being remodeled and enlarged. One of the first matters to claim the President's attention is the modification of NRA. The secret cabinet committee he appointed to in-quire into the legality and advisability of continuing and extending the price fixing features of NRA has decided this price fixing should be restricted and gradually abandoned, and there is little doubt that this advice will be followed. Whether or not the fix-ing of prices is legal, it has brought sharp and continuous criticism from Senator Borah and many others which has not been relished by the New Dealers.

On his way from the west coast the President not only saw some of the great public works projects of the Northwest, but also passed through regions that have suffered severely from the drouth. So he is backing up the government agencies in their work of hurrying vast sums of government money to the arid regions to ease the human suffering and also to lessen the chances of another such catastrophe. The public works admin-istration, which had an original appropriation of \$3,300,000,000, revealed it had spent about \$400,000,000 on projects to aid impoverished western families. Chardonize yarn is used to make this three-piece suit in dark blue and white. It looks like boucle, but is inexpensive and won't stretch. The straight skirt has a swagger jacket to match and the fitted white blouse is trimmed at the round neck with ap-plique in navy. For country use, and even in town, this suit will see you through the summer and into the early days of fall.

SECRETARY OF STATE HULL and Secretary of Agriculture Wallace joined in a statement concerning their efforts to revive America's world trade, explaining that the reciprocal trade agreements to be negotiated with foreign countries will be beneficial and not harmful to American sericulture and manufacturing.

It also said no sacrifice of any major or basic agricultural mandfacturing industry was planned. although Secretary Wallace told reporters that some harm might be done to a tiny fraction of the producers for the greater good of all.
