

THE GLEANER

GRAHAM, N. C., April 9, 1925.

Postoffice Hours.

Office open 7.00 a. m. to 7.00 p. m. Sunday 9.00 to 11.00 a. m. and 4.00 to 6.00 p. m. J. R. GUTHRIE, Postmaster.

LOCAL NEWS.

Next Sunday is Easter Sunday. The County Commissioners met in regular monthly session Monday.

Prof. Lee Cooper, Supt. Wilson School, Resigns; Goes to Ky.

Prof. Lee Cooper, who has been Supt. of Alexander Wilson High School since its establishment, has resigned his position and left with his family for Kentucky last week. His resignation was tendered some two months ago to become effective April 1st. He goes to Blackey, Ky., to become head of the Stuart Robinson School, under control of the Southern Presbyterian Assembly.

Mr. Cooper has been a successful teacher for a number of years and had reached the position of one of Alamance county's leading educators. He is a young man of sterling qualities and his going away is a real loss to the county's educational interests. He is a graduate of the State University, and he also took for summer courses in Agriculture at the State College. Mr. Cooper is a son of Mr. and Mrs. W. L. Cooper of Graham.

Sale of Good Farm Machinery.

An equipment of excellent up-to-date farm machinery will be sold at auction on Saturday, 18th inst., at 2 o'clock, on the farm of Mr. W. L. Cooper two and a half miles southeast of Graham. Mr. Cooper has discontinued his farm operations and is going to sell his farm machinery. It is modern and will do as good work as new. This is an opportunity to get some good implements at a big saving.

How to Transplant Successfully.

Checking the growth of vegetables by careless methods of transplanting means a poor growth and yield.

Glenn O. Randall, extension horticulturist for the State College of Agriculture, gives four important points to keep in mind when moving the young vegetable seedlings from the plant bed to the open garden or field. He states, first, that the gardener must not disturb the roots any more than is possible; second, the seedbed should be soaked shortly before the plants are moved; third, the soil should be thoroughly prepared to receive the little plants, and, fourth, delicate plants should be hardened off before planted to the open field.

"In order not to disturb the roots, the gardener should take up a good ball of earth with each plant as this will prevent breaking of the rootlets," says Mr. Randall. "Wetting the seedbed before removing the plants will allow them to withstand the loss of moisture in the field. If roots are prevented by a lumpy or poorly prepared soil from taking hold and adjusting themselves as rapidly as they should, the plants will grow off slowly. It is often impossible to firm the soil around the plants because of poor soil preparation."

"Hardening the plants to be transferred from a hot bed or cold frame is the process of gradually exposing the young plants to the weather. This is done by first ventilating the bed for a few hours during the warmer part of the day and then gradually removing the cover entirely. This helps the plants to withstand the cool weather and also helps them to withstand the hot weather when finally transplanted."

Mr. Randall states that the observance of these simple precautions will aid the gardener to be more successful with his work and will result in his securing better and more vigorous growth as well as better yields.

War has been declared on the scrub bull in N. C. Nine county agents have already begun a campaign to eradicate this pest and other agents are expected to begin similar campaigns shortly, states John A. Arey, dairy extension specialist.

The cost of producing milk may be reduced by using pastures. The feed cost is generally the biggest expense item in producing milk.

SUBSCRIBE FOR THE GLEANER.

PERSON.

Mr. Geo. R. Ross and family of Jackson Springs spent the week-end here with Mrs. Ross' parents, Dr. and Mrs. W. K. Goley.

Mr. Frank Hunsucker of High Point spent Sunday here and Mrs. Hunsucker and little son, who had spent the preceding week here, returned home with him.

Two Approaching Marriages of Interest to Graham People.

Friends here of Charles E. Menefee, son of Mrs. Emma V. Menefee and the late Mr. J. W. Menefee, have received the following announcement of his approaching marriage:

Dr. and Mrs. Edward Frost Parker request the honor of your presence at the marriage of their daughter Miss Frances Ravenel Prioleau

to Mr. Charles Edwin Menefee on Tuesday evening, twenty-first of April at eight o'clock at Saint Michael's Church Charleston, South Carolina

Mr. Menefee grew to young manhood here and made friends of all with whom he came in contact. His good business ability has won for him a responsible position with a large cotton mill at Charleston, S. C.

