

THE ALAMANCE GLEANER.

VOL. XLVI

GRAHAM, N. C., THURSDAY, NOVEMBER 4, 1920

NO. 39

REPUBLICAN TIDE SWEEPS COUNTRY

Harding Elected President—Will Have Three-fourths of 531 Electoral Votes—North and West For Him—Solid South, Including Kentucky, For Cox.

REPUBLICANS GAIN TEN SENATORS AND WILL HAVE OVER 100 MAJORITY IN HOUSE

CHAMP CLARK IS DEFEATED FOR RE-ELECTION IN MISSOURI.

Senator Harding, Republican, has been elected President. He will have at least three-fourths of the 531 electoral votes. Only the solid South with Kentucky can be counted for Gov. Cox.

The Republican majorities are overwhelming in some of the Northern States.

In the U. S. Senate the Republicans will have a majority of ten and in the House about 100.

In national affairs the Republicans will be in complete control for the next four years, and whether they succeed or fail the responsibility will be theirs in toto.

LAWRENCE S. HOLT, JR., GIVES \$10,000 TO UNIVERSITY.

Fund to Help Needy Students to Secure College Education.

Cor. of The Gleaner.

Chapel Hill, N. C., Oct. 28.—President H. W. Chase announced today that the University of North Carolina has received from Lawrence S. Holt, Jr., of Burlington, a gift of \$10,000 to be used in helping provide a college education for students who would not otherwise have the money to go to the university. The principal of the \$10,000 will be established as a loan fund for worthy and needy students, and the income from the loans will be used for four scholarships which will be awarded annually to that member, man or woman, of each of the freshmen, sophomore, junior, and senior classes who shall be judged the most needy, deserving, and worthy. "It is my wish," said Mr. Holt, in making the gift to President Chase, "that no person shall receive one of these scholarships who would otherwise be able to attend the University of North Carolina."

The administration of the fund will be in the hands of the president, Business Manager, Charles T. Woolen, and Dean M. C. S. Noble, of the school of education. President Chase pointed out today the double effectiveness of the gift which establishes a loan fund and provides scholarship at the same time. It is a generously conceived and finely planned gift," he said, "and, so far as I know, is unique in the multiplied results it will achieve."

Mr. Holt is a graduate of the university of the class of 1904 and has been in close contact with the university for many years. He has been prominently connected with cotton manufacturing interests in Alamance county and now lives at Burlington.

What You Wish to Know About Hairy Vetch.

The Progressive Farmer.

Hairy vetch is by far the most vigorous grower of the more than 100 varieties of vetch known, and will stand cold and other adverse conditions better than probably any other variety. It is often known as "winter vetch" or "sand vetch". It belongs to the pea family and has the same inoculating bacteria as the Canada field pea, the English pea, or the sweet pea. (It does not have the same bacteria as the cowpea, however.) Inoculation, therefore, can be secured by using soil from the family

garden where English or sweet peas have been grown for years. Four or five hundred pounds of this soil per acre will give fair inoculation if sowed broadcast and covered immediately.

Hairy vetch, if sowed for hay, should be sowed at the rate of about 20 to 30 pounds of seed per acre with two to two and one-half bushels of oats. This mixture often makes, on good soil, two to three tons of hay per acre, which is of fine quality and readily eaten by all livestock. Instead of oats alone a mixture of one and a half to two bushels of oats and one-half bushel of wheat may be sowed with the vetch. The wheat, being stiffer, helps to hold the vetch erect, thus making the cutting easier.

When sowed to be turned under for the improvement of the soil, 30 to 40 pounds of seed, or even more, should be sowed to the acre. Even for turning, grain should be sowed with the vetch for the first few years, or until the soil becomes well filled with inoculation.

Atlantic Coast Inventors.

The following patents were just issued to Atlantic Coast clients, reported by D. Swift & Co., Patent Lawyers, Washington, D. C., who will furnish copies of any patent for ten cents apiece to our readers:

Virginia—Ernest L. Arthur, Pembroke, automobile tire chain; Caser J. App, Lynchburg, writing implement; Kemp B. Arthur, Norfolk, oyster-shucking knife.

North Carolina—David C. Blake, Durham, screen door and window construction; William T. Herndon, Parkton, plow; Timothy F. Ward, Earleye, barrel head machine.

South Carolina—Thomas Carter, Belton, fireplace heater and cooker; James C. Dobbins, Rock Hill, brick machine.

THE CRACK O' DOOM FOR NASTY CALOMEL

Folks Abandoning Old Drug for "Dodson's Liver Tone." Here in South.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with sour bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it can not salivate or make you sick.

A dealer says "umbrellas are coming back". None of those that we ever loaned out, however.

