

THE GLEANER

GRAHAM, N. C., MAR. 10, 1932.

ISSUED EVERY THURSDAY

J. D. KERNODLE, Editor.

\$1.00 A YEAR, IN ADVANCE.

Entered at the Postoffice at Graham, N. C., as second-class matter.

The State Democratic Primary will be held on June 4th, when candidates will be chosen to be voted for in the November election.

Maj. L. P. McLendon of Durham has been chosen as manager for Mr. Ehringhaus' gubernatorial campaign. It's a good selection.

Aristide Briand, noted French statesman, died last Monday. His career was one of the most notable in French history. He was in his 77th year.

In this Congressional District, the new sixth, there is no dearth of candidates. There are half a dozen or more. Solicitor Wm. B. Umstead of Durham is one of the latest additions to the ranks and has a strong following.

Gov. Franklin A. Roosevelt wins over former Gov. Al. Smith this week in the presidential primaries in New Hampshire and Minnesota. From reports over the country it looks now that Roosevelt will be the Democratic nominee.

Better times are reported in some parts of the country. Those are fortunate who live in those parts. Changes for the better will be heartily welcomed. Everyone should help to speed the return of normal conditions as a patriotic duty.

J. C. B. Ehringhaus of Elizabeth City and R. T. Fountain of Rocky Mount are now the conspicuous candidates for the Democratic nomination for Governor. The woods were full of them for a while, but nearly all, save the two mentioned, have specifically withdrawn or declined. Not too late yet for others to enter and gain prominence.

Attorney General Dennis G. Brummitt has faded out of the gallery of aspirants for gubernatorial honors. He had supporters who would have stood by him to the last stand. His ability and fitness were not questioned, but for reasons best known to himself he is out of that race and is again seeking a renomination for the position he now holds, that of Attorney General.

It is strange that there should be a labor disturbance in the automobile plant of Henry Ford, in that the impression prevails that the Ford employees work on short hours and receive a high wage. Some disturbing element has surely been hatched out that is opposed to letting well enough alone. The trouble started Monday, a riot in which several were killed and a number wounded.

Two-cent postage from the United States to every country in the Western Hemisphere is on the eve of a change to three cents which will be effective on April 1st. The rate to other countries is five cents. It is not improbable that domestic postage will experience a boost as the matter is already being mooted. The postoffice department has been cared for by appropriations to take up the deficits—a condition that will continue as long as increased pay

is granted employes and working hours abridged, a combination which makes for extra cost to the department in two ways. It is perfectly natural for people on the outside to wonder why government employes are better paid and have shorter hours than other workers equally skillful and competent.

Frank D. Grist, State Commissioner of Labor and Printing, now candidate for the Democratic nomination for the U. S. Senate to succeed Senator Morrison, failed in his challenge for a joint discussion with the Senator. Unflinching, however, he is proceeding with his campaign. Somehow, the notion got currency that he was seeking a sort of notoriety or publicity by his challenge, but failing to get in a tilt with Senator Morrison he is handling the situation without the contact he sought. Evidently Grist is in dead earnest.

John Philip Sousa, whose name is known to every lover of music, old and young, in America, and other countries more or less, died in Reading, Pa., early last Sunday in his 78th year. He was born in Washington, D. C., Nov. 6, 1854. He was given a full military funeral. The burial was in Congressional Cemetery Wednesday morning with Masonic services at the grave, after the body had lain in state at the Marine Barracks. Mr. Sousa had headed the U. S. Marine Band for more than 50 years, in which capacity he was best known.

The nation-wide interest in the finding and return of the Lindbergh baby kidnaped from the Lindbergh home, Hopewell, N. J., in the early part of Tuesday night of last week, continues. So far as the public knows the whereabouts of the child is still a mystery. Many reports have been sent out which lack verification. It is said, however, that Col. Lindbergh is making a personal effort to get in touch with the kidnapers for the return of the child. It is yet to be seen what progress he will make. If he can do so, other agencies should not interfere.

Robert R. Reynolds of Asheville is "shelling the woods" as candidate for the U. S. Senate to succeed Senator Cameron Morrison. A big plank in his platform is a change in the prohibition amendment. Prospects are not bright for a change. It is a case on all fours with the imputation of talking dry and drinking wet. Thousands will talk change and vote for things to remain as they are now when the test comes. Thousands condemn the operation of the prohibition law, but want some assurance of what will take its place, so when voting time comes they vote to let it stand and endure the existing evils rather than to risk others that might be worse.

There is something about Jespedeza growing that keeps hope and faith in the heart, says Tom Broom, county agent of Union County.

Alleghany County farmers purchased 3,600 pounds of common and Korean Jespedeza seed from Stanley and Rowan farmers last week.

Divisional Line
The continental divide of North America, consists of a continuous line extending north and south from the Arctic seas to the boundary between Panama and Colombia. In the United States it follows, as a rule, but not always, the most elevated portions of the Rocky mountains. Water falling east of this line flows into the Pacific. The term "Great Divide" is a popular one, but rather indefinite in meaning, and applies to a vast region in Montana, Idaho, Wyoming and Colorado traversed by the Continental divide.

Man of Many Attainments
Henry Martyn Robert, author of Robert's "Rules of Order," was a man of many attainments and accomplishments. A West Point graduate, he later was professor there of natural philosophy and of military engineering. He was a major of engineers in the Civil War, and later, as a major general, planned the fortifications of New York City and Philadelphia as well as coast defenses on the Atlantic and Gulf coasts. He designed and supervised the erection of the Galveston sea wall. His rules of order, the standard authority on parliamentary law, was but an incident in his career.

Wonderful Meteoric Shower
The meteoric shower which occurred in the early morning of November 13, 1931, is thought to have been the most brilliant ever recorded. It is the shower usually referred to as the "falling of the stars." It began about midnight and lasted until dawn, and was visible more or less over half the earth, including North America, but not France. The number seen at Boston was estimated at 250,000 or more. The United States naval observatory states that this stream of meteors was supposed to be the result of the disintegration of Temple's comet, which was not seen when last due in 1900.

Moncton Tidal Bore
The famous tidal bore, near Moncton, N. B., is the inward surge of waters up the Petitcodiac river of New Brunswick from the bay of Fundy, which has one of the highest tides in the world. The waters enter the estuary of the Petitcodiac in the form of a bore, or tidal wave, from four to six feet high. The difference between extreme high and extreme low tide at Moncton is 30 feet.

Bees Use Eagle for Home
Christiansburg, Va.—Apparently in search of a unique storage place, a colony of bees has established itself in the large eagle which, mounted atop a large ball, stands on the Christiansburg courthouse. Dozens of bees may be seen every day flitting in and out.
