

## Dependable

The greatest thing about a Ford is the way it keeps going, even under the worst conditions. The dependability of Champion Spark Plugs—which have been standard Ford equipment for 14 years—is an integral part of Ford dependability.

### Convict Uniform Restored

The black-and-white striped prison garb, which was abolished a generation ago, has been reinstated at the Oregon state prison. Due to trouble with "hard-boiled" prisoners, Warden Lillie has ordered that incorrigible prisoners shall wear the striped uniform. There are 534 at the institution, but very few have been placed in the striped class.

## HOW I IMPROVED MY HEALTH

Did It in Less Than One Month

As Mrs. Weaver herself says, "I was never very strong." This is a mild statement describing her condition, for, according to her letters, she was subjected to no small amount of ill health. Fortunately, her sister was familiar with Lydia E. Pinkham's Vegetable Compound and begged Mrs. Weaver to try it. "After three or four weeks," writes Mrs. Weaver, "I felt a great difference in myself. I would go to bed and sleep sound, and although I could not do very much work, I seemed stronger. I kept on taking it and now I am well and strong, do my work and take care of three children. I sure do tell my friends about your wonderful medicine, and I will answer any letters from women asking about the Vegetable Compound."—Mrs. LAWRENCE WEAVER, East Smithfield St., Mt. Pleasant, Pa.

If you knew that thousands of women suffering from troubles similar to those you are enduring had improved their health by taking Lydia E. Pinkham's Vegetable Compound, wouldn't you think it was worth a trial? In some families, the fourth generation is learning the merit of Lydia E. Pinkham's Vegetable Compound.

### Settles Auto Disputes

Judge David J. Heffernan of Miami's night municipal court in Florida has an array of tiny motor vehicle models which fulfill an important role in his proceedings. A dispute in traffic disturbances calls forth the models and the motorists re-enact the scene in question before the judge on one among several drawings, representing various streets sealed to the size of the miniature autos.

## Say Mass in Honor of Spirits of Elephants

A Buddhist mass was recently held in Tokyo for the spirits of all elephants that have supplied ivory for ivory carving in Japan. Members of the Tokio Art Objects Dealers' association and Ivory carvers assembled at Kokoku temple for the ceremony. Fifteen prizes opened the service with the reading of Buddhist prayers. A large monument was also unveiled in honor of the spirits of the departed elephants. The president of the association said: "We who obtain our living from this ivory cannot help feeling grateful to the elephants which have been furnishing materials for us to work with. It is for this reason that we comfort their spirits by holding a mass for them. We think we also do honor and comfort to the spirits of our ancestors, who were likewise in the ivory trade. We wish all artists and dealers in ivory objects to visit the monument as a shrine when they come to Tokyo."—Pathfinder Magazine.

### Convenient for Autoists

With every car sold a Paris automobile dealer supplies a pot of special paint and a sprayer, about the size of a fountain pen, so that scratches and mars can be touched up at once to keep the body looking new. Pressure for applying the paint is obtained by blowing through a tube connected with the sprayer. While the preparation is specially adapted to covering metals, it also may be used on fabrics and leather.

### Where It Went

It was well after midnight and dark as pitch when the car stopped before the farmhouse.  
Though there was no sign of a light the motorist blew and blew in the hope of arousing some one. Finally an indistinct figure appeared at the door, and inquired as to the cause of the trouble.  
"Where does this road go to?" belated the motorist with more vigor than politeness in his tone.  
"I've lived here seven years, and so far as I've been able to see it hasn't never gone anywhere," replied a peevish voice as the door slammed.

# FIRST to adopt DUCO

THE General Motors Research Laboratories cooperated with E. I. du Pont de Nemours & Company, Inc., in the development of Duco—an achievement ranking in importance with the invention of the self-starter. DUCO is not only far more lasting than paint and varnish; it is finer, more beautiful and more economical to apply in factory production. DUCO was first adopted by Oakland, and immediately thereafter by the rest of the General Motors cars. BUYERS of General Motors cars have profited by the development of this finer, more enduring finish. Their cars wear well longer.
