# AGAINST CALOMEL

Mr. Dodson, the "Liver Tone" Man, Responsible for Change For the Better.

Every druggist in town has no-ticed a great falling off in the sale of calomel. They all give the same reason, Dodson's Liver Tone

is taking its place.

"Calomel is dangerous and people know it." Dodson's Liver Tone is personally guaranteed of every druggist who sells it. A large of the doesn't cost very much but if it fails to give easy relief in every case of liver sluggishness and constipation, just ask for your manager back.

Dodson's Liver Tone is a pleas ant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at hight and wake up feeling fine: no biliousness, sick headache, ac d s'on ach or constipated bowels. It down not gripe or cause moonvenene all the next day like violent calcarel. the next day like violent calonel Take a dose of calonel to day and tomerrow you will feel west, and nauseated. Don't lose a day, meaning of C. O. D.

Below is the report of Dr. W. R. Goley, County Health and Quarantine Officer, covering the year 1920. In making his report he said:

I herewith submit a summary of the report of my work for the year ending December 31, 1920. The COTTON ASSOCIATION URGING following report shows a good many more families quarantined than the report for the previous year. This, however, is not due to the fact that there has been more sickness this year, but due to the more leyal cooperation of the physicians and citizens in reporting quarantinable diswish to take this opportunity to thank the physiciaus who have given me their loyal and cordial upport in this health work.

ACREAGE REDUCTION AND SUP-PORT OF AMERICAN PRODUCTS EXPORT AND IMPORT CORPORA

Raleigh.-Reduction of acreage and support of the export corporation are the two principal measures urged by the North Carolina branch of the American Cotton Association to better existing conditions. To enable the export corporation to function properly, the people of North Carolina have been asked to subscribe to a quota of 60 \$1.50 worth of stock for each bale produced and from the way in which the corporation's office in the State Agricultural Building at Raleigh is receiving subscriptions there is every reason to believe that the quota will be subscribed.

Indication of State-wide confidence in the export corporation was recently given in the senate, where Senator Joe Brown, of Pender, made a ringing speech. He introduced a bill to have the State of North Carolina subscribe to \$1,000,000 of the export corpora-tion's stock. To meet the payment Senator Brown urges the State to issue four per cent bonds.

Richard I. Manning, former governor of South Carolina, who heads the American Products Export and Import Corporation, has been in this State for the past two weeks speaking in the interests of the organization. Everywhere he has been he has met with a cordial reception. The meeting in Charlotte recently, under the auspices of the county cotton association was productive of about \$20,000 in subscriptions.

Governor Manning spoke before the upon any part of the grounds of the lina Cotton Manufacturers' Association in Raleigh Tuesday and explain ed the purpose of the export company at length. Following his address the unanimously endorsing the movement and commending the purchase of stock in the export corporation to the various mills of North Carolina.

W. Canks Dove, Secretary of State of South Carolina; L S. Tomlinson of Wilson, president of the American Cotton Association; Senator Joe Brown and A. W. McSwain, secretary of the Cotton Association are some of the prominent men who have spoken throughout the State during the past week in behalf of the export concern. They have all stressed the fact that the export movement is a self-preservation movement as well as an opportunity for a good investment.

"There is not a doubt in my mind." said Mr. Dove the other day, speaking of the American Products Export and Import Corporation, "but that this organization will do muca to stabilize the cotton market. One important thing in any concern of this kind, is the management. The export corpora tion is particularly well off in this regard with Governor Manning as its president and Joseph Walker, one of the best known cotton men of the Schools of the town of Graham Each South, as its general manager. The corporation is already doing business and with increased facilities, made possible by additional stock subscrip-Any person violating the provisions of this ordinance shall be fined conditions and make for permanent prosperity in the South

There are two phases of the stock plan that has been instituted by the corporation. All stockholders are to be entitled to eight per cent cumulative dividends when earned and after deducting this from the total amount of net profit realized during any one year, one-half of the remaining profits are to be set aside as "patronage" dividends. These patronage dividends corporation, pro rata to the amount of business furnished. The remain ing ha'f of the net profits in excess of eight per cent will be credited to the stockholders. It has been announced that North

Carolina will be given full representation on the Board of Directors of the The corporation is in no sense confined to any one State but is a South-wide movement, destined to benefit the entire South Public-spirited citizens are at work in every Southern State to raise their One shipment of cotton to Europe has been made and many more will follow in quick order.

The export corporation idea, fosciation, was originally suggested by G. Harding of the Federal Reserve Board, who is an enthusiastic supporter of the movement.
W.G. McAdeo, former Secretary of

the Treasury, has volunteered his services free of charge to the corpora-tion. From all sides come strong en-dorsement of the work.

The North Carolina campaign for stock subscriptions is now well under Through the courtesy of the Carolina Press Association, way. which has endorsed the organization and its purposes, the details of the corporation's program are being presented in the various papers of the State and public meetings are being held in every cotton growing county,

#### LEADS IN MINERAL WEALTH

United States Easily First in Metals of Greatest Importance to the World's Industries.

This country of ours possesses more mineral wealth than any other nation, though Great Britain (including what she controls) is a close second.
We lead the world with 37 per cent

of all the iron and 35 per cent of all the coal. These, of course, are most important. We own or control 72 per cent of all the petroleum. Copper is the great American metal.

We produce 69 per cent of the entire world's yield of that invaluable sub-Of lead we produce 49 per cent and of zinc 32 per cent. England is away ahead of us where

gold is concerned. We produce only 23 per cent of this precious stuff, whereas Great Britain's output amounts to 63 per cent. On the other hand, we claim 52 per

cent of the silver—the Mexican out-put being under our commercial control-and it is actually in the power of our government to make the market price of the white metal whatever Uncle Sam chooses.

