

THE GLEANER

GRAHAM, N. C., DEC. 3, 1931.

LOCAL NEWS.

The up-stairs over Joy Cafe is being rearranged and fitted up for an apartment.

Otis Self was operated on at the Clinic hospital, Greensboro, Sunday for appendicitis.

Window decorations are now reminders that the festive Christmas season is just in the offing.

Yesterday was "bargain day" at Graham Theatre. It was 10c. only—night or day. Richard Barthelmess in "The Finger Points" was the attraction.

Setting cedars in the park space between the street and side-walk in front of business places makes a cheerful and appropriate Christmas picture.

The Junior Music Club was re-organized the latter part of last week at the home of the director, Mrs. Floyd Phillips and met with Miss Cora Emmaline Henderson Monday night.

"Once in a Blue Moon," directed by the Oaks Studios and sponsored by Veterans of Foreign Wars, was played at the Municipal Theatre in Burlington last night and will be given tonight at the High School auditorium in Mebane. The cast is made up of some 150 local people of Burlington, Graham and Mebane. A good attendance at the performance in Burlington last night is reported.

Fire this morning between 7 and 8 o'clock completely destroyed the home of Joseph Boggs, just beyond the southern corporate limits of Graham. The firemen did not reach the scene in time to save the dwelling, but prevented the spread to other buildings. Only a piece or so of furniture was saved. The loss is covered by \$3,000 insurance. Defective wiring is thought to have caused the fire.

Graham Garden Club at its meeting at Mrs. A. K. Hardee's Tuesday afternoon took the form of a Christmas party. The decorations had the Christmas tons. The rule for this occasion was departed from and delightful refreshments were served, and Christmas music added to the charm of the occasion. Mrs. Chas. W. Causey, a former Graham girl and her mother, Mrs. J. L. Scott, Jr., of Greensboro were present and the former made a very interesting talk to the Club on gardens.

A sample of real winter weather was handed out, starting Tuesday afternoon with a drizzle of hail and sleet. It continued through the night and till about middle forenoon Wednesday. Yesterday morning there was quite a coat of sleet on the trees. The papers report a heavy sleet in parts of South Carolina and Georgia, which broke down telephone, telegraph and power transmission lines. The spell ended more suddenly than it came, and today is bright, sunny and springlike.

Dr. Will S. Long, Jr., Chief of Graham's fire department, attended a three-day meeting of representatives of the Southeastern and National Tariff associations and electricians in Durham last week. Fire chiefs of the various towns of the State had been invited to attend. During the meeting lectures were given on modern safety appliances and construction for fire prevention, and electric wiring was specially stressed. The visitors were shown wiring at different places, and especially the system at Duke University, and other courtesies were shown them.

A fiddlers' convention will be held at the courthouse tonight for the benefit of the Boy Scouts. Four or five string bands will take part in the entertainment. The musicians will discourse ye ole tyme music, some of which will be accompanied by singing. If you ever lived in the country and heard the neighborhood musicians with their fiddles and banjos, you will want to hear the like again. It will bring back pleasant memories of the long ago. If you have never attended a fiddlers' convention, then go, and you will realize one of the things you have missed by not having been reared in the wide-open country.

There are 150,000 one-room school-houses left, constituting 60 per cent of our school buildings.

If placed end-to-end the steamships of the world would reach from New York to Arkansas City, Ark.

The roof and upper story were almost destroyed before the flames were brought under control.

The home was a good modern residence and the damage is around \$2,000, and, but for the prompt response of the fire companies the residence would have been entirely destroyed.

Most of the furniture was removed. That remaining and the lower part of the house were soaked with water.

The origin of the fire is unknown; but believed to have been caused by defective wiring.

Parched or toasted? No, sir! CAMELS are FRESH!

THE bedrock of Camel popularity is the inherently fine quality of the tobaccos that go into our cigarette.

These tobaccos are notably mild, full-mellow, delicately flavored by nature—the finest Turkish and mild, sun-ripened Domestic tobaccos that money can buy.

To safeguard the essential goodness of these fine tobaccos we exercise every care to conserve their natural moisture and natural flavors.

They are never parched or toasted—the Reynolds method of scientifically applying heat guarantees against that.

That's why we say Camels are made fresh to start with—and why the Camel Humidor Pack can bring them fresh to you, in prime smoking condition.

If you want to know what a blessing that means in unalloyed smoke-enjoyment, switch to Camels for just one day—then leave them—if you can.

You needn't tell me—I know Camel is the fresh cigarette!
