

THE GLEANER

GRAHAM, N. C., APR. 25, 1935.

ISSUED EVERY THURSDAY

J. D. KERNODLE, Editor.

\$1.00 A YEAR, IN ADVANCE.

Entered at the Postoffice at Graham, N. C., as second-class matter.

No one will envy Mr. Roosevelt his job of placing the recovery appropriation.

The sales-tax problem is still unsettled. No one knows what will be the final result.

Dispatches report 74 killed and three times as many injured in automobile accidents during the Easter holidays. At this rate, loss of life will not be long in assuming the proportions of the Formosa earthquake.

Formosa, a Japanese-owned island, was visited by an earthquake Sunday in which a quarter of a million were rendered homeless and near three thousand killed and thousands injured, which makes it one of the most destructive in history.

Silver is having its inning. The price has been boosted to 77.57 cents per ounce for newly-mined silver. The miners will be happier. If the rate continues to advance, the prospect is it will, it will not be long before the dream of William Jennings Bryan comes true.

A substitute liquor bill has passed its second reading in the House at Raleigh and tacked on to it is a State referendum which will cost a large sum in time and money. It would be better if provision could be made for raising the necessary revenue without the turmoil incident to a State-wide vote which will be attended with more or less bitterness and engendering enmities which will last long after the battle is over.

President Roosevelt is clothed with the spending of the largest sum of money ever committed to one man, the sum of \$4,880,000,000. If he shall spend it judiciously and accomplish the purpose for which it was appropriated—wiping out the depression and ending unemployment, he will earn the thanks of the entire country. Of course he will set up agencies to handle different phases of the gigantic relief fund. The fingers of thousands of job hunters are itching to have a share in the distribution, not that it may accomplish the objects intended, but for what they can appropriate to their own use. No such waste should be permitted or tolerated. The charge has already been made that the greater part of the funds heretofore provided, have been spent in the administration. The same economy should be practiced in the allocation of this fund as a good business firm does in handling its own monies.

Charles Gaslin of Pfafftown, Forsyth County, has cleaned 12 acres of his farm woods damaged by sleet last year and saved over 40 cords of good fire wood. All the brush was used to stop gullies.

Timely Farm Questions Answered At State College

Question:- What can be done to kill flea-beetles in my tobacco fields?
Answer:- Dusting with the "1 in 6" mixture is the only effective control for flea-beetles. This mixture is made by mixing one pound of Paris Green to five pounds of Arsenate of Lead. For newly set plants this should be applied at the rate of three pounds to the acre. For half-grown or larger plants the application should be increased to from four to six pounds an acre. This mixture will also control hook worms. Further control can be had by plowing up the plant beds and killing all plants immediately after setting is completed.

Question:- How much milk should be fed a young calf?
Answer:- Feeding for the first week should be from six to ten pounds a day, depending on the size and vigor of the calf. A safe rule to follow is to feed one pound of whole milk for each ten pounds of live weight. This amount should be increased from one to two pounds during the second week if the animal has a good appetite and does not show signs of indigestion. Care must be exercised, however, in making this increase as over feeding will cause scours. After the second week the whole milk may be gradually changed to skim milk at the rate of one pound a day.

Question:- At what age should young chicks be removed from the heat?
Answer:- As a usual thing chicks may be removed from heat when they are fully feathered, that is, if the spring weather is normal. Where the days are warm, but the nights are exceptionally cool the heat should be continued until the nights are normal. To take away all heat would cause considerable trouble in the flock and weaken its resistance to disease. The owner must use careful judgment in this matter as there is no arbitrary limit to the removal of heat.

Question:- As a usual thing chicks may be removed from heat when they are fully feathered, that is, if the spring weather is normal. Where the days are warm, but the nights are exceptionally cool the heat should be continued until the nights are normal. To take away all heat would cause considerable trouble in the flock and weaken its resistance to disease. The owner must use careful judgment in this matter as there is no arbitrary limit to the removal of heat.

To take away all heat would cause considerable trouble in the flock and weaken its resistance to disease. The owner must use careful judgment in this matter as there is no arbitrary limit to the removal of heat.

JERSEY CATTLE SALE
An auction sale of Jersey heifers to be used in 4-H calf club work will be held at Fowler's sales stables, five miles west of Charlotte on State Highway No. 27. Twenty calves, selected from leading North Carolina Jersey herds, will be on display. The selections were made by A. R. Morrow, Iredell County farm agent; Kope Elias, livestock manager of the Morrison Farms in Mecklenburg County; and J. W. Hendricks, superintendent of the Piedmont branch station farm near Statesville.

GUERNSEY AUCTION
The fifteenth annual State sale of Guernsey cattle will be held at the Mahaley Building, Salisbury, May 9th at noon.
Forty choice Guernseys—19 cows, 18 heifers, and three yearling bulls—will be offered. All consignments are free from tuberculosis and are negative to the blood test, said R. H. Ruffner, head of the animal husbandry department at State College.

NORTHERN LIGHTS
What causes the Aurora Borealis? Read this authoritative article about the cause of nature's impressive display. Fully illustrated. One of many splendid features in the American Weekly issue of May 5. The American Weekly comes each Sunday with the Baltimore American. Your newsdealer or newsboy has your copy.

A sale of 1,000 bushels of Irish potatoes was made by Haywood County farmers last week.

AVIATION FOR BOYS AND GIRLS

Boys and girls who want to read about aviation, learn how to fly and become members of the Junior Birdmen of America, a fast-growing organization for air-minded youth, should read the Birdmen page every Sunday in the Baltimore American. Get your copy from your newsdealer or newsboy.

The new raspberry crop of piedmont Carolina will need 20,000 crates for marketing the berries this spring, estimate the county agents.

Five pure bred Angus beef cattle were purchased at the East Tennessee Cattle Sale at Knoxville by a Cherokee County farmer last week.

Gaston farmers have given more attention than usual to their seed sweet potatoes this spring and have used good seed treated for disease before bedding.

Nearly all Mecklenburg cotton growers are signing contracts to reduce their cotton acreage 35 percent for the present season.

Seventeen Yadkin farmers received \$1,234.92 for 724 capons grown under instructions from the county agent.

By prompt delivery of tobacco adjustment checks, the county agent of Nash County saved growers about \$2,000 in interest on money that would have had to be borrowed for financing the 1935 crop.
