

THE GLEANER

GRAHAM, N. C., JUNE 28, 1934.

ISSUED EVERY THURSDAY.

J. D. KERNODLE, Editor.

\$1.00 A YEAR, IN ADVANCE.

Entered at the Postoffice at Graham, N. C., as second class matter.

G. H. ENFIELD

Mistaken identity: Man kills self for woman.

Wanted: An artist. To paint women's toes.

It's catching: Man's lips become carmine from contact with a girl's.

"Every man has his price," said an old saying. Price and Man guilty of bribery, a headline.

How generous some men are! Keeping other men's wives.

The other evening while listening to his wife talking his cigar went out.

Please notice: "The Long, Long Trail" begins where cars collide.

Many people look tired, lugging empty pocket books.

As the roots are so will the fruit be. Ancestors are roots of family trees.

During the World War "every cloud had a silver lining," but now old man depression has even stolen that.

An identical aim: A snake in the grass and a nigger in the woodpile. Look out for either.

The nose of the leading woman in Circustown has grown blunt, prying into other peoples' business.

The major part of life had been composed of complaining and explaining. The third element introduced is disdain—authority.

A woman remarked: "I have a bunch of nerves in my chest the size of a dollar." Upon second thought she said, "A half dollar." During the depression she had forgot the size of a dollar.

Mother: Louise, cap the strawberries.

Louise: Mother, I see the berries, but I can't find the caps.

First girl: "It must be great to be popular."

Second girl: "Why, so?"

First girl: "Why, you have a fellow any hour of the night."

A Day in Dogtown

All the dogs in Dogtown

Called for an election

To vote on the question,

"Better dog Protection."

When the cats heard the news,

They began to meow

Whispering among themselves,

"We're up against it, now"

So the dogs took a vote,

And said, what do you think?

In Dogtown, that same day,

The cats stirred up a stink.

The bow-wows and the tabbies

fought

As politicians do.

All the cats blamed the dogs,

But the dogs barked: "It's you!"

Luxurious Life of an Ancient Queen. Intimate Details of How Queen Shub-ad of Ancient Ur of the Chaldees Dressed and Amused Herself, in The American Weekly, the Magazine which comes on July 1 with the BALTIMORE SUNDAY AMERICAN. Buy your copy from your favorite newsboy or newsdealer.

One of San Francisco's municipal courts sets aside three days a week as Chinese days. On those days all defendants in the court are Chinese.

Bananas are raised by the Mayor of Miami, Fla., in his back yard.

SAVE MONEY—Buy your magazines through The Gleaner's clubbing offers. They will help you save money on your reading matter.

Executor's Notice

Having qualified as Executor of the Last Will and Testament of Mary E. Walker, dec'd, late of Alamance County, North Carolina, this is to notify all persons having claims against estate of deceased to present them to the undersigned on or before the 25th day of May, 1935, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate settlement.

This May 19th, 1934.

Joseph G. Walker, Ex'r.

Gaffney, S. C.

BRITISH PLAN TO STUDY ANTARCTIC

Expedition Will Spend Three Years in South.

London.—A British expedition to discover whether the Antarctic is one or two continents will set out this fall. It will remain in the frozen South for nearly three years, studying, principally, the thousand-mile coastline between Luitpold Land and Charcot Land.

This land practically is unknown. Sir Hubert Wilkins flew over it in 1929, but he saw only a small part of it.

The icy waste between Luitpold Land and Charcot Land is one of the largest unknown coastal areas in the Antarctic. An adequate survey of it will materially assist in establishing whether Antarctica is a whole continent or two.

The expedition will consist of 14 men, of whom the following already have been chosen: J. R. Rymill, leader and surveyor and air pilot; W. E. Hampton, second in command, chief air pilot and engineer; Q. Riley, meteorologist; B. B. Roberts, surveyor and ornithologist; W. L. S. Fleming, chaplain and geologist; J. L. Moore, engineer and surveyor, and A. Stephenson, chief surveyor and meteorologist.

