

THE GLEANER

GRAHAM, N. C., June 3, 1926.

LOCAL NEWS.

Mr. Jas. C. McAdams has bought Campen's 5c and 10c Store and will conduct the business.

That philosopher out in the Northwest who predicted this would be a year without a summer should, if not a victim of sun-stroke, try again.

Barley a Save Crop to Grow in Alamance County.

Barley is called by many the winter growing corn crop.

It yields as well or better than oats. It is more hardy and not as subject to winter killing as oats or wheat. It is sown in September and ripens early in May. The beardless variety is adapted better to our needs.

Fred Young and John Trollinger of Mebane, N. C., both grew successful crops this year. J. S. Graves, Burlington, N. C., of the Friendship community, grew a very successful crop. Several others made fine yields in this County.

It is well adapted to grow in a winter hay mixture. The following is recommended:

- 1 Bu. Barley,
  - 1 1/2 Bu. Fulghum Oats,
  - 1 Peck of Wheat,
  - 15 pounds of Hairy Vetch,
- This is to be sown on one acre.

W. KERR SCOTT, Co. Agent.

Simpson Reunion At Bethlehem Church, Aug. 26th.

The reunion of the Simpson family, their kindred, and their friends will be held at Bethlehem Church, four miles north of Elon College, on Thursday, August 26th. An interesting historical address will be delivered by Dr. W. T. Whitsett of Whitsett, who has spent much time for the past years in collecting the early history of this Piedmont region. The Simpson family is one of our oldest families, and the spelling of the name has been as follows: Simpson, Compson, Simeson, Simison, Simson, Sympson.

There will be a picnic dinner on the grounds, special music, and other features to make it a day of pleasure for all who attend. On account of its wide connection it is expected that the Simpson reunion will be one of the largest held in this section this year. A cordial invitation has been extended to all who are interested to be present. There are good roads in every direction from Bethlehem Church.

Corn Yield Reduced By Pulling Fodder

Fodder pulling days are here, the saddest of the year for the corn crop. Some experiment stations have found that the loss from pulling fodder amounts to from 7 to 9 bushels of corn per acre or from 15 to 20 percent of the acre yield.

"The facts about pulling fodder are these," says Prof. C. B. Williams, head of the department of agronomy at State College. "An acre of corn that will produce about 20 bushels of shelled grain will yield about 240 pounds of cured fodder. One man on the average can strip 400 pounds of fodder per day. Two and one-half acres are required to yield a stack of fodder and one stack of average size will contain about 300 bundles. A bundle usually weighs about two pounds. One man can tie, carry to stack and build a stack in about half a day. In addition to the time lost in this labor, he has reduced the grain yield of his corn and had much better been harvesting a hay crop grown for furnishing the needed roughage."

Mr. Williams states that some experiment stations report no loss of grain when the tops are cut, but when tops are cut and the leaves stripped from the remainder of the stalk, there is a loss of grain. The average of the tests conducted in many southern states show that a loss of at least two bushels of grain per acre is had when leaves alone are stripped from the plant.

Aside from the decrease in yield of grain, pulling fodder is a costly method of securing roughage for livestock. The food value of corn fodder is not as high as that of good legume hay and more abundant yields of the hay may be secured when proper steps are taken to provide it.

Peach growers of Vance county have sold their crop on the local market at Henderson for an average of about \$2 per bushel. One grower with 600 trees about four years old is harvesting from two to five bushels of quality fruit per tree.

The 16th Annual Convention of The N. C. Forestry Association.

The 16th Annual Convention of the North Carolina Forestry Association will be held this year at Morehead City, on Thursday and Friday, September 2nd and 3rd. Two subjects of extreme importance will be given consideration, one, the equitable taxation of forest land; and the other, more adequate protection of our forests from fire. The legislation necessary to accomplish the above will be discussed, and a legislative committee appointed to present the suggested legislation to the General Assembly of 1927.

State Parks and National Parks in North Carolina will be considered, and those attending the convention will have an opportunity to visit Ft. Macon State Park. Recent forest legislation has been enacted which affects North Carolina, namely the Weeks and Clarke-McNary laws; forest protection; National forests; and the Appalachian Forest Experiment Station, which receives an increased appropriation of \$1800.

The speakers at the convention will include prominent national as well as North Carolina persons. Special delegates are being appointed from the counties and cities, and the Association extends a cordial invitation to all others who are interested in the forestry problems of our State to attend the convention.

About Cotton.

The Philadelphia Record. Great Britain would prefer to get the bulk of its raw cotton supply from the great valley of the Nile if it were possible to do so, and in this way reduce its large purchases in the American market. Some of the Southern cotton growers anticipate such competition, but well-informed newspapers, like The Charlotte Observer, do not agree with this view. It holds that "the competition is to come, when it does come, from points nearer home—from the irrigated districts of California and other Pacific Coast sections. As a matter of fact, competition of appreciable nature is already coming from that field, for the growing of cotton in the irrigated sections of the far West on a profitable basis has advanced beyond the experimental stage. The cotton grown in that part of the United States is of long staple and fine texture and has made a high mark in cotton-buying centers. In time California and Arizona will come into market calculations to an extent that may have influence in control of prices." But it will be a long time before Cotton advocates its kingship in the South.

LADIES, who can do plain sewing at home and want profitable spare time work. Write (Enclose stamp) to HOMAID DRESS COMPANY, Amsterdam, N. Y.

White Leghorns. FOR SALE.—White Leghorn Roosters. Apply to A. G. Ausley, Graham, N. C.

