RUPTURE EXPERT HERE

F. H. Seecley, of Chicago and Philadelphia, the noted expert, will personally be at the O'Henry Hotel, and will remain in Greensboro this Monday only, August 8, from 9 A. M. till 5 P. M. Mr. Seecley says: "The Spermatic Shield will not only retain any case of Rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or pressure no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatment or prescriptions."

CAUTION—All cases should be cautioned against the use of any elastic or web truss with undertruss, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations.

Mr. Seecley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

N. B.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. SEECLEY. Home Office, 117 N. Dearborn Street, Chicago.

TAR HEEL EDITOR WINS NATIONAL PRIZE.

Extract From Prize-Winning Letter Given.

Of all the editors of weekly papers in the United States who competed for the prizes offered by the National Farm News for the best letter giving a solution of the present farm depression, it remained for a Tarheel from Fayetteville to win first place.

Fred W. Vaughn is his name and he publishes the Peoples' Advocate.

Hundreds of suggestions were offered in the contest. Letters from all over the United States were received by the National Farm News and considered by the judges but the short pithy letter from Mr. Vaughn was adjudged the best and he was given first prize of \$100.

The extension workers of State College feel flattered that through his letter, Mr. Vaughn followed the same lines of thought upon which the agricultural program for this state is being built.

His letter and the activities of the extension forces are in perfect harmony.

In part, Mr. Vaughn says, "Farming, like every other productive enterprise, cannot be successful without sound business management. The lack of this is the chief handicap of the great majority of farmers."

"Inasmuch as the farmer has to sell his products on an unprotected market, he must overcome this difficulty as far as possible by living at home. That is, he must produce on his farm to the extent of his ability what he consumes. He will thus have less to buy."

"The farmer must learn that the price for which a product is sold does not determine profit or loss except when considered in connection with the cost of production. Intelligent diversification has saved many farmers from bankruptcy. Crop surpluses may be converted into meat and milk products through his livestock."

Eighty-eight Pitt county farmers visited a tobacco demonstration field near Ayden recently.
