THE CALENDAR
Changing the calendar is being agitated. Some are advocating it for business purposes—to add another month and each month to be four weeks in length.

The cycle of 365 days is complete with the addition of a day to February every year in four, which is leap year.

Astronomers have made the calculations to a nicety, so that for thousands of years to come there will be no appreciable variation in the time of the rising and setting of the sun on a certain day of any month, and whatever change might be made it would require approximately 365 1/4 days for the earth to make its circuit around the sun.

Twelve is a mystic number. Think of the 12's in Holy Writ. Civilized mankind has adapted itself to the number.

It took centuries to arrange the calendar as it is now—it is the result of human wisdom, doubtless, aided by inspiration.

Senators are taking a little rest after working all summer on the revised tariff bill. Both houses will assemble about the 23rd to resume the tariff battle that will no doubt last for several weeks or months, perhaps.

The Graf Zeppelin landed at home, Friedrichshafen, Germany, early Wednesday morning after a record flight around the world. From home base back to home base 20 days, 4 hours and 13 minutes elapsed.

A jury was completed at Charlotte Wednesday for the trial of the sixteen strikers charged with the murder of Chief of Police Aderholt at Gastonia. Some 400 men were summoned from which to select a jury.

Trouble broke out anew at Marion in the strike area the latter part of last week. Troops were ordered out and things got more quiet. On account of using dynamite about the mill premises and the partial wrecking of one building, some scores of strikers were arrested and jailed.

Governor O. Max Gardner and President E. C. Brooks will speak at the picnic to be held at West Jefferson on September 6 by patrons of the new cheese factory.

Black Walnut Seedlings Available For Fall
Black walnut seedlings grown from nuts secured at Mount Vernon, the home of George Washington, and Arlington, the home of Robert E. Lee, may be secured by club members and others who wish to plant black walnuts as a 4-H club prospect this fall.

The seed secured from these two historic shrines were planted at the State Forest Nursery and we now have 400 of the Mt. Vernon seedlings and about 50 of the Arlington seedlings.

Mr. Graeber was fortunate in securing a supply of walnut seed from both Mt. Vernon and Arlington last fall and now has the yearling trees from these seed to donate to those club members who order 25 young trees to get their project started.

Catawba Club Members To Represent State
To secure leadership training, two advanced 4-H club members from Catawba county, Miss Winnie Lee McCombs of Conover and Philip Lutz of Newton, have been selected by agricultural extension workers at State college to represent the club members of North Carolina at the International 4-H Training School to be held at Springfield, Mass., September 8 to 12.

Miss McCombs is 22 years old and has been a club member for 13 years. During the period of club work from 1915 to 1928, she earned a total of \$4,288 on her club projects. Some money was also made from exhibits at fairs.

Philip Lutz has been no less successful. At the age of 21, he has been a club member for 13 years also. During this time, he has earned a net profit of \$3,819.51 including returns from corn, cotton, pig, calf and poultry projects.

Rudeness Checked by Display of Courtesy
The most effective weapon to be used in meeting rudeness is courtesy. I say that dignity and calm and good temper will always check rudeness, even in a person who can be checked by no other means.

Did You Ever Stop To Think
(Copyright 1928)
By Edson R. Waite, Shawnee, Okla.
That many people do not appreciate the stores of their home city as they should.

That the careful housewife wants dependable merchandise at reasonable prices. YOUR STORES HAVE IT—it is not necessary to order by mail or to do to some other city to trade and help build the other city.

That their stores are filled with big values in merchandise. That you can find where to buy extraordinary goods at extraordinary prices by reading the advertisements in this newspaper.

Happy Youngsters in Home of Longfellow.
I have called it "the poetry school," because it was in the house of a poet, because we lived in an atmosphere of poetry and saw the birth of many of the beloved poet's best-known works, saw other poets and writers, his friends and advisers, coming back and forth to discuss with him the greatest poetical work of all time, the "Divine Comedy" of Dante.

Historical Law Codes
The earliest code, which is the name given to a collection of laws, or constitutional articles, was that of Hammurabi, about 2100 B. C. The codes of Theodosius and Justinian, Roman emperors, were the basis of the Code Napoleon of France.