A large number of relatives in Alamance and elsewhere will be interested in the following announcement:

Mr. and Mrs. Seth Edward Everett request the honor of your presence at the marriage of their daughter Lillian

to Mr. Edward Franklin Blake on Saturday evening, April twenty-fifth at eight o'clock Saint Paul's Protestant Episcopal Church Suffolk, Virginia

Miss Everett is a daughter of the eldest daughter, Miss Julia, of the late Col. Jacob A. Long and of Mrs. Long, whose home was in Graham at the time of her marriage to Mr. Everett.

Harvest Your Soybean Seed.

The price on soy bean has been steadily getting higher each year. We can grow from 10 to 18 bushels of seed per acre on our lands which yield compares favorably with that of wheat.

There is a soy bean harvester on the market which works satisfactorily when beans are planted in rows. George Bason of Sweapenville saved his own seed last year and was well pleased with the quality and ease in harvesting them.

We buy annually about 4000 bushels of seed each year from the eastern part of this state. There is no reason why we can't save our own seed and save money by so doing. If interested in saving seed, talk it over with Mr. Bason and get his experience.

W. Kerr Scott, Co. Agent.

Use a sandbox to see if the cotton seed will germinate well.

IS YOUR WORK HARD?

Many Graham Folks Have Found How To Make Work Easier.

What is so hard as a day's work with an aching back? Or sharp stabs of pain at every sudden twist or turn? There is no peace from that dull ache.

No rest from the soreness, lameness and weakness.

Many folks have found relief through Doan's Pills. They are a stimulant diuretic to the kidneys.

Graham people recommend Doan's.

Mrs. C. B. Moore, Melville St., Graham, says: "My kidneys were out of order and my back was so bad it was a big job to do my housework. I had a continuous, dull backache and also headaches and weak spells. My kidneys acted too frequently. I bought Doan's Pills at the Farrell-Hayes Drug Co., and after I had used two boxes, the backache was gone and my kidneys were not giving me any trouble."

WHAT DOES MODERN GIRL REALLY WANT?

Question One of Them Finds Hard to Answer.

When you analyze the question of what modern girls really want, it is necessary to disabuse the mind of the delightfully vague, magazine-cover, tennis-playing, matinee-going creature as a true conception of the modern girl.

In a general way, the modern girl belongs to two recognized social classes—the middle classes—and how many subdivisions are here!—and the class which is generally known as the "upper."

In the middle class you will find that the vaguest and most doubtful feminine member of the family has been taught the art of shorthand and typewriting, in the firm conviction that sooner or later she will become an "invaluable asset to the firm" and find romance in the course of her work. What she wants is either to be taught to spell and write her own language, or to clear the course for the professional girl, "A Most Modern Girl" writes in the Washington Post.

In the next social subsection there is the girl who works spasmodically—in every sense of the word—and whose family seems to spend its time imploring her to "give it up" and "stay at home and help mother." Whether she realizes it or not, the only possible solution of her problem is matrimony, with a strong accent on the last syllable in view of her general inability to cope with anything for long.

Then there is the real professional girl, by which is meant the girl who works because she must, and who works thoroughly because she enjoys it, and because she means to get there. What does she want? Certainly she smokes too much; she "gads about" too much; spends too much, flirts too much. But why not? Here is the doubtful privilege of being an important man's right hand for years, and of receiving the "back" when he dies. The humiliating classification of "surplus" is applied to those of her number who are not fortunate enough to find a man to marry them. . . . She does not know what she wants—so she eats, works and is merry.

The daughters of the super-tax payers present a still more difficult problem. All of them dance, some dope, some get married and unmarried with amazing facility; many have no family life. . . . But they all have a want. It seems strange with unlimited money and pleasure this should be so. Perhaps what they want is work!

Analysis is the dangerous fashion of the age, and self-analysis the most vicious form at that. Calm introspection at times may be good for the soul, but not that continual probing for what is wanted.

Perhaps, after all, what the modern girl wants is not to be reminded that she wants anything.

Foiled Customs Officers

The customs cordon between northern and southern Ireland is, of course, a great nuisance to people whose market town lies across the border, and the indignation of those making acquaintance with the law's vagaries for the first time sometimes leads to amusing incidents. The other day a market woman was taking home in her basket a good, school "family" cake. On finding that the duty would amount to as much as the price of the cake itself, she declined to pay. "Refuse ye may," said the official, laying hands on the not uninviting looking confection, "but we confiscate the cake." "That ye'll not," said she, and snatching the cake out of his hands she retired across the border and, regardless of possible future consequences, proceeded under the eyes of the disappointed official to consume it to the last crumb.

Unsinkable Ships.

An engineer named Liebetrau, in the Austrian province of Faralberg, claims to have invented an apparatus which can be installed in ships to make them unsinkable.