Of the world's sulphur we produce 65 per cent. But we have no tin worth mentioning (a serious misfor-tune) and little potash. Now, however, the potash supply is no longer controlled by Germany, territory recently relinquished to France contain ing a large part of the deposits of that mineral salt .- Philadelphia Ledger

#### FIRST LOVE STILL LINGERS

John Burroughs Has Vivid Recolled tions of the Little Maid Who Won His Heart,

John Burroughs' recollections of his Arst sweetheart are as fresh and rose tinted as the cheeks of the little lady as she ran down the hill to play with her ardent young admirer of "Uncle John tells about her in "John Burroughs, Boy and Man," the semiautobiography which is written by his friend, Dr. Clara Barrus,

"I can see her now, as she came running down the hill from the schoolhouse, the cape of her little pink sunbonnet fluttering in the breeze," said Mr. Burroughs as he pointed out the course she took down the road to her

home. "I must have been between five and six years old. I had gone over to neighbor Bartram's in the West settlement with father on a stoneboat drawn by the oxen. Father probably went there to help him draw stones for a new piece of wall-they used to ex-

change work in that way.
"I can hear her father's voice as he sent it over the hills to the schoolhouse he had a prodigious voice-'Eleanor, come home.' And soon she came flying down the road to play with

"We played by the barn on a little mound of hay. I remember we made a nest there-I can see her now as she took a wisp of hay and pinched it to gether, making believe it was an egg, and that she was a hen-I can see the sharp angles of the shining hay as she tried to shape it like an egg before she covered it in the nest.'

#### RECALL FATE OF FRANKLIN

Interesting Relics Recently Brought to Vancouver From the Land

After being in the possession of the thrifty natives of King William's land for three-quarters of a century, a large number of interesting relics of expedition have been brought from frozen north by Joe Benard, who is here after a four years' stay along the northernmost coast of the North American continent, says a Vancouver

Though priceless from a collector's point of view, the utilitarian value of the relics is negligible, and they were obtained by Benard for a piece of lumber worth possibly 20 cents on the

A few brass buttons among the relics are believed to have belonged to the distinguished leader, though there is as yet no positive proof of this.

Benard also obtained a number of primitive scientific instruments used by the northern tribes. These will be sold to various museums and universities for which the explorer has been collecting ethnological specimens and data since 1910. He also brought a

coffection of furs worth approximate

Sir John Franklin, with 154 companions, sailed into the Arctic in 1845 to find the northwest passage, and was never heard of again. After many relief expeditions had failed, his fate was ascertained in 1859, when bleached skeletons were found on the trail to Telephones: Office 446-Residence 264

#### The Middle Initial. With the exception of William H.

Taft, Senator Harding is the first President since Rutherford B. Hayes, to use more than one Christian name. Grover Cleveland, William McKinley, Theodore Roosevelt and Woodrow Wilson (who dropped his first name Thomas, early in the career) got along without middle names or initials. The middle initial, incidentally, is almost exclusively an American characteristic. An Englishman may call himself John James Smith, but practically never John J. Smith. A Frenchman may be baptised Auguste Charles Jesus Marie Georges Dupont, but he will be known to the world as Georges Dupont, and probably will sign himself

G. Dupont. The use of more than one given name is puzzling to a Frenchman. When Senator Lodge is mentioned in the French press, he is never "M. Lodge," but "M. Cabot Lodge," or as one prominent Paris daily writes it,
"M. Cabot-Lodge." The President-Elect may look forward to be known on the continent as "President Gamaliel Harding."--Editorial Digest.

#### Bokhara in Hands of Reds?

Nominally the government of Bokhara is in the hands of the amir, who is an absolute autocrat, but actually power is largely exercised by the Mo hammedan clergy. The houses in the capital are closely packed together and everyone must be indoors by dusk. At night the streets are paraded by police patrols, who beat drums to scare away thieves and robbers. The city is surrounded by a ruined but still strong wall about 7½ miles in circumference. It is now reported that Bokhara has been captured by the

#### Old Fort Still Useful.

Less than half a century ago almost every American community west of the Mississippi was protected against Indian raids by a fort or stockade. Most of these structures have now fallen into dust, says Popular Mechanics Magazine. In southern Utah, however, is a stone structure. known as "Cove Port," which built in 1867, at the time of the Blackhawk-Mormon war, yet is today in a state of perfect preservation. It now used, in fact, as a ranch house and hotel.

Remarkable Photographic Feat. Conspicuous among a number of re-

markable scenes in a three-reel mo tion-picture film recently taken of an steel mill in operation, is one that actually shows the boiling of molten metal in an open-hearth nace heated to 3,000 degrees Fahren-The photographic feat of successfully registering this action in detail on the film is particularly interesting, because the subject is one that a human eye can not gaze upon unprotected, says Popular Mechanics Magazine. Furthermore, the extreme heat of the furnace cast some doubt on the safety of the camera, with its charge of celluloid ribbon, and while the exposure was made, two men stood ready to hurl the operator to a cooler place if anything happened.

from the United States and potato flour of domestic make has been or- defendant had a wife living at the dered by the Netherlands government for its people with the hope of keeping down the price of bread. Unless something is done to keep down the price of imported wheat'it will soon be out of the reach of the populace, says the Chicago Journal. Potato starch was used a great deal during the war for the purpose of piecing out the wheat flour supply, and it was not generally acceptable to the people, but potato flour will not be open to the same criticism, and it is anticipated will ove more palatable.
