YOU NEVER CAN TAME A WILD-GAT

Mr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates. It's mercury. Calomel salivates! It's mercury.

Calomel acts like dynamite on a sluggish fiver. When calomel comes into contact with sour bile it crashes into it, causing cramping and ususea.

If you feel billous, headachy, constipated and all knocked out, just go to your dynamics and state better the contact of the co

your druggist and get a bottle of Dod-son's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without mak-ing you sick, you just go back and

get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate yon, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Adv.

Campaign of Assassination Is Making the Irish Problem More Difficult.

ASQUITH ASSAILS PREMIER

Large Part of the Island Faces Block ade - Poles and Russians Sign "Peace Without Victory"-American Agricultural Producers Object to Lower Prices.

By EDWARD W. PICKARD.

The Irish problem, instead of approaching a solution, seems to have taken a new lease of troublous life, and the woes of the Emerald Isle are increasing instead of diminishing. This deplorable fact is due directly to the campaign of murder, arson and intimidation that is being carried on by what Sir Hamar Greenwood, chief secretary for Ireland, calls the inner circle of assassins. The daily and nightly assaults on the police and other officials of the British government provoke the latter to bloody reprisals which are to a considerable extent condoned and xcused by the government. Premier Lloyd George made a speech at Car-narvon, which was interpreted by his opponents as a justification of the reprisals. He said that 238 policemen had been shot, of whom 109 had been shot dead, and the patience of the police had given way, with the result that they hit back. Lloyd George declared that if, as was contended, there was war in Ireland, then the war must be waged on both sides. But when policemen were shot in the back by Sinn Feiners the premier said, it wa not war but murder. He asked whether, under the system of terrorism which made it impossible to obtain evidence, it was apy wonder the police shot the murderers

Herbert H. Asquith, former premier, who sees a chance to return to pow-er, declared Lloyd George's speech was a "condonation of the hellish policy of reprisals," and another part of it he construed as "reproduction he construed as "repudiation, root, and branch, of dominion home rule." He is rallying all anti-government forces for a fight, as soon as parliament opens, over British government in Ireland. Before that time the delegation from the Irish peace conference is to be received by the premier, and it is believed he will then make a new offer to Ireland. Meanwhife the gov-Traveling Man—Some tornado that is determined to crush the campaign was we had around here i.s. night. increase the police force in the island to many thousands.

One threatened result of the campaign of assassination is the virtual blockade of a large part of Ireland through a withdrawal of the mail and telegraph service and the entire closing down of Irish railways. This would mean widespread distress and heavy loss to farmers and traders: Whenever par-ties of troops present themselves for conveyance the rail workers refuse to operate the trains, and the railway stant dismissal of these men. . The carrying out of this policy probably will result in the cessation of railway traf-

he within a month. The British secret service believes It has proof that the Irish "republic is being aided, financially and by the distribution of arms and the organization of an espionage system, by the Red organization headed by Victor Kopp, soviet envoy in Berlin. Kopp handles funds from Russig and organlzes propaganda through newspapers and agents, and the secret service says it has established the connection of this intrigue with revolutionary move-ments in Ireland and other parts of the British empire. A dispatch from Paris says Sinn Fein agents have been trying to purchase submarines from Italy and France, but were told that Great Britain would consider the selling of submersibles to them an act of war.

The signing of a peace treaty and armistice by the Polish and soviet Russian delegates at Riga, reported a little prematurely last week, took place on October 12. The armistice was to become effective at midnight October 18. Joffe, head of the soviet delega tion, described the peace as "a peace without victory and without van-quished," and disinterested observers at Riga agreed that that described it. Hence it was predicted that the pact would not be very pleasing to either the Poles or the Russians.

A peculiar complication in the af-

fairs of that part of Europe arose through the seizure of Vilna, the capital of Lithuania, by troops under the command of General Zellgouski, who resigned from the Polish army before the occupation. His force is made up of both Poles and Lithuanians. He established a council of six in the city, and that body is planning a provisional government for central Lithuania pending the question of the self-deter-mination of the inhabitants of that district. The Polish government dis-avowed the occupation of Vilna by Zellgouski, the Lithuanians were said to be mobilizing for the recapture of the city, and it was reported that representatives of the League of Nations might be asked to straighten out the

As has been said before, the Russian soviet government is now free to devote all its strength to the crushing Baron Wrangel in south Russia But the baron is wasting no time, and late dispatches from Constantinople say his Dneiper river campaign is mak-ing excellent progress. He had just captured two Bolshevik battalions, occupied two important towns and destroyed a large munitions plant. The report that Makno, the guerrilla leader, had deserted Wrangel is confirmed, but several of his bands have been routed. Semenoff, the Siberian anti-Bolshevik leader, has given his adherence to Wrangel and asked orders from Every day brings its batch of re-

ports of mutinies and revolts against the soviet rule, and in London it was believed the downfall of the Lenine and Trotzky regime was near. Serious fighting was said to be taking place in Moscow, the troops storming barricades in the streets. Bolshevik efforts elsewhere were collapsing. The Armenian and Georgian armies were preparing to unite to defend the two republics against the Bolshevik Turks, Tartars and Azerbeidjanians. France and Turkey have made an agreement by which the French will police Ad-ana, Tarsus and Mersone for the protection of Armenia.