Rymill, Hampton, Riley, and Stephenson were members of the British Arctic Air Route expedition. The others all have had exploration experience.

The expedition also will make a trip down the west side of Graham Land, from Wilhelmina bay to Crane channel and back to Wilhelmina bay, approximately 700 miles. This coast has only been seen by Sir Hubert Wilkins from the air and never surveyed.

The expedition is expected to sail for the Antarctic in its own small ship in September. Meanwhile the exploration ship, Discovery II, will take a plane to Deception Island, whence it will be flown to the mainland. The ship probably will reach Wilhelmina bay next December.

Demand for Horses Is Found to Be Growing

Ames, Iowa.—Despite the tremendous increase in sales of automotive units, which might be supposed to indicate a decrease in the demand for real horse power, it was predicted here this week that prices for "chunks," the middle size horse employed on the farm, would be much higher during the next year or two.

The demand now is far ahead of the supply, it was said by Wayne Dinsmore, secretary of the Horse Association of America, and by H. A. Aberg, state college authority.

In 1932 there were but 32 purebred stallions on the average in each Iowa county, against 100 in 1914. Iowa is indicative of conditions in other corn belt states.

The decrease in total number of horses has turned more than a million acres of land from pastures, on which the horses fed, to idle acres. Now, the farmers are buying more horses despite the fact that the demand for tractors is on the upgrade.

Chestnut Trees Coming Back, Say Foresters

Providence, R. I.—Chestnut trees are staging a comeback despite the fear of forest pathologists that they eventually might become extinct.

"We have found that sprouts from dead chestnut stumps are growing from two to five inches in diameter," said Dr. Walter H. Snell, chairman of the department of botany at Brown University. "They are growing 20 to 25 feet high in some cases.

Until 1925, no forest pathologist believed that the chestnut had a chance of coming back," he said. "Its extinction was believed certain in spite of the fact that the chestnut is remarkable for its ability to send out sprouts from the stumps of dead trees."

Rats Must Play, Even if Cats Aren't Away

New York.—Two sizable cats tried to interrupt the gambols of nine larger river rats in a closed grocery store at Edgewater. For the fight that followed some 50 persons had ringside seats outside the store window.

When the clouds stopped rising from ripped flour sacks and the fur stopped flying, two cats lay dead on the floor with their paws in the air. The victorious rats resumed their interrupted foraging.

Saloon Wood for Church

Hamburg, Ark.—The walls that housed the old Senate Club saloon, landmark of Hamburg, soon will house the Presbyterian church of Mist, eight miles from here. The saloon is being razed and the material hauled to Mist to construct the church.

Museum Adds Rare 165-Year-Old Bloom

Chicago.—A rare orchid of historic interest, collected in Tahiti 165 years ago by the English explorer, Capt. James Cook, while on the first of his three famous voyages, has been added to the herbarium of the Field Museum of Natural History here. The specimen, dried and mounted according to herbarium practice, is preserved in as good condition as if it had been collected during the last year.

Termites Are Builders; Queen Big Egg Producer

The African termite builds a conical hill 10 feet high with a circumference of anything up to 36 feet, but these are dwarfed by some Australian species, which build mounds 24 feet high. Each of these mounds, writes a correspondent in Tit-Bits Magazine, is constructed by the worker termites and built of minute particles of matter. The majority are oblong in shape, with the small ends invariably pointing north and south. The material consists of earth and wood, but before being used it is eaten by the workers. This gives them nourishment and a uniform building substance.

Somewhere in a well-guarded place in the heart of the termites' home we find the royal compartment of the queen. She is a remarkable creature, for after mating with the king her body swells to an enormous size, and for the remainder of her life she is an egg machine, attaining a length of 3 inches and laying 60,000 eggs a day. With such a prolific mother the colony increases to such an extent that there may be millions of workers and soldiers, yet all their operations are carried out in darkness, and hundreds of human beings have lived all their lives within a few yards of a colony without seeing a single termite.

If a queen should die, the colony is thrown into confusion, but the workers take some of the eggs and treat them in some mysterious manner to produce queens. So far as we can tell all eggs laid by the queen are similar, but the workers can produce queens, kings, soldiers or workers.

Difference Between the Scotch, English Collies

Modern dog breeders recognize three main types of collies, of which only two are really collies, says the Montreal Herald. The Old English sheep dog, which has no real tail, is a big, rough-coated mastiff type of dog which has not been used to herd sheep for at least a century.

The true collie is a medium-sized wolfhound type of dog which in northern England and Scotland has been bred and trained to a high point of intelligence in the herding of cattle and sheep, particularly the latter. On this continent what is known as the Scotch collie has been developed more as a show dog and household pet, has become larger, with a longer face and head, more than in a heavier coat, than their old North British forebears. This type of dog has considerable sagacity but is just as difficult to train as a cattle or sheep dog as the average mongrel. But here and there a few of the North British collies or their progeny can be found, and these, though smaller and possibly not so good looking, are to be preferred to the so-called Scotch collie.

Giant Jungle Flower

There are freaks in the plant kingdom such as giants, dwarfs, etc., just the same as in other forms of life. One of the curious freaks among plants is the rafflesia, giant flower found in the Sumatran jungles. It has neither stem nor leaves but boasts a great blossom that measures a good three feet across, usually, with five petals each a foot long and about an inch thick. A normal flower weighs nearly fifteen pounds. Its rim is light yellow and the petals are a brick red with whitish spots while the pistils are pale yellow surrounded by blue. Stems or leaves are unnecessary because the flower is a parasite which grows from those of other plants and derives its nourishment from them. It lives but a short time after flowering.—Pathfinder Magazine.

Macaulay Loved Books

Lord Macaulay, the famous historian and poet, often wrote long letters to his nephew and niece, and to one called Margaret he wrote: "I am always glad to make my little girl happy, and nothing pleases me so much as to see that she likes books. For when she is as old as I am, she will find that they are better than all the tarts and cakes, and toys, and plays and sights in the world. If anybody would make me the greatest king that ever lived, with palaces, and gardens, and fine dinners, and wine, and coaches and beautiful clothes, and hundreds of servants, on condition that I would not read books, I would not be a king. I would rather be a poor man in a garret with plenty of books than a king who did not love reading."

U. S. Slang in Oxford Lexicon

However rude or crude are American terms they are so expressive and impudently near the truth that it is very hard to resist them, a place in any honest lexicon. Such terms are "graft," "once-over," "foolproof" and "step on the gas." This was the explanation given by the president of Magdalen college, Oxford, England, for their inclusion in the supplementary volume of the Oxford Dictionary. Among other phrases which have been introduced into the English language in the last 50 years and given a place in the dictionary are "all of a do do" and "give it the once over."

Female Larger Than Male Fish

There is considerable difference in size between the male and female of the deep-sea fish species known to scientists as Ildicanthus fasciola. Although the females of the species may range in length from 2 1/2 to 10 1/2 inches, the males grow to be only from 1 1/2 to 1 3/4 inches long.

Summons by Publication

NORTH CAROLINA, ALAMANCE COUNTY, IN THE SUPERIOR COURT. Margaret Warren, VS. Julius Warren.

The defendant, Julius Warren, will take notice, that an action entitled above, has been commenced in the Superior Court of Alamance County, North Carolina, by the plaintiff for the purpose of obtaining a decree of absolute divorce from the said defendant upon statutory grounds, and the said defendant, Floyd Tate, will further take notice that he is required to appear at the office of the Clerk of the Superior Court of said County at the Court House in Graham, North Carolina, on or before July 19, 1934, and answer or demur to the complaint filed in this action, or the plaintiff will apply to the court for the relief demanded in the said complaint. This June 19th., 1934.

