Court will be secured before the time for election. The law is really an admirable one and secures to many qualified voters the exercise of their right, which otherwise their unavoidable absence from the home precinct would debar them from voting. The Republicans evidently think more Democrats are protected in this way than Republicans. Hence the desire to have the law put out of commission.

In reality and all reason, this bone-head stunt on the part of the Republicans may be regarded as more a cry of distress than anything else.

Senator Harding, Republican candidate for President, was put on record early in the campaign, when labor forced his hand, as to the absentee voters' law, and he declared for it in his State and all the other States that have such a law, as being of much benefit to all citizens in the exercise of their right to vote when compelled to be temporarily absent from their home.

Important School Tax Opinion.

Attorney General Manning has just given an opinion, at the request of the State Tax Commission, in which he holds that the county tax levies to provide funds for the operation of the public schools of the State for the constitutional term of six months cannot be restricted by legislative enactment under the 10 per cent promise, and the commissioners of any county are empowered to levy whatever additional rates that are deemed necessary.

A number of the counties of the State had complained to State Superintendent of Education Brooks that they had found that this year's school budget could not be covered by the amount of last year's income, plus the legislative allowance of ten per cent increase. Superintendent Brooks has held all through that the legislature could not limit the necessary income of schools when the State constitution required them to operate six months or more in the year. But surely there is no kick coming from any one from the decision of the Attorney General which now confirms the opinion of the State Superintendent.

Tax rates other than school taxes fixed by the General Assembly at the special session are not involved, and can not be, as there is no mention of them made in any section of the organic law of the State.

Morrison and Other Speakers' Assignments.

Chairman Warren has arranged many of the dates for many speakers in the campaign, including Gardner and Page as well as Morrison, and these will be announced from time to time with others yet to be made. Dates for Governor Bickett have just been arranged as follows: Beaufort, September 18; Kinston, 22; Clinton, 25; Greensboro, 28; Waynesville, 30; Marion, October 1; Salisbury, October 2; Williamston, October 6; Rocky Mount, 7; Wilmington, 8; Lumberton, 9th.

Governor Morrison's speech to Johnston county Democrats, at the county convention, drew 2,000 people and is highly complimented.

Appointments for Mr. Morrison have just been made by Chairman Warren as follows: Boone, Sept. 24; Jefferson, Sept. 25; Sparta, Sept. 27; Yadkinville, Sept. 29; Winston-Salem, Sept. 30; Taylorsville, Oct. 2; Burnesville, Oct. 4; Marion, Oct. 5; Rutherfordton, Oct. 6; Asheville, Oct. 7; Waynesville, Oct. 8; Sylva, Oct. 9.

Tobacco Growers Appeal to Simmons.

Through the Council of State at Raleigh the tobacco farmers have appealed to Senator Simmons to use his efforts to get the United States Treasury Department to help relieve the low price of the tobacco situation, which buyers have claimed was largely due to tight money. The treasury officials are asked to duplicate its action of two years ago when money was poured into southern banks to save the cotton crop from a disastrous drop in prices. It is hoped that, while much tobacco has been sold at 25 to 35 cents on the average the last few days, the prices will yet improve. One of the officials of the State Department of Agriculture expresses the opinion that over-production is the main reason for low prices. He says: "Eastern North Carolina went sort of tobacco wild this year," declared an official of the Department of Agriculture yesterday, "and it is only natural to expect a condition of this sort. I am not one to say, 'I told you so,' but the Department early in the year warned the farmers against over-production, and the danger of planting tobacco and nothing else."

Cor. of The Gleaner.

The women of our community are not very enthusiastic over the special meeting; not many of them will take any part in the coming campaign. They care nothing for registration, or voting. They are looking to higher and nobler things, and still hoping the silly men and women, who brought about such a wrangle, will soon see their mistake and make amends, for surely they have work enough already.

Rev. and Mrs. I. P. Frazier are doing some excellent work at Mt. Zion. Nineteen have been added to the church during his short ministerial work at that place, and others are expected.

Farmers are very much discouraged over the present reports of tobacco prices.

Miss Mary McPherson spent the week-end with Miss Huel Foster and attended services at Mt. Zion.

The Shrines of Government.

"The shrines of government are in the communities of the land." In this one sentence, fresh from his heart and brain, Governor Cox shows more real Americanism, more sympathy with the visions and ideals of our country, than can be found in all the deliberate utterances and calculated phrases Senator Harding ever wrote or spoke.

It is in the communities of the land—the small country communities as well as in the great metropolitan cities—that the shrines of government, the altars of patriotism, the councils of Americanism, are found.

It is not in great organizations, not in theatrical leagues or political clubs that the foundations of our Nation are laid. It is in the quiet homes, on farms, in the villages and towns, as well as in cities, that the broad and deep basis of the fabric of our Nation is laid.