WANTED.—Middle Aged Man. Huestlers make \$40 to \$100 weekly selling Whitmer's guaranteed line of toilet articles, soaps, extracts and medicines. Alamance County now open. Team or car needed. Experience unnecessary. Salesmanship taught FREE. Write today. THE H. C. WHITMER COMPANY Dept. 25. Columbus, Indiana.

Tom Tarheel says that old rocky field, full of stumps, just back of the barn is now one of the best pieces of land on the farm since he blew out the rocks and stumps with explosive.

BACK BAD TODAY?

Then Find The Cause And Correct It As Other Graham Folks Have.

There's little rest or peace for the backache sufferer. Days are tired and weary—Night brings no respite. Urinary troubles, headaches, dizziness and nervousness, all tend to prevent rest or sleep.

Why continue to be so miserable? Why not use a stimulant diuretic to the kidneys? Use Doan's Pills. Your neighbors recommend Doan's.

Read this Graham case: Robt. J. Holt, N. Main St., says: "I suffered with a heavy, bearing-down feeling in my back and I couldn't do any lifting without getting a sharp, pain in my back. My kidneys acted too frequently and the secretions were scanty. After using Doan's Pills, the backache left and my kidneys acted fine. I have had no return of the trouble and believe Doan's have cured me." 60c at all dealers. Foster-McBurn Co., Mfrs., Buffalo, N. Y.

Cheap Explosive Available For Carolina Farmers

The Government of the United States through the federal department of agriculture has again set aside a quantity of pyrotol, the cheap explosive manufactured from wartime materials, for the use of North Carolina farmers.

"Last year this state was allotted 900,000 pounds of pyrotol," says A. T. Holman, agricultural engineer for the extension division of State College. "This year our allotment has been increased to 1,400,000 pounds and the material is now available for those farmers who wish to clear their land of stumps or to drain wet spots or otherwise use the material on the farm. The pyrotol is now available for merchants or dealers and farmers may secure it only by ordering through their county farm agents or through the extension division of the College."

Mr. Holman states that the farmers of Pender County are the first to take advantage of the new allotment. They placed an order for 16,000 pounds through county agent W. H. Robbins and the material will be shipped to Burgaw for distribution. This shipment was financed by the county Board of Commissioners so that land owners could have a supply to blow out stumps and otherwise improve the condition of their fields.

"While we were allotted only 900,000 pounds last year, we actually got a little over one million pounds," says Mr. Holman. "This material was used for removing rocks and stumps from fields, for ditching and for squaring up poorly shaped fields. The use of explosives for land clearing purposes results in larger fields, more economical use of labor and power machinery, greater acre yields and increased returns per farm worker."

Tom Tarheel says it pays him to look after his corn crop as well as he does his cotton crop.

Trustee's Sale of Real Property.

Under and by virtue of the power and authority contained in a certain deed of trust executed to the undersigned, Alamance Insurance & Real Estate Company, Trustee, by Walter Lee and wife, Selma Lee, on the 15th day of March, 1925, for the purpose of securing the payment of certain bonds described in said deed of trust, which said deed of trust is recorded in the office of the Register of Deeds for Alamance County in Deed of Trust Book 95 at page 267, default having been made in the payment of said bonds and the interest on the same, the undersigned Trustee will, on

SATURDAY, SEPT. 18, 1926, at 12:00 NOON,

at the Courthouse door of Alamance County in Graham, N. C., offer for sale, at public auction, to the last and highest bidder, for cash, the following described real property to-wit:

A certain tract or parcel of land in Burlington Township, Alamance County, North Carolina, adjoining the lands of W. G. Crutchfield, Letitia Robertson, W. G. Kirkpatrick and others, bounded as follows: BEGINNING at an iron bar 10 min E of an iron bar, said Robertson's corner; running thence N 3 1/4 deg E 8.85 chs to an iron bar 10 min E of pipe said Crutchfield's corner in said Crutchfield's line; thence N 7 1/2 deg E 4.37 chs to an iron bar, corner with said Crutchfield; thence S 82 deg E 4.98 chs to a pine tree corner with said Crutchfield; thence S 8 deg d 8.66 chs to an iron bar, corner with said Crutchfield in said Kirkpatrick's line; thence S 66 1/2 deg W 5.76 chs to a rock, corner with said Kirkpatrick; thence S 78 deg W 1.43 chs to an iron bolt in said Kirkpatrick's line, corner with said Robertson; thence N 3 deg E 3.06 chs to an iron bar, corner with said Robertson; thence S 78 1/2 deg W 4.41 chs to the beginning, containing Nine and Five-tenths (9.5) acres, more or less. On which is situated a dwelling.

This sale subject to advance bids as provided by law. This, 11th day of August, 1926. Alamance Ins. & Real Estate Co., Trustee. J. DOLPH LONG, Atty.

NOTICE of SALES FOR TAXES

By the Town of Graham

Notice is hereby given that pursuant to law as made and provided for sales for non-payment of taxes and street assessments, that the undersigned Tax Collector of the Town of Graham will offer for sale to the highest bidder, at public auction, for cash, at the courthouse door in Graham, Alamance County, North Carolina, on the first Monday in September, being

September 6th, 1926, Beginning at 12 O'clock, M.,

all of the lands within the Town of Graham, whose owners are delinquent in the payment of their taxes owing the Town of Graham for the year 1925, and the preceding years, a list of the lands to be sold and the amount of the taxes and the names of the taxpayers being as follows, to-wit:
