

### UNIVERSITY WOMEN OUTRANK THE MEN.

#### The Athletes Average Higher Than Whole Group in College.

Cor. of The Gleaner.  
Chapel Hill, N. C., Dec. 14.—The old question, "Do college athletes study?" is answered with a loud "Yes" in the annual report of Dr. T. J. Wilson Jr., registrar at the University of North Carolina. Dr. Wilson goes back to the scholastic records of all varsity athletes of last year, averages the grades that they made during the year, and the result shows that the record of the athletes is a trifle higher than that of the average undergraduate. It does not rank up with such groups as the debaters or the Y. M. C. A. leaders or with the honorary scholarship societies, but is higher than the general average of all undergraduate work.

Put in exact figures the record of the varsity athletes was just under 80 per cent and the average of the whole group of men in the college was a little lower, about 78 per cent. Indications are that the athletic scholastic requirement which prevents students from taking part in any intercollegiate contest unless they keep up with their work helped raise the record.

The 41 women in the university last year ranked much higher than the athletes and are much higher than the average run of men students. Their grades average about 86 per cent, which is pretty good proof of the earnestness with which they drive into their work. Of all groups in the university, Tau Kappa Alpha, a debating fraternity composed of intercollegiate debaters and winners of oratorical contests, made the highest record, with the members of Sigma Upsilon, a literary group second, and Phi Beta Kappa, the national scholarship fraternity third.

One distinct feature of Dr. Wilson's report is the continued rise of interest in French and Spanish, which seems to be displacing Latin and Greek more and more every year. More students are registered in the romance languages, French and Spanish, than in any other department in the university, a total of 650, higher even than the English department with 614. Twenty-three students are taking Greek and 27 are studying Latin as against 277 in Latin in 1916. The winter and spring quarters will probably show a slight increase in students taking Latin, but even so it seems certain that each year is seeing a steady falling off in students of the ancient languages and an increase in modern languages.

Increases in nearly all the professional schools are noted in the registrar's report. Medicine with 71 students, pharmacy with 65, and the graduate school with 58 show a larger registration than at any time in the past 5 years, and law with 139 is higher than any year except last year. There are 105 seniors in college, 165 juniors, 270 sophomores, and 391 freshmen. A group of special students number 183, composed mostly of students preparing for the medical school.

### Col. John N. Staples Dead.

On Monday, Dec. 13th, Col. John N. Staples died at his home in Greensboro, aged 74 years, after being in poor health for the past three years.

He had been a resident of Greensboro ever since he was a small child, his parents moving there from Patrick county, Va. He served with distinction in the Confederate army during the civil war, returning to Greensboro at the close of the struggle and engaging in the practice of law. He was regarded as one of the best lawyers in the State. He gave up the practice of law several years ago on account of ill health.

In addition to his wife, who was Miss May Appleton of St. Louis, before her marriage, he leaves three sons, Appleton H. Staples, now in China; John N. Staples, Jr., of Boston, Mass.; Ulton Staples of New York; one daughter, Mrs. W. B. Tallman of New York, and a sister, Mrs. W. W. Fuller of New York.

When in the prime of life Col. Staples attended the courts in Alamance, and being a fine speaker his services were in much demand in campaign years.

### Colonel Harvey.

### The Philadelphia Record.

According to a dispatch from Mariop, Ohio, Colonel George Harvey is on the job again. Previous to the election his blasphemous cartoon making ridicule of the doctrine of the immaculate conception made it necessary for him to retire temporarily from Republican campaign activities, but now that the crisis is past he reappears as one of the President-elect's closest and dearest advisers. His present visit is expected to last several days. The spectacle of this renegade Democrat dictating Republican policies and appointments helps one to make a fairly accurate estimate of what the coming Administration is likely to be.

### Catarrh Cannot Be Cured

with Local Applications, as they cannot reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions and in order to cure it you must take an internal remedy. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surface of the system. Hall's Catarrh Medicine was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Medicine is what produces such wonderful results in catarrhal conditions. Send for testimonials, free.

### "WELL, OLD MAN, HOW ARE YOU?"

If Your Blood Is Rich and Red You Say, "Fine."

### ENTHUSIASM IS RED-BLOODED

Try Pepto-Mangan if You Feel Weak and Look Pale

Sometimes you are almost down and out. You know you are not really sick, but you have a petered-out feeling. You eat little. You drag along. In the morning you look at your face in the mirror. You feel years older when you see how pale and haggard you are.