For Insomnia Sufferers
As treatment for insomnia, there is advised a systematic mapping out of the day; early rising, then work, punctuated by regular meals, followed by half an hour's rest after each, a fair allowance of exercise and recreation, the latter to be pursued gently and not as a make-believe.

MAIL BOX THEFTS AID CHECK FORGERS

American Bankers Association in Nationwide Warning Exposes Methods and Gives Rules to Combat Them.

NEW YORK.—Active operations in many cities of mail box thieves, who open bank communications to customers, containing details of their accounts and cancelled checks showing their banking signatures, and use this material in perpetrating check forgeries, have led the American Bankers Association to issue a nationwide warning to its members with instructions for combating this form of crime.

"Heavy losses are being sustained through cancelled vouchers and statements stolen from the mail boxes of bank depositors in apartment and office buildings, thus divulging the depositors' balances and supplying models for forged checks.

"Also banks should educate depositors to safeguard blank checks and cancelled vouchers as they would money. Such paper stolen by forgers soon puts real money in their hands.

Estimates broadcast by surety companies indicate that individuals, merchants, hotels and others outside of banking are shouldering more than 99 per cent of the total amount of forged losses.

Two Sides to a Weasel
A weasel is good to look upon, for his face, in spite of beady eyes, is handsome, his body supple in a degree almost beyond belief, and his coloring a rich blending of blacks, umbers, browns and tans.

The new warehouse being built at Marshall by farmers of Madison county is now nearing completion.

SCRUB BULL IS HALED TO COURT

Placed on Trial for Hindering Development and Prosperity of Dairy Industry.

Indicted for robbery, larceny, and a few other such charges, Scrub Bull went on trial for his life at Laurel, Mississippi, recently. It seems that for some time people had suspicions that Mr. Bull was hindering the right and lawful development of the dairy industry, thereby "maliciously and wilfully lowering production and decreasing profits in the dairy business,"

This, it says, was the first trial of its kind ever held in that section and was attended by several hundred people. The jury, representing every vocation within the boundaries of the Laurel trade territory, rendered a unanimous verdict of "guilty."

The arraignment came during the Milk Products Show sponsored by the banks of Laurel. People attending the show had the opportunity of also attending the bull's "trial" and went away firmly convinced of the seriousness of lax and out-of-date methods in the pursuit of dairying.

The banks of Laurel entered into a cooperative arrangement in their efforts for fostering agricultural development and successful farming in the community, offering \$2,165 as premiums to the outstanding farm workers throughout the territory during 1929.

Swedish Vikings Not Only Great Fighters

The Swedish Viking was not merely a feared raider. He was also a businesslike trader. This fact has been demonstrated by archeological discoveries, and Swedish scientists have concluded that while the written sagas lay greater emphasis on the warlike exploits, the unwritten record dug up from beneath the ground presents a better-balanced picture.

Even in the Bronze Age, long before the Viking era, Sweden had an active foreign trade, the archeological finds disclose, so that the traditions of regular Swedish imports and exports are at least 3,500 years old.

These relations attained their heyday about 1500 to 1300 B. C. The art, ornaments, designs and habits of the Mediterranean people strongly influenced the Swedes, through the latter developed them into an independent and national Swedish culture.

Home Canning Made Easy
By EHYL CESSNA MORGAN
Instructor in Home Economics, Iowa State College.

THE "CAN" IN CANNING
The pressure cooker puts the "can" in canning. While canning was a big improvement over the earlier methods of food preservation by salting and drying, it was not until the pressure cooker was adapted to household use that the hubbub of the canning season was destroyed.

It is no longer necessary to make canning an all-day job, with a bulky water-bath canner monopolizing the whole stove top, and the escaping steam making the already hot kitchen still hotter.

OFFER \$5,225 IN PRIZES IN NATIONAL CANNING CONTEST
To ward off a threatened surplus of farm products in many sections and to improve more housewives with the economy and healthfulness of home canned food, a National Canning Contest is now under way.
