LOCAL NEWS.

-Born to Col. and Mrs. Don E. Scott on July 3rd, a son, Don E. Scott, Jr. Their friends congratu-

-This is not news hereabouts, but it's dry-bone dry-throughout Alamance county, and prospects for crops are poor, indeed.

Little Miss Mary Lena Green celebrated her 6th birthday last Tuesday. Her mother, Mrs. W. B. Green, gave her a party which was attended by about 50 of the little folks. Games furnished the chief amusement, but the chiefest joy came at the last in the shape of delicious cream and cake.

-Graham Christian Church Sunday school went to Kimesville Lake Saturday afternoon on a picuic. It is an attractive place for picnics and outing parties. The boating and bathing facilities are very good. There were lots of folks there for a Saturday afternoon outing. The Sunday school folks had a good time and enjoyed the outing.

#### Men's Federation Work.

The services of the Men's Federabegun on Sunday night a tion, week before, closed Thursday night, and the work was transferred to New Providence church. The bord spent last Friday afternoon here meeting at the court house resulted in about 60 conversions. Much interest is manifested in the Providence meeting and every night there are conversions.

The Federation has branched out to all parts of the county, and meetings have been or are being held at more than a dozen different com-

munity points. The work being accomplished little short of marvelous. The lay-men are at work for the Kingdom of Christ and men heretofore without any religious pretensions are enrolling under the banner of King Immanuel.

# Looking to Putting Water in Homes.

E. R. Rainey, State Extension Farm Engineer, surveyed a stream for Benton Thompson to see if he had stream enough to force water from spring branch into the honse. It was found that he had sufficient

pressure to furnish his hou e. The stream of Will Walker was not strong enough to furnish water for the house.

The stream of Joe Nicholson was surveyed last year. Mr. Rainey spent part of the day checking up on the installation of water system It was found that he can expect 26 gallons per hour from the ram he is now installing. This to be night

Many small streams in the county can be harnessed at a very small cost to put water in the home. Our State farm engineer is prepared to help day. us out on this at any time. W. Kerr Scott, Co. Agent.

# Timely Suggestion As to Payment of

At their regular meeting on the first Monday the County Commis-sioners instructed Sheriff Story to urge taxpayers to pay back taxes to

avoid sale of property for same.

The Commissioners show a commendable spirit in this suggestion Their action should be appreciated by the taxpayers and the taxpayers should make an honest, earnest effort to meet their tax payments. No doubt there are some who have made no effort or sacrifice to pay, but there are many others who have. Many, who would, cannot pay now, nor can they raise the money by any means to do so. Such are entitled to all the clemency the County au-

thorities can reasonably extend. The county-may have to borrow money to bridge over, and there are some who will complain at this and say they should not be compelled to help pay interest when others have not paid their taxes. These were fortunate and they were allowed a discount for paying on or before a given date. The unfortunate ones get no discount, but on the other hand are penalized for not paying by a given date, which is intended to and does equalize the burden.

Some farmers of Cumberland county are finding boll weevils in their fields at the rate of about 200 to the acre. This bears out the prediction made by agricultural extension workers at State College that weevil infestation in the cotton growing counties would be heavy this summer.