The invention consists of a device whereby the water which has entered through a leak is forced back again and the ship's buoyancy maintained. Experiments with a 12-foot boat were carried out on Lake Boden. The boat in which the apparatus was installed was loaded with 600 pounds of stone and then sunk in 60 feet of water by opening a valve. The boat later rose to the surface, and remained floating.

The engineer states that his invention can be installed in liners and controlled from the bridge.

Beauty Clay

So-called beauty clays are not composed of real clay. Most of the beauty clays on the market consist of fuller's earth with some tincture of benzoin. Fuller's earth is a soft earthy material resembling clay but not plastic. It occurs in nature as an impure hydrous aluminum silicate. Fuller's earth is also widely used to remove stains from such substances as cloth, wool and wallpaper. It is also used as a filter to clarify oils.—Exchange.

Methodists Increasing

In the United States there are 4,711,994 persons who have established active relations with the Methodist church through membership, this figure showing an increase of 51,459 during 1924. This gain takes into consideration the withdrawals through death, removals or transfers to other churches of about 85,000. There are about 28,000 members in foreign areas.

WHY Winter Is Welcomed in the Arctic Circle

On the Arctic circle, winter is a season of awakening and its coming is as welcome as that of spring.

The land is largely swamp over which hover clouds of mosquitoes so dense that they often look like black smoke. They render life a burden. Smoke "smudges" have to be burned at your door or anywhere out-of-doors where your work necessitates keeping pretty still for a time. You eat your luncheon in a stream of smoke from the little fire to windward specially lit for the purpose.

Only in sunshine and a strong breeze are you ever able to move without your attendant swarm. Everyone but the natives with the toughest skin wears a bag of muslin over the head and neck. But when winter comes the plague of mosquitoes goes.

Over most of the northland travel is practically impossible in summer. There are no roads of course, and the few narrow forest trails are boggy or blocked by fallen trees brought down by the winter storms. Swampy wastes of tundra separate one settlement from another. Navigation along the Arctic coast is a hazardous proceeding, and there is scant room for much beside yourself in the small skin canoes that constitute almost the only vessels available.

But welcome winter turns the earth from soup to iron and lays over it a soft clean carpet. Reindeer and dog-sledge takes you skimming merrily up frozen rivers where, canoeing in summer, you had to fight your way inch by inch against the strong current.

Why Brevity Is Great Part of Salesmanship

Many a public speaker or private salesman who begs for just five minutes in which to present his case takes more than the time allotted. That is why true brevity is so greatly appreciated when it appears.

A famous Canadian who was among the first to see the need for the Welland canal and who took a leading part in raising money for the project, went to London to enlist interest and influence of the London Times. But the editor was always "too busy just now" to hear his plan. Finally he gained an audience by promising to put the whole case for the canal in five minutes. He did better. This is the way he did it:

He spread out on the desk a pocket map and said: "Here is Lake Erie, here are the Falls of Niagara, this is Lake Ontario, the St. Lawrence and the Atlantic, and here is the route of the great Welland canal." Then he folded the map and ended the interview.

From that moment the powerful Times was on the side of the Welland project. That is a story that might well be given an important position in any text on salesmanship or forceful speaking. It even has its application in communication on less important matters between private individuals.—Tacoma News-Tribune.

Why Moses Had "Horns"

No doubt those who have seen any of the early statues of Moses have wondered how he came to have short horns protruding from each side of his forehead. This error was recently explained by Lorado Taft, noted sculptor. The horns, he says, were due to the improper translation of the word "glory" by sculptors of the early periods. The Hebrew word for glory also meant "horn," and in translating it into Greek the word horn was used instead of glory. Thus in the great statue of Moses by Michelangelo, the former is equipped with horns. The original of the horned statue, says Taft, was of heroic size, in marble and was designed for the tomb of Julius II. But the tomb was never finished and the statue is now in the church of San Pietro, in Vincola, Rome.—Pathfinder Magazine.

Why Some Couples Agree

Newly married couples always decide to be tenderly considerate one to another, but as their rival selfishness immediately begins to create friction, the husband, with his usual courtesy and foresight, very soon withdraws from the contest and gracefully leaves his wife to a monopoly of unselfish devotion. That is why so many couples get on splendidly together, and it is a fine tribute to the tact and good management, not to mention foresight, of the husband. The process is usually called give and take.—"Mere Man," by Honor Bright.

Why Called Miniatures

Miniatures were originally the small pictures with which manuscripts were illuminated in the Middle Ages. They received the name, not on account of the minute size, but because they were colored with minimum (Latin, red lead), whence was derived the Italian word miniature. After the invention of printing and engraving, this art entered on a new phase, and the word miniature came to mean, in popular parlance, simply "a very small portrait."—Kansas City Star.

Why Plaster of Paris

Why the quick-setting plaster of Paris carries the Paris designation is due to the fact that the great beds of it were discovered in the vicinity of Paris, where it was first extensively used as a cement. In the raw state great heat is used to drive out moisture and the composition then combines readily with water, quickly passing into a hard state.

Commissioner's Sale of Real Estate

Pursuant to an order of the Superior Court of Alamance County made in a special proceeding therein pending entitled Mary Thiessen and others vs. Zona Parks and others, whereto all the tenants in common of the lands hereinafter described are duly constituted parties, the undersigned will offer for sale to the highest bidder, at public auction at the court house door at Graham, Alamance County, North Carolina, on

SATURDAY, APR. 11, 1925, at 12:00 o'clock, noon, the following described lands, lying and being in the County of Alamance, in the town of Burlington, North Carolina, and described as follows:

A certain tract or parcel of land in Burlington township, Alamance county, and State of North Carolina, adjoining the lands of Alamance county, Geo. Anthony and others, and bounded as follows:-

Beginning at a rock on said county land line on the East side of the Street 20 ft wide, running thence with said Street No. 36 deg. 36' W. 3 chs. 50 lks to a rock on East side of said Street; thence 53 deg 24' E 3 chs 40 lks to a stone; thence S 36 deg 36' E 2 chs 33 1/2 lks to a stone on said County line; thence with said County line S 34 deg 29 1/2 W 3 chs 60 lks to the beginning, containing one acre, more or less.

This sale will be made subject to the confirmation of the Court and will remain open for twenty days for advance bids.

Terms of sale: One-Third cash on day of sale, balance in two equal installments due in six and twelve months from confirmation, deferred payments to bear interest at the rate of six per cent per annum.

This 4th day March, 1925. Wm. I. Ward, Com'r.

Notice!

Notice of Appointment of Registrars and Pollholders for Town Election to be Held May 5th, and Fixing of Polling Places for Said Election.

The following Resolution was passed by the Commissioners of the Town of Graham at a call meeting held in the Town Office March 24th, 1925:

That for the purpose of the new registration of the voters for town election to be held May 5th, 1925, for the election of a Mayor and a Board of Commissioners for the Town of Graham (new registration having been ordered by the Board of Commissioners of said Town at a regular meeting held in the Town Office in February, 1925, and duly published), the Town of Graham is divided in two districts, as follows:

Main Street shall constitute the dividing line, beginning at a point in line of north corporate limits of said town in line with the center of the extension of the street in front of Sidney Cotton Mills, north of Railroad track, and running thence from said point directly across said Railroad tract and with center of said street and thence with Main Street south to intersection of said Main Street with the corporate limits on south side of town.

The voting place for east side of said Town of Graham shall be in the Cook & Paris building, next to Alco Theater, and voting place for west side of said town shall be in the Scott building, now occupied by National Bank of Alamance.

The Registrar and Pollholders for the district east of Main Street are as follows: W. H. Holt, Registrar, and J. D. Albright and A. Lacy Holt, Pollholders and Judges; and the Registrar and Pollholders for district west of Main Street are as follows: T. C. Moon, Registrar, and W. T. Wilson, Pollholders and Judges.

The books will be open for the registration of voters on 5th Saturday before the 5th day of May, 1925, and will close on second Saturday before the 5th day of May, 1925.

Will I. Holt, Clerk.

Trustee's Sale of Real Estate.

Under and by virtue of the power of sale contained in a certain deed of trust executed by the undersigned, Alamance Insurance and Real Estate Company, Trustee, for the purpose of securing certain bonds described in said deed of trust which deed of trust bears date of September 29th, 1919, and the same being duly probated and recorded in the office of the Register of Deeds for Alamance County, North Carolina, in book of Mortgages & Deeds of Trust No. 84, page 19; default having been made in the payment of said bonds and interest on same, the undersigned, Alamance Insurance & Real Estate Company, Trustee, will, on

MONDAY, MAY 4th, 1925

at 12 o'clock, noon, at the court house door of Alamance county, in Graham, N. C., offer for sale at public auction to the highest bidder for cash the following described real estate, to-wit:

A certain tract or parcel of land in Boone Station Township, Alamance county, North Carolina, known as the A. Beale farm and adjoining the lands of John Wagoner, Turner H. Boone, H. A. Johnson, Logan Barnhardt, T. Boone and others, bounded and described as follows:

Beginning at a hickory tree, corner with said Wagoner and Thomas Boone; running thence S. 83 1/2 deg W. 25 chs. to a gum tree on a bank of a creek, corner with said Sharpe and Wagoner; thence S 46 deg W 27 chs. to a rock corner with said Turner H. Boone and Sharpe; thence S 50 deg 35 W (B. S. 50 1/2) 33.40 chs. to a rock, corner with said Turner H. Boone in said Johnson's line; thence S 43 1/2 deg E 17.03 chs to a persimmon tree on the bank of creek; thence S 61 1/2 W 1.50 chs along and across Michael's Creek to a firm rock; thence S 8 W 7.30 chs to a stone; thence S 31 deg E 9.50 chs to a rock; and thence 51 1/2 deg E 10 chs to a post oak tree; thence N 34 1/2 deg W 5.64 chs to a red oak stump; thence N. 45 deg E 11.38 chs to a stone; thence S 44 deg E 3.63 chs to a stone, corner with said Barnhardt; thence N 38 deg E 29.65 chs to a stone, corner with said May; thence S 77 deg E 5.67 chs to a stone, on the side of the branch; thence S 50 deg E 8.50 chs along the side of the branch to a stone, corner with said Barnhardt; thence N 13 deg E 37.37 chs to the beginning, and containing one hundred ninety-three acres (193) more or less.

This sale is made subject to advanced bids as allowed by law and will be held open for ten days after the date of sale for the reception of such bids.

This March 27, A. D. 1925. Alamance Ins. & Real Estate Co. Trustee Dameron & Rhodes, Att'ys.

Sale of Real Estate Under Deed of Trust.

Under and by virtue of the power of sale in a deed of trust duly executed in favor of the undersigned Trustee by W. L. Hanford and wife, Lora Hanford, March 31, 1923, and recorded in the office of the Register of Deeds of Alamance county in Book of Deeds of Trust No. 86, page 89, default having been made in the payment of the indebtedness thereby secured, the undersigned will, on

MONDAY, APRIL 20, 1925

at 12:00 o'clock, noon, at the court house door in Graham, N. C., offer for sale to the highest bidder for cash the following described property, to-wit:

A certain tract or parcel of land lying and being in Burlington township, Alamance county, State of North Carolina, adjoining lot No. 18, Holt Street and others, and described as follows:

Beginning at an iron bolt on Holt St. and corner with Lot No. 18; running thence with line of Holt St. South 35 deg. East 60 ft. to an iron bolt on Holt St., corner with Mebane Real Estate & Trust Co. (this corner being 208 feet from the northeast corner of Holt and Sellars St.); running thence with line of Mebane Real Estate & Trust Company North 55 deg. East 201 1/2 feet to an iron bolt, corner with lot No. 12; running thence with line of lot No. 12 North 35 deg. West 60 ft. to an iron bolt, corner with lot No. 18; running thence with line of lot No. 18, South 55 deg. West 201 1/2 ft. to the beginning, and being a part of lot No. 19, as shown by the sub-division of the N. C. R. R. Company's property made by Lewis H. Holt June 4, 1914, and upon which is situated a five room dwelling and a one story frame hosiery mill building. This is the lot or parcel of land conveyed to Mrs. Almira Klapp Mebane by deed recorded in office of Register of Deeds for Alamance County in Deed Book No. 70.

This 17th day of Mar., 1925. W. E. SHARPE, Trustee. Coulter, Cooper & Carr, Att'ys.

Summons by Publication.

North Carolina In The Superior Court Alamance County, vs. R. W. Vincent, Administrator of James Chavis, vs. Odessa Chavis and J. P. Chavis, a minor.

The defendants, Odessa Chavis and J. P. Chavis, a minor, will take notice that an action has been begun as above entitled in this court for the purpose of administering on the estate of the said James Chavis, and selling certain lands in Alamance county to create assets to pay the debts of said estate and the cost of administration. The defendants, therefore, will take notice that they are directed to appear before the Clerk of the Superior Court of Alamance county, at his office in Graham, on the 20th day of April, 1925, and answer or demur to the complaint of the plaintiff, which will be filed in said office on or before the said date, or to answer the said complaint within the time as provided by law, otherwise, the plaintiff will be granted the relief demanded in said complaint.

Dated this 21 day of March, 1925. D. J. WALKER, C. S. C. T. C. Carter Att'y.