It is your blood. It needs red corpuscles. Instead of poking along half sick, why don't you try taking Pepto-Mangan, the blood tonic? It has just the ingredients weak blood needs. With red blood your energy and enthusiasm return. You eat better. You tackle work and achieve.

Pepto-Mangan is widely and heartily endorsed by physicians. It is effective and easy to take. It is sold in both liquid and tablet form. The medicinal properties are identical.

Sold at any drug store. But be sure to get the genuine Pepto-Mangan—"Gude's." Ask for it by the name and be sure the full name, "Gude's Pepto-Mangan," is on the package.—Adv.

### COMMUNITY CHRISTMAS TREE!

Last week announcement was made that Graham would give a Community Christmas Tree.

Committees on arrangement, music, decoration, advertising, etc., have been appointed and all are busy with their parts to make it a big success.

Everyone is requested to contribute something—money, articles of food, toys, etc.

All money will be sent to help the destitute in war-stricken Europe. The food that will not keep will be sent at once to any needy ones in the community, as well as the toys. And any foodstuff that will save will be turned over to Graham Red Cross Chapter to be used as necessity may require.

Let everyone get busy and have a part in making a big success of it.

The tree will be given on the night before Christmas.

### RECORD CORN CROP.

### Chatham Farmer Averages 98.4 Bushels to Acre—How He Did It.

### Pittsboro Record.

What we believe to be a record for the State and certainly for the county is the raising of 393.6 bushels of corn on four acres by Charles H. Lutterloh of the Gun Springs section four miles north-west of Pittsboro. This crop of corn averaged 98.4 bushels to the acre.

It is most gratifying and encouraging for those of us who are particularly interested in introducing into our county better and more progressive farm practices to tell our farmers of the achievement of one of our live, wide-awake, progressive farmers. It is also our pleasure to say that this record was made under such conditions as to permit any farmer in the county to do equally as well if not better.

Some of the principles employed were: Growing clover; deep fall plowing; selection of good corn; dividing fertilizer into three applications, one used at planting and two additional ones during the growing season; using a fertilizer in proper quantity and that had the plant food elements required by the particular type of soil; and shallow, thorough cultivation.

County Agent H. M. Kinsey, speaking of this record corn crop, says that Mr. Lutterloh, although proud of his record, is not at all selfish and invites competition for the incoming year. He is in a position to furnish seed corn to anyone who wishes to beat him or improve his corn field. Of course this high yielding record sounds good, but let's make it better for the county next year by breaking the one for this year in several places.

### DON'T WAIT

Take Advantage of A Burlington Citizen's Experience.

When the back begins to ache, Don't wait until backache becomes chronic. Till kidney troubles develop. Till urinary troubles destroy night's rest.

Profit by a Burlington citizen's experience.

W. A. Loy, Davis street, Burlington, N. C. gave the following endorsement in January, 1915:

"I have taken Doan's Kidney Pills off and on for the past two years and have always found them very good for backache. I never wait until I am down with kidney trouble; as soon as I notice my kidneys are not acting as they should, I take a dose of Doan's Kidney Pills. They always fix me up in good shape."

On July 10, 1916, Mr. Loy said: "Doan's Kidney Pills have given me a permanent cure. I still speak highly in praise of them. I am not troubled any more with my kidneys."

### Business of Hog to Produce Pork.

Outside the yards of regular breeders, the business of the purebred hog is production and it is poor practice to sell young pigs, according to W. W. Shay, speaking before the State Swine Breeders' Association at the Salisbury meeting.

"The idea that young purebred pigs can be raised profitably is widespread, and is holding back pork production in this State. It results in lack of home-grown feeds, little or no attention to grazing crops and consequent impossibility of economical production.

"Under these conditions," continued Mr. Shay, "owing to the lack of demand for pigs, the farmer finds himself with litters which he is not prepared to raise and cannot sell. He buys feed in sacks at exorbitant prices, limits it because of expense, and raises a lot of undersized or runty pigs, which, though purebred, are not fit for foundation stock, and have cost him more than they will bring over the scales.

"If he had never thought of selling them as pigs, and never devoted just a little study to economical pork production, he would have provided good grazing crops, fed them liberally with concentrates, and sold them in a co-operative car load shipment at a profit."