Earl Curzon, British foreign seen tary has told the Russian Bolshevik foreign minister that the British navel forces have been ordered to attack on sight any Russian submarines encoun-tered on the high seas—this because leading members of the soviet have de-clared that government considers itself in a state of war with Great Britain.

The various factions of the Italian Socialist party, assembled in conven-tion, have been having a struggle for control. The moderates appear to have the whip hand and have refused to let the party commit itself in favor of soviet rule for Italy. The confer-ence voted solidarity with Russia but the majority stood fast against the Communists and made it plain they wanted no repetition in Italy of what has happened to Russia. Their leaders declared the Russian difficulties came from the rottenness of the pres ent regime and that the Bolshevik gov ernment would be unable to transpor products to other countries even after the blockade is lifted. Later in the week Socialist leaders and those of the General Confederation of Labor published a joint manifesto ordering ns in every town in Italy to force the government to recognize soviet Russig. They said a general strike of rail workers had been ar-

England's labor anxieties were cen-tered on the action of the coal miners whose delegates, after rejecting the wage proposals of the mine owners, decided that solice of a strike, given come time ago, should expire on Sat-

urday. This was taken to mean that the strike would go into effect on Monday. The operators offered a wage in crease of one shilling a day to start with and later two shillings, the miners to guarantee a certain minimum roduction. The men had a suspi cion that they were to be tricked into fer by a vote of about five to one.

The miners' strike, it was admitted. would throw hundreds of thousands of workers in other industries out of employment and bring about a serious crisis in the country's economic lue. The iron and steel manufacturers in the Yorkshire districts at once began preparations to shut down their plants. The government for weeks has been getting ready to handle the situation. There was a chance that the other members of the triple alliance the rallway men and transport work ers-would be able to set up machinery for mediation and at least delay

King Alexander of Greece, who was bitten by a monkey some two weeks ago, has been near death from blood polsoning, and at this writing is not out of danger. A noted French spe-cialist was hurried to Athens and ex-pressed the opinion that the king's case was of the most critical sort but not hopeless.

That the price reduction movement which appeared to be really started recently would not please everyone was a certainty. The trend "back toward normal" made a hit with the consumer, but not with the producer. Now the latter is protesting vigorous ly, the lead being taken by the growers of wheat, cotton and tobacco and the live stock men. The wheat men want \$3 a bushel and the cotton men 40 cents a pound. Leading agricultural producers met in Washington, voiced their griefs, talked of a farmers' strike and adopted resolutions severely criti-cizing government financial authorities and calling on them for aid in bringing about higher prices. Senator E. D. Smith of South Carolina urged that the farmers curtail production and withhold their crops from the market until prices were satisfactory. For this he was criticized by Benjamin C. Marsh, secretary of the Farmers' National council, who said:

"We must guard against some of the wild statements made here. There is no panic. Let's get away from Bol-

shevik statements.
"I was astounded when Senator
Smith suggested that the farmers strike, for that's what it amounts to If I am not mistaken, he voted for the bill to make strikes by labor a felony. When senators get up and say they don't understand the federal reserve act. I think it is time we should farmers are not going to stop produc-ing, but the farmers can call the bluff of the federal reserve board."

Dr. W. J. Spillman, former chief of the board of farm management of the Department of Agriculture, said: "It is quite clear that the federal reserve board and the secretary of the treas ury are using the authority placed in their hands for the purpose of ma-

nipulating the market."

Next day W. P. G. Harding, governor of the federal reserve board, con-ferred with the producers and undertook to pacify them. He urged them to keep cool, and expressed the belief there will be a reaction from present low prices. He told them he favored putting their crops on the market gradually. He warned against any attempt to withhold commodities, and pointed to the recent financial panic in Japan and the present Cuban sugar situation as examples of what might follow efforts to boost prices to arti-

Through Senator Pat Harrison chairman of the Democratic speakers' bureau, Governor Cox has challenged Senator Harding to a joint debate on the issue of the League of Nations at any time and place convenient to Mr. Harding and the Republican campaign management. The Democratic managers pointed out that both candidates would be in Ohio during the closing weeks of the campaign, and thought the debate might be easily arranged.
