Gen. Wingate could not tell the living voice from its RE-CREATION by the NEW EDISON

If you are thinking phonograph for Christmas, give serious thought to General Wingate's letter.

It suggests, doesn't it, that Mr. Edison has made his phonograph a new kind of instrument,—something infinitely finer and more desirable than the ordinary phonograph or talking-machine.

The New Edison has created the new standards by which people judge phonographs and talking-machines today.

To discover those new standards, you must

Hear the marvelous NEW EDISON

You will discover a phonograph that actually gives all the beauties of the original music. You will find an instrumentality that actually brings all the power of the original music to soothe, refresh, and encourage mind and body.

These wonderful results are possible, because the New Edison RE-CREATES music so perfectly that RE-CREATED performance can not be told from original performance. The New Edison is the only phonograph which sustains this test,—the test of direct comparison. This fact alone sets the New Edison apart.

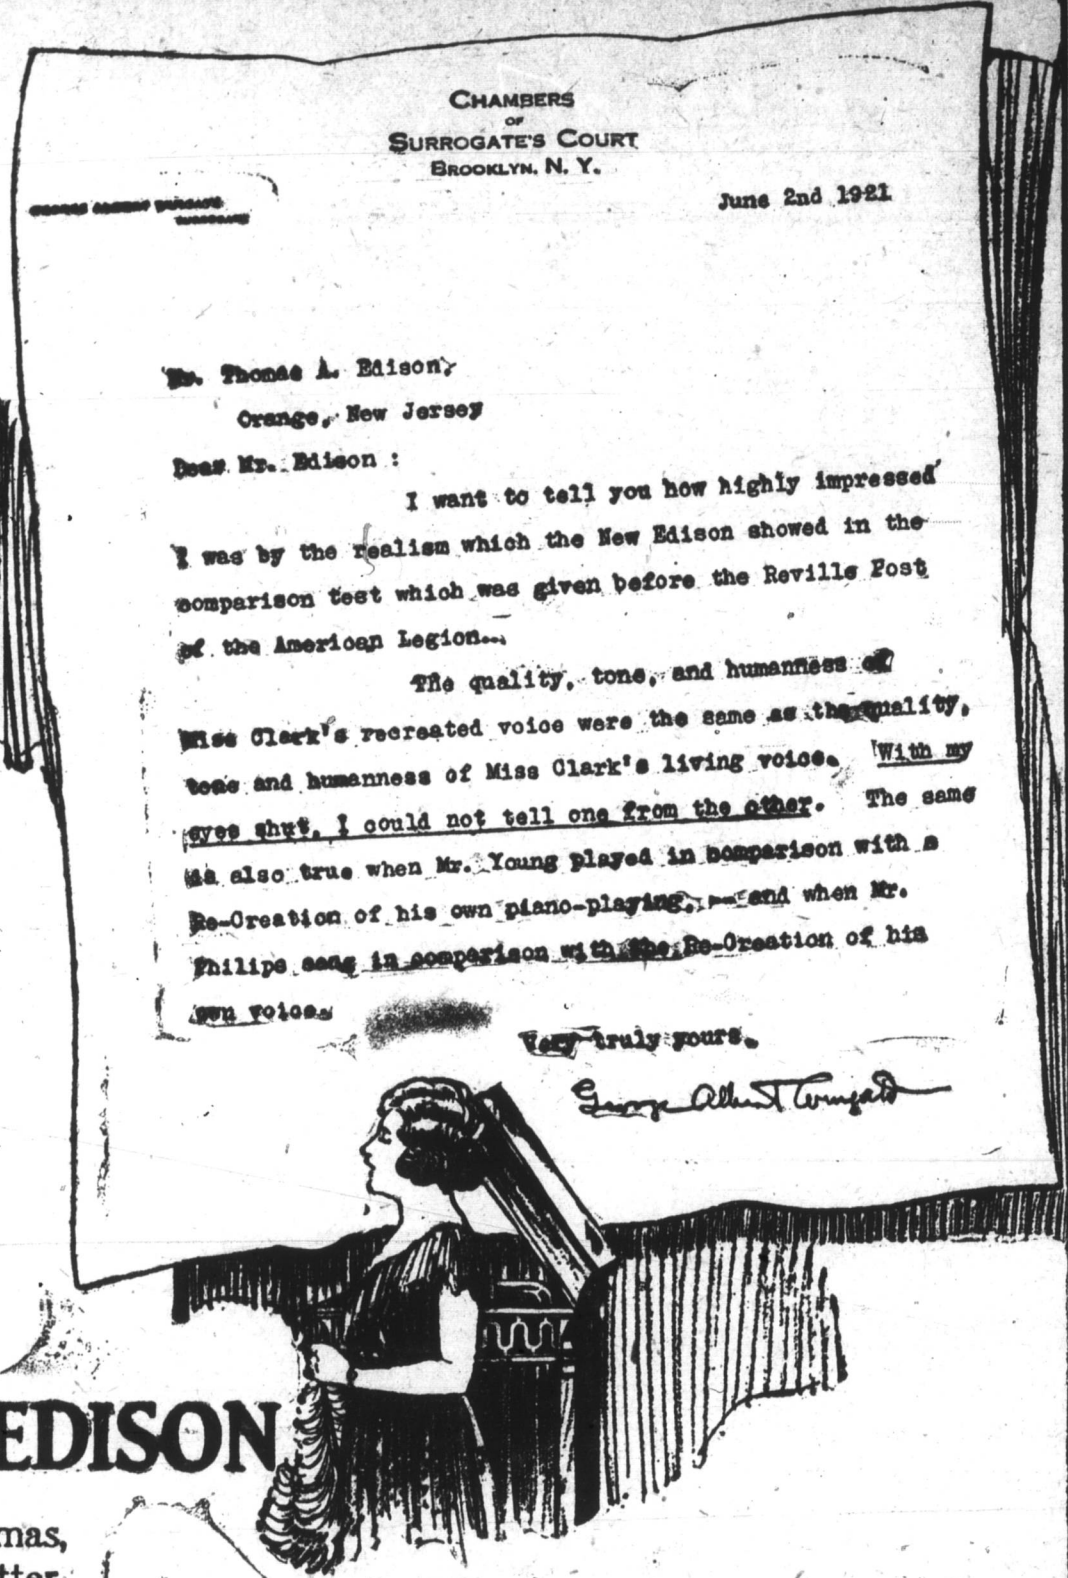

Christmas Concerts

We are now giving special Christmas concerts, to help Christmas shoppers make comparisons, and to reveal to them the new home-music which the New Edison brings. You are cordially invited. Come any time.

The test General Wingate heard

IN the insert is General Wingate, who commanded the 52nd Field Artillery during the war. The audience, of which he was a part, heard Miss Helen Clark sing in comparison with the RE-CREATION of her voice by the New Edison on May 25th, 1921, in the 2nd Field Artillery Armory, Brooklyn.

Gen. Wingate wrote Mr. Edison, "With my eyes shut, I could not tell one from the other."

Do not think the remarkable New Edison is beyond you. It isn't.
