

HAS THE LAXATIVE IN YOUR HOME A DOCTOR'S APPROVAL?

Some things people do to help the bowels whenever any bad breath, feverishness, biliousness, or a lack of appetite warn of constipation, really weaken these organs. Only a doctor knows what will cleanse the system without harm. That is why the laxative in your home should have the approval of a family doctor.

The wonderful product, known to millions as Dr. Caldwell's Syrup Pepsin is a family doctor's prescription for sluggish bowels. It never varies from the original prescription which Dr. Caldwell wrote thousands of times in many years of practice, and proved safe and reliable for men, women and children. It is made from herbs and other pure ingredients, so it is pleasant-tasting, and can form no habit. You can buy this popular laxative from all druggists.

**Says Cats Cure**

According to Dr. E. Paller of the French Academy of Medicine, cats prevent pneumonia. He says every family should keep at least one cat. He thinks the day is not very far distant when the practicing physician will have to keep a cat farm, thus enabling him to answer emergency calls with a cat or two under his arm.

**Great Water Project**

Texas contemplates spending \$100,000,000 to make the mighty Brazos river work for them. It is a big task; they have in mind for the river and its tributaries. They would irrigate thousands of acres of land, turn the wheels of many industries, develop electric power, supply drinking water and even use it for recreation. The Brazos river conservation and reclamation district created to direct the project will seek the financial aid of state and federal governments.—Indianapolis News.

**Fliers Say Courage Varies with the Way they Feel**

**AEROPLANE**

A pilots tell us that their courage, their whole attitude toward flying, varies from day to day, with the way they feel. If they feel full of pep, healthy, they can try anything—nothing frightens them. Their nerve is unshakable; their skill keen; their flying is machine-like in its perfection.

It is an entirely different story, however, if they wake up in the morning feeling sick, down in the mouth. Then flying becomes a real danger.

What is the matter with these brave people when they are not up to par? The natural poisons in their bodies have not been swept away. They are allowing their brains to be clouded and dulled by poisons which should not be permitted to remain in the body.

**Drink Water to Help Wash Out Kidney Poison**

If Your Back Hurts or Bladder Bothers You, Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which helps to remove the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Because of the great demand for the medicine which he claims to have discovered and to have used in the cure of scores of cases of tuberculosis, Rev. He declares the many requests for the medicine include a large order from England. The compound is reported to contain mineral salts extensively used by a certain European medical school, together with a herb which grows extensively in many parts of New Zealand.

**For COLDS**

We all catch colds and they can make us miserable; but yours needn't last long if you will do this: Take two or three tablets of Bayer Aspirin just as soon as possible after a cold starts. Stay in the house if you can—keep warm. Repeat with another tablet or two of Bayer Aspirin every three or four hours, if those symptoms of cold persist. Take a good laxative when you retire, and keep bowels open. If throat is sore, dissolve three tablets in a quarter-glassful of water and gargle. This soothes inflammation and reduces infection.
