—The new auditorium for the Graham public schools is well under way. It is separate from the main building. Besides the auditorium, this annex will house one or more departments of the school. It is one-story, of brick veneer construction and 50 x 100 feet. The contractor is Sam T. Johnston. The school has needed a large auditorium for a long time.

THERE'S always some favored one with a charm that's all her own. . . . And everywhere in the modern scene you'll see happy smokers breaking out fresh, fragrant packs of Camels . . . a natural choice too!

For the mildness of Camels is a charm that's all its own . . . a natural mildness that's a quality of choicest tobaccos. Don't confuse this fresh, fragrant mildness with the flatness or insipidness of "over-treated" tobacco. There's a delightful natural fragrance to Camels, too, a "bouquet" as distinctive as the fragrance of oriental flowers.

Here's to the delightful things of life! Have a Camel!
