

THE GLEANER GRAHAM, N. C., FEB. 13, 1930. ISSUED EVERY THURSDAY. J. D. KERNODLE, Editor. \$1.00 A YEAR, IN ADVANCE.

C. L. Shuping of Greensboro has been named state manager and former Judge James S. Manning of Raleigh named as chairman for Josiah Williams Bailey's campaign for the Senate.

Thomas A. Edison, electrical wizard, celebrated his 83rd birthday Tuesday at his winter home at Fort Myers, Fla.

Abraham Lincoln, 16th President of the United States was born in Hardin county, Ky., 121 years ago Wednesday.

Mr. Hoover crossed this state a day or so ago on his way to the Florida coast to engage in the sport of fishing for big fish.

The enforcement investigation of prohibition has developed much speech-making. The Volstead Act does not appear to grow in favor after ten years' trial.

The state prison authorities are considering the purchase of another farm with the hope of relieving the congestion at the penitentiary and that the convicts may contribute in some measure to offset the cost of their keep.

This is the fourth day that the confirmation of Charles Evans Hughes, appointed Chief Justice of the Supreme Court by President Hoover last week immediately upon the resignation of William Howard Taft, has hung fire.

Cheerful news comes daily that former Chief Justice Taft continues to improve. Independent merchants are making a drive against the chain stores.

A Poultry Flock on Every Farm The farm poultry flock is not expensive and because of the excellent food it produces, should be found on every farm.

"During a part of the year, a flock of from 50 to 100 hens will forage for much of their food," says Dr. B. F. Kaupp, head of the poultry department at State College.

The flock needs to have a comfortable house which can be kept clean and plenty of mash and grain feed. Corn, oats, wheat and barley to feed the flock may be grown at home and made into a ration that is just as satisfactory as any commercial mixture.

Dr. Kaupp says that every person should eat at least two eggs every day. This means that two cases of 30 dozen eggs each is needed for each person in the State each year.

To find out the potential market for poultry and eggs in a county, one should ascertain how many hens there are within its borders. These hens should average at least 100 eggs each.

PREPARE FOR WEEVIL EARLY THIS YEAR

Cotton growers are beginning to realize that control of the boll weevil is a regular part of the routine in growing cotton and that to continue growing the crop at a profit, a provision must be made for this work.

"We are receiving hundreds of requests from all parts of the cotton belt for information about the boll weevil," says C. H. Brannon, extension growing section asking for definite information about the boll weevil.

Mr. Brannon says that in most farm operations there is no exact way of doing things. One must use his own judgment within certain limits about how he shall cultivate, plow, apply fertilizers or harvest, but when it comes to poisoning the boll weevil by dusting there is only one way and growers should not jump into weevil control without being adequately equipped and fully informed.

There are a number of North Carolina cotton growers who have poisoned successfully and have produced good crops of cotton despite ravages by the weevil. Mr. Brannon offers to send detailed information about how this is done to any grower who will write him for the information.

Farm Tax Burden Too Heavy Farmers are carrying the chief burden of taxes today because taxing systems are based mainly on an antiquated property tax.

The property tax should be modified so as to relieve property owners and also to eliminate double and triple taxation which is so common now and which is the cause of so much dissatisfaction.

The assessments of property and in the levying and collecting of revenues. The remedy to this, he said, is the creation of a fiscal commission with broad powers to study tax problems and effect the necessary reforms.

CLUB WORK POPULAR SAYS STATE LEADER

One evidence of the increased popularity of 4-H Club work in North Carolina is indicated by an enrollment of 23,704 farm boys and girls in these junior farming projects in 1929.

"One of the gratifying features of 4-H club work last year is that 62 per cent or 14,791 members completed their projects and made reports to their home or farm agents," says L. R. Harrill, club leader at State College.

Mr. Harrill said that the club members were engaged in many different lines of work. Some of them had two or three projects and others had only one. Studies were made in handling dairy calves, poultry, corn growing, swine feeding, and nearly every other branch of farming.

The girls were principally concerned with clothing and food studies, although many of them improved their rooms, beautified the home grounds, or canned and preserved foods.

One Cumberland County farmer never goes to Fayetteville but that he carries vegetables, poultry, eggs or cured meats for sale.

Cooperative poultry sales are beginning over North Carolina. Farmers of Pitt county recently sold 7,052 pounds of the poultry car for \$1,457.41.

The Farmers' Exchange in Currituck County is saving buyers over \$3 a ton on their purchases of fertilizer this spring.

County Agent Claude B. Farris of Graven County was recently voted one of the most useful citizens in the county.

MAGISTRATE'S BLANKS

Magistrate's Blanks—State Warrants, Civil Summons, Transcripts, of Judgments, for sale at THE GLEANER office, Graham.

News of Whitsett Mrs. Kell Davenport and son, Geo. Davenport, of Gaston county were here last week visiting Mr. and Mrs. G. W. Davenport.

The Guilford county road forces have been through this territory during the last few days cutting back the timber on either side of the public highway to a distance of 30 feet to allow sunlight and to open the roads fully over the right of way.

There is much inconvenience because of the condition of the public road from Springwood Church to Gibsonville via the Gibsonville cemetery.

Friends of the candidates for the judgeship have been active for the past week, and it is found that all three, Messrs. Hoyle, Cooke and Raper, have friends in this part of the county.

SUCCESSFUL HOMEMAKING by GRACE VIALT GORDON YOU MUST COME TO DINNER

Gone are the days when Mrs. Newlywed dreads her first dinner party for the new in-laws! Biscuits and cakes, those traditional gambles of the amateur, hold no terrors for the modern bride, for with self-rising flour at her right hand, Mrs. Newlywed is without fear and without reproach.

Newlyweds Favor Honey Moon Cake and Paradise Pudding.

Lamb was ever a standard treat at the in-law's home. So roast lamb it is, with mint jelly jelled in the refrigerator, and green peas.

Then comes that bane of life of every bride before the reign of self-rising flour—drop biscuits! With self-rising flour, however, all fear is gone, for the actual cooking is a matter of ten of the last minutes.

Dessert is easy for the happy bride, for the romantic pairing is obvious—Paradise Pudding and Honey Moon Cake. No terrors here! Follow these directions:

Honey Moon Cake. 1/2 cup fat, 1 1/2 cups self-rising flour, 1/2 cup sugar, 1 cup milk or orange juice, 1 tsp. lemon extract, 3 egg whites.

Directions: Cream the fat; add the sugar; continue to cream until the sugar granules have dissolved; add the flour and flour alternately with the milk; fold in the egg whites, beaten stiff but not dry; pour into a greased and floured cake pan, and bake in a moderate oven about 30 minutes.

The first cooperative car of dolomitic limestone for use under tobacco in Caswell county this season was recently ordered by eight growers.