G. O. P. SUFFRAGE CLAIM WITHOUT FOUNDATION.

Contention That 29 Republican States Ratified Amendment Isn't True.

Washington, D. C.—In their frantic efforts to offset the favor the Democratic party has gained with the women voters of the country because a Democratic State, Tennessee, was the thirty-sixth to ratify the woman suffrage amendment, Republicans are claiming that, after all, twenty-nine Republican States ratified the amendment, and the larger share of the credit for this act of justice to women should go to that party.

The chief trouble with this argument, industriously advanced from G. O. P. headquarters in an effort to deceive the women voters, is that it isn't true.

In political propaganda issued from Republican headquarters, twenty-nine States among the thirty-six ratifying the amendment are claimed as Republican. They are:

California, Colorado, Illinois, Indiana, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Washington, West Virginia, Wisconsin and Wyoming.

Of these, President Wilson and the Democratic party carried fourteen in 1916. They were:

California, Colorado, Idaho, Kansas, Kentucky, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, Ohio, Washington and Wyoming.

Nor is the claim that these States are "normally Republican" tenable.

THE LEAD INDUSTRY.

The production of lead in the United States fell off in 1919. Several lead plants have been consolidated, and others have been forced to shut down some of their furnaces. Several plants are keeping at work only to hold together their organizations, waiting for a greater demand for lead which will permit them to work to capacity. Other nonferrous metals also have suffered a decrease in production.

Somebody poked a hole in the sugar bay.

The anti-suffragists should write it—Gnashville.

Penrose Concerned About the Senate.

Washington, D. C.—In a recent interview given to a Philadelphia newspaper, Senator Boies Penrose, the Old Guard's uncrowned prince, gave voice to his fears that the Republicans may not control the next Senate. "We are more than likely to lose sitting Republican Senators in certain close States," said the Senator, doubtless having in mind fear of the voters visiting their wrath upon certain Senators whose course in the last session made them obnoxious to peace and justice-loving men and women of all parties.

"We have a nominal majority in the Senate," continued the Senator, "but this majority could not be counted upon over night on revenue legislation." Senator Penrose said there would be "no advantage in electing Mr. Harding if he was to be hamstrung by a Democratic Senate. Such a condition would destroy his ability to make proper appointments, such as to four vacancies which probably will occur in the Supreme Court."

The Senator being a practical man, a sense of delicacy does not restrain him from calling attention to possible Supreme Court vacancies, and it is, of course, as necessary to have a Senate that will confirm "proper appointments" as it is to have a Senate that will write a reactionary tariff schedule, or pass a revenue bill to suit the special interests Senator Penrose always carefully guards.

STRAIN TOO GREAT

Hundreds of Graham Readers Find Daily Toll a Burden.

The hustle and worry of business men.

The hard work and stooping of workmen.

The woman's household cares. Often weaken the kidneys. Backache, headache, dizziness. Kidney troubles, urinary troubles—frequently follow.

A Graham citizen tells you what to do.

Let T. E. Redmon, shoemaker tell it: "My work obliges me to do a lot of stooping and it weakened my back so I could hardly straighten up. The pain shot through the small of my back and I was in misery all the time. I hear a whole lot about Doan's Kidney Pills so I started taking them. After I used a few doses they relieved all the misery. Whenever I haven't felt just right since, Doan's have fixed me up in good shape."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Redmon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Feeding Value of Velvet Beans.

The principal value of the velvet bean is for winter grazing, and for that purpose it is one of the best crops which can be grown on the light soils and in the long season of the immediate Gulf coast say specialists of the United States Department of Agriculture. It is usual to allow the crops to grow until killed by frost, after which it is grazed through the winter, as the vines and leaves decay so slowly that they retain their palatability a long time. The matured beans are quite hard when dry, but are eaten well in the fall, or whenever they become slightly softened either by rains or by lying on damp soil. The yield of seed from a fair growth of vines is usually from 20 to 30 bushels per acre, and much heavier yields are often secured. One hundred pounds of the pods will shell about 60 pounds or 1 bushel of seed. They do not need to be shelled for feeding cattle, and make an excellent grain feed for winter use. Experiments made at the Agricultural Experiment Station of Florida indicate that for feeding 3 pounds of the beans in the pods are worth more than 1 pound of cottonseed meal.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers.

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet and then lift them off.

When Freezone removes sores from the toes or calluses from the bottom of the feet the skin beneath is left pink and healthy and never sore, tender or irritated.

BIG PROFIT IN

MILK AND BUTTER

Small Investment Brings Big Return. Mr. Weaver's Plan is Simple.

"I bought a package of Dr. LeGear's Stock Powders from my local dealer and after feeding it to my Jersey Cow, she increased from 6 quarts to 12 quarts of milk per day, and after continuing the Powders for 20 days longer, she increased in butter fat from 5 pounds to 10 pounds per week, and at the end of 5 months, she was making 12 pounds of butter fat per week."
