**YOU WOULD TRY TOTAMEAWILD-CAT**

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it causing cramping and nausea.

If you feel bilious, headache, constipated and all kinds of ailments, get a bottle of Dodson's Liver Tonic for a few cents, which is a harmless, vegetable substitute for dangerous calomel. Take a spoonful and it doesn't start your liver and straighten you up better than most calomel and without making you sick, you just go back and get your money.

If you take calomel to-day you'll be sick and nauseated tomorrow; besides, it may salivate you, which if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

**Big Ben should be in every farmer's home**

You men who live on the farm have got to be heavy workers. And if you are heavy workers you require heavy sleep and lots of it.

For heavy sleep is heavy work's reaction and it's not always easy for the heavy sleeper to get up without help.

That's where Big Ben comes in. He makes it easy every morning.

Big Ben is a truth-telling and reliable alarm clock.

He gets you up, he never fails.

You're always up on the dot if he's in the sleeping room.

See him in my window next time you come to town. Hear him greet you Good Morning. He is well worth meeting, indeed.

**SOUTHERN BELL TELEPHONE & TELEGRAPH COMPANY**

**Investment, Expense, Revenue**

The year 1916 was the best year in the history of this Company. The Company earned during that year more money in the State of North Carolina than ever before, or since. The following figures speak for themselves:

Statement of Investment, Revenue and Expenses, State of North Carolina.		1916	1917	1918	1919
Investment	.....	\$3,272,194.50	\$3,410,331.61	\$3,534,514.11	\$3,891,422.55
Gross Revenue	.....	946,794.60	1,032,717.05	1,100,034.02	1,404,331.39
Total Expenses	.....	780,580.70	874,998.29	1,023,779.33	1,262,040.57
Net Revenue	.....	166,213.90	157,718.76	76,254.64	142,290.82
Per cent of net earnings to investment	.....	5.08	4.62	2.13	3.67

Contrast that with the per cent of profit earned in your business!

This Company has never earned a profit equal to the legal rate of interest in the State of North Carolina, so there were no excess earnings during the past. These figures show the actual operations in this state.

The investment shown is all physical property, and is what it originally cost the Company. There is not one dollar for franchise, "going value" or any so-called intangible property.

There is no question of stocks or bonds or capitalization of any kind involved. These

figures represent the original cost of the actual physical property of the Company, used by the public of North Carolina, the actual expenses incurred in operating that property and the gross and net revenue received—nothing more and nothing less.

This property is worth more than the figure representing its original cost. To reproduce this property today would cost not less than 100 per cent more than its original cost.

If the Company's net earnings were measured by today's value of the property, they would not exceed 2 per cent.

The next advertisement will give the facts as to the quality of the service.

The most beautiful line of a woman's figure is the graceful curve from the armpit to the ankle. The beauty of this line determines the effectiveness of all your clothes.
