

THE GLEANER

GRAHAM, N. C., JAN. 12, 1928

LOCAL NEWS

The open season for hunting squirrel ends with the 15th inst.

The weather moderated considerably the latter part of last week. It was showery Sunday night and Monday morning, and since it has been frosty but not cold.

Rev. W. E. Harrop, pastor of the Presbyterian church here, while visiting in Virginia, preached last Sunday for the congregation at Martinsville, Va., and it is learned the congregation forthwith extended him a call. It is not believed that he will consider the invitation seriously. His congregation and this community would be big losers in parting with him.

A churchmen's conference of the M. E. Church for the western part of Durham district will hold an all-day meeting Sunday with the church in Mebane. The exercises will begin at 10:30 a. m. The body, in addition to laymen, will consist of missionary society committees and Sunday school superintendents. A large delegation from Graham is expected to attend.

Sheriff Story received a message about noon last Saturday to look out for the robbers of the bank at Bonlee (it was the bank at Bennett). The message stated the robbers were driving a Chrysler car and headed in this direction. There were two white and a mulatto. They forced two bank officials and a customer into the bank vault and got the money. No account of their apprehension has been seen.

Tobacco Seed Cleaned and Treated At County Agent's Office.

At the request of farmers over the county we have secured a machine to clean tobacco seed. This machine has already been set up at the County Agent's office and we find that it cleans the seed well.

At the same time we will treat the seed for Frogeye, Angular Leafspot, and Wildfire bacterial diseases which are carried by the seed.

A nominal charge of 25c for each package of seed cleaned to pay for the tobacco seed cleaner and other necessary equipment will be made.

Seed will be cleaned only on each Friday and Saturday during this season.

Clean, disease free, seed pay. W. Kerr Scott, Co. Agent.

Treating tobacco seed before planting with the formaldehyde solution will prevent leaf spot disease in the field next summer.