In this country it's "Who's Who" but in central Europe it's "Yitch's Yitch".

Alamance Democratic

Almost 10,000 Votes Cast—More Than Twice the Number Ever Before.

LARGEST MAJORITY IN A GENERATION.

Ben M. Rogers Polls Largest Vote with 775 Majority—Smallest Majority Little Less than 700—Sam T. Johnston Polls Largest Republican Vote.

With the addition of the new male voters and the women, Alamance's vote Tuesday was more than twice what it ever had been before. Close to 10,000 votes were cast and the Democratic ticket won by the largest majority in a generation.

Mr. Ben M. Rogers, for Register of Deeds, received the largest number of votes, 5,376, of any candidate on the ticket and went in with a majority of 775. Ernest P. Dixon, for County Commissioner, was only one vote behind him. The smallest majority is a few less than 700. The largest vote received by any Republican candidate was for Sam T. Johnston, 4,644, for County Commissioner.

The following are the county officers elected: B. M. Rogers, Register of Deeds; Lewis H. Holt, Surveyor; Dr. R. M. Troxler, Coroner; Chas. D. Story, Sheriff; Ernest P. Dixon, W. O. Warren, Chas. D. Johnston, John T. Love and Jno. H. Wilkins, County Commissioners. J. Elmer Long of Alamance and Benahar Cameron of Durham are elected State Senators for the 18th district, composed of Alamance, Caswell, Durham and Orange. W. P. Lawrence is elected to the House of Representatives.

Next week we will publish the official vote in tabulated form.

Armen Save Forest.

Army airplanes operating from six bases in California and Oregon, located 404 forest fires in a period of less than two months and a half, according to reports received by the Manufacturers' Aircraft Association, in California 53 of the fires were reported by wireless from airplanes assigned by the army air service to cooperate with the forestry service in protecting the national forests.

According to the reports enough valuable property was saved by means of the planes to equal the total appropriation made during the year for the entire army air service.

Helpful Hint.

"I'm in powerful bad shape, Lum!" said a citizen of Straddle Ridge, in reply to the inquiry of an acquaintance. "I ain't been any account—to say account—for six weeks now. I can't sleep nights to no good, and I don't relish what I eat. I've got a grouping pain in my abdomen the most of the time, and I'm plumb down in the back and low in my mind. I swear, I don't know what I ort to do."

"Get a new omenick," was the reply. "That'll furnish a new set of symptoms, that likely you'll know what to do for."—Kansas City Star.

Not Really Self-Supporting.

A movie star, has a ranch near Los Angeles. He boasted of how he raised his own foodstuffs, cattle and hogs, but added "even at that it's not on what you could call a really independent, self-supporting basis." "How's that?" asked his friend. "Well," said he, "I still have to buy my gasoline in town, and so far I haven't been able to raise any silk shirts for my gang to wear on Sunday."

Lived Happily Ever After.

One of the novelists referring to his hero says:
His countenance fell.
His voice broke.
His heart sank.
His hair rose.
His eyes blurred.
His words burned.
His blood froze.

It appears, however, that he was able to pull himself together and marry the girl in the last chapter.—Boys' Life.

WHO FIRST TOOK THE STUMP?

Expression Certainly is Ancient, but it is Hard to Tell Where it Originated.

Who first used the expression to "take the stump," the Nomad cannot say, and would like to know. Horace Greeley employed it, saying that the "stump is the conservation of American liberties," or something like that; but it was in current use, if the Nomad is not mistaken, before Greeley was born, or at least before he ever began to write editorials. The dictionary informs us that the use of the phrase was once peculiar to the United States, but that it is now commonly used in England. Naturally it does not mean so much in England as it does in this country; it would have meant as much in the time of William the Conqueror, but nobody "took the stump" then. That other phrase, to "stump" anyone to do a thing, in the sense of a challenge, is also American, and has a kindred origin. It suggests the practice of country boys when they wish to proclaim their prowess, of mounting the nearest stump and loudly defying all in hearing to do the thing that they can do. Both terms suggest the prominence of the stumps of trees in the primitive American life. These stumps are often a desolate feature in the landscape, in new regions. But it would be a sad bereavement if there were no longer any stumps in the land.—Boston Transcript.

PROVING HOW BRIEF IS FAME

Professor's Little Experiment Also a Warning to Those Who Would Enter Political Life.

"Now," said the professor blandly, addressing his class in political history of the United States, "let me test your general knowledge. Who was Richard M. Johnson?"

Silence, deep and unbroken.

"Well, then who was George M. Dallas?"

No answer.

"Dear me!" exclaimed the professor, scratching one ear meditatively. "Who was Henry Wilson?"

The members of the class stared blankly at each other.

