

REMARKABLE RECOVERY

Extraordinary Curative Power of Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it. For it cured me after I had given up all hopes of getting better. You can publish this and I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 743 N. 25th Street, Phila., Pa.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment Is a Brisk Purgative With Calotabs, the Purified and Refined Calomel Tablets that are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess, calomel tablets called Calotabs, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful.—(Adv.)

MCSWINEY'S FINAL RELEASE BY DEATH

FEVERISH INTEREST IN POSSIBLE DEVELOPMENTS IS CAUSED BY DEATH

MUCH GRIEF AND BITTERNESS

Is Extremely Improbable That There Will be Any Outbreaks or Disorderly Developments in Cork.

Cork, Ireland.—Feverish interest in possible developments caused by the death of Lord Mayor MacSwiney, of this city, which occurred in Brixton prison, London, is mingled with the grief in which his death has plunged south Ireland. Although the people appear stirred to the highest degree of bitterness, it is regarded as extremely improbable that there will be any outbreaks or disorderly demonstrations in this city.

It is expected, however, there will be a considerable extension and intensification of guerrilla warfare against the police and military forces, which, anticipating reprisals, are doubling their vigilance, especially in remote districts.

Cork jail, where a number of hunger strikers are in a grave condition, is guarded inside and out by soldiers equipped with machine guns.

There is an exceptionally large garrison here. It is equipped for any eventualities, has a number of tanks and armored cars and is ready for instant service.

It is understood the Irish parliament had been making appeals to all elements of the population to refrain from violence. This is also believed to be the policy of various industrial leaders of the Sinn Fein movement.

New Orleans.—In a statement prepared at the instance of the New Orleans Cotton Exchange directors, Henry G. Hester, secretary of the exchange and for 50 years regarded as an international authority in matters pertaining to cotton marketing, declared there is "no reason for rushing for federal aid" and asserted there was "nothing the matter with the South beyond the unreasoning scare in cotton."

The statement, prepared for the benefit and encouragement of those who are not fully informed, follows: "The drastic decline that has occurred in cotton since the first August amounting to nearly \$90 a bale, or about 48 per cent, has been mainly due to the pressure to sell on a shrinkage market, undermining confidence of both sellers and consumers. QUESTION CONSTANTLY RECURS

Total Number of Representatives in Congress Under Apportionment of 1910 is One for Every 211,870.

Washington.—Curtailment of the South's representation in the House of Representatives is contemplated in bills that are being prepared by members of the house. Details of the proposed legislation will be brought up after revised census data is submitted to Congress.

This is the renewal of an old fight that recurs when reapportionment legislation comes up every ten years, and is due to laws in Southern States disfranchising negroes from voting.

The general representation of the country may be limited if members who think the House is too large now have their way. The total number of representatives is 435, or one for every 211,870 persons in the country in 1910. Elihu Root was one of those 10 years ago who favored a decrease. Some such decrease is now favored by Champ Clarke, the democratic leader, who thinks the House is too big.

No loyal American workman can be influenced by bolshevik propaganda.

Save your pants, men, by not sitting down so much when there is so much work that ought to be done.

There never was an ice weigher who erred on the side of mercy, righteousness and justice.

Why worry about the price of potatoes when lemons and cucumbers are so low?

If the weather department keeps on predicting thunder showers it is going to be right some day.

A teaspoon is an instrument used largely for dipping into your cup and finding no sugar in it.