E. H. MURRAY, Clerk Superior Court Alamance D. J. Walker, Atty.

Summons by Publication

NORTH CAROLINA, ALAMANCE COUNTY, IN THE SUPERIOR COURT. Beulah H. Tate, VS. Floyd Tate.

The NEW Coleman ELECTRIC APPLIANCES

Ideal GIFTS for EVERY OCCASION

Whatever the gift occasion Coleman Electric Appliances will meet your requirements to perfection.

Their striking beauty and different design will delight the fortunate one who receives your gift.

And their superior performance will bring added pleasure in "better coffee", "better toast", "better waffles" and "easier ironing".

Surfaced with gleaming Super-Chromium Plate of rich permanent luster.

Come in and see them before you buy that "special" gift.

New Low Prices

DEALERS: **Graham Hardware Co. AND Rich & Thompson**

"Aster" Waffle Maker with Heat Indicator. Has Greaseless Grids.

"Arctocrat" Waffle Maker with Heat Indicator. Chromium Plate. Hand painted decoration on cover.

"Arlie" Coffee Maker. Chromium Plate. 8 cups. Makes coffee the "no-boil" way.

"Diana" Urn Set. All Chromium Plate. Urn has new Non-Drip Faucet.

"Treasure Chest" Toast Oven. Makes delicious "oven baked" toast... 2 slices, both sides, at same time.

"Master Automatic" Iron. Chromium Plate. Fully Automatic with Heat Adjustable.

Lord Macaulay, the famous historian and poet, often wrote long letters to his nephew and niece, and to one called Margaret he wrote: "I am always glad to make my little girl happy, and nothing pleases me so much as to see that she likes books. For when she is as old as I am, she will find that they are better than all the tarts and cakes, and toys, and plays and sights in the world. If anybody would make me the greatest king that ever lived, with palaces, and gardens, and fine dinners, and wine, and coaches and beautiful clothes, and hundreds of servants, on condition that I would not read books, I would not be a king. I would rather be a poor man in a garret with plenty of books than a king who did not love reading."

Notice of Sale of Land Under Deed of Trust

Under and by virtue of the authority and power of sale contained in a certain deed of trust executed by the Imperial Mortgage Company, a corporation organized and existing under the laws of the State of North Carolina, to The Seaboard Citizens National Bank of Norfolk, Trustee, dated the 1st day of January, 1930, and recorded in Book 112, at page 232, in the Office of the Register of Deeds for Alamance County, North Carolina, default having been made in the payment of the indebtedness secured by said deed of trust, and at the request and demand of the holder of the note therein secured for the sale of the property conveyed in said deed of trust, the undersigned Trustee will offer for sale and sell to the highest bidder for cash, at the Courthouse door at Graham, Alamance County, North Carolina, on

Wednesday, July 25th, 1934,

at 11 o'clock, A. M., the following described property located in the town of Burlington, County of Alamance, North Carolina, to-wit:

Beginning at corner with lot No. 11 on W. Front Street; running thence with the line of lot No. 11 South 2 deg. 30 min. East 158.15 feet to corner on line of lot No. 6; thence with line of lot No. 6 South 84 deg. West 70 feet to corner with lot No. 9; thence with line of lot No. 9 North 2 deg. 15 min. W. 158 feet to corner on W. Front Street; thence with line of W. Front Street North 84 deg. E. 70 feet to the beginning; being lot No. 10 of the property surveyed by Lewis H. Holt, July 18th, 1922, plat of which is recorded in Book No. 2, at page No. 3, in the Register of Deeds office of Alamance County, North Carolina.

This 21st day of June, 1934. The Seaboard Citizens National Bank of Norfolk, Trustee. Norfolk, Va. M. W. Nash, Atty. Wachovia Bank Building, High Point, N. C.