"Who was William A. Wheeler?"

Not a peep.

"My young friends," said the professor, looking smilingly about him, "let this be a warning to you if you ever enter political life. Each of these gentlemen I have named was at one time vice president of the United States. The class is dismissed!"

AUSTRIA FALLING AWAY.

According to the census taken on January 31, 1920, the republic of Austria, in its present territorial limits, has a population of 6,007,430. Compared with the corresponding figure for 1910 the census of 1920 shows a loss of 227,209, or 3.6 per cent. The city of Vienna alone, with a population of 1,842,005 in 1920, shows a loss of 189,493, or 9.3 per cent.

BE OPTIMISTIC

Here's Good News for Graham Resident!

Have you a pain in the small of the back? Headaches, dizziness, nervous spells? Are you languid, irritable and weak? Annoyed by urinary disorders? Don't despair—profit by Graham experiences.

Graham people know Doan's Kidney Pills—have used them—recommend them.

Here's a Graham resident's statement:
Mrs. J. T. Roach, S. Main St., Graham, says: "I can speak very highly of Doan's Kidney Pills as I certainly think they are a remedy that can be relied on. Doan's have done me a whole lot of good and I am glad to recommend them to anyone who is suffering from weak kidneys."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Roach had. Foster-McBurr Co., Mfgs., Buffalo, N. Y.

RED CROSS ASSISTS DISABLED VETERANS

The American Red Cross is carrying on a wide program of service for the disabled World War veterans receiving treatment in United States Public Health hospitals, and those being trained through agencies of the Federal Board for Vocational Education.

In each of the Public Health Service hospitals Red Cross workers devote their time to the general welfare of the service men from the day they enter the receiving ward until they are discharged. After the soldier's discharge the Red Cross continues its friendly service through the Home Service Section in his own community.

The Red Cross maintains a convalescent house at all of the hospitals, where patients can amuse themselves after they are well enough to be up and around. Parties and picture shows in the wards are also furnished, with occasional excursions when convalescence comes.

Great service has been rendered by the Red Cross in mental cases in identifying those who have appeared in state hospitals for the insane, and helping them secure compensation due from the Bureau of War Risk Insurance.

In the Federal Board's various district offices the Red Cross worker, acting with the Home Service Section, makes necessary loans to the men, arranges suitable living conditions, helps collect evidence and supply facts to the Board, assists in "appealing cases" and settles various personal difficulties for the men. The workers also follow up and aid all men who discontinue training.

The Red Cross agents find men "lost" to the Board, help clear up delayed cases and aid the college counselors in their friendly work with the men.

Many Red Cross chapters have set up recreation facilities, and in some instances living clubs, so these victims of war may have attractive surroundings and the fun which must go with effective school work.

To the American Red Cross Institute for the Blind near Baltimore, Md., more than half of all the Americans blinded in the World War have come for training. The Institute, through the Red Cross, long ago conducted an exhaustive industrial survey to determine the vocations for which blind men could be fitted. As a result it is putting forth well trained men equipped to meet the social, civic and economic requirements of their respective communities.

BIG PROFIT IN MILK AND BUTTER

Small Investment Brings Big Return. Mr. Weaver's Plan is Simple.

"I bought a package of Dr. LeGear's Stock Powders from my local dealer and after feeding it to my Jersey Cow, she increased from 6 quarts to 12 quarts of milk per day, and after continuing the Powders for 30 days longer, she increased in butter fat from 5 pounds to 10 pounds per week, and at the end of 5 months, she was making 12 pounds of butter fat per week."

—L. B. Weaver, Grand Rapids Mich.

Mr. Weaver followed the advice of Dr. LeGear, Graduate Veterinary Surgeon of 27 years experience, and is money ahead. Here is the Doctor's offer to you: Get a package of Dr. LeGear's Stock Powders from your dealer; feed it to your horses, milk cows, steers, hogs and sheep as per direction and after a thorough trial, if results are not satisfactory, just return the empty carton to your dealer and your money will be cheerfully refunded.—Dr. L. B. LeGear, Med. Co., St. Louis, Mo.

NOTICE!

E. E. Turner, or any other person claiming title to one five-passenger Columbia Touring Car seized by A. W. Moser, Chief of Police of Graham, N. C., while being used by said Turner in the transportation of liquor, will come forward and institute the proper proceeding to secure possession of said property and will surrender himself to the undersigned Sheriff to the end that the question of whether said property was used for the illegal transportation of whiskey may be tried. He will further take notice that if he fails to come forward and surrender himself and make said claim on or before the 15th day of November, 1920, said Columbia automobile will be sold as provided by law.

This 14th day of Oct., 1920.

C. D. STURY, Sheriff.
