Lobby Committees Quarrel Over Magnate Hopson-President Signs Social Security Act-Tri-Power Conference on Italo-Ethiopian Question.

The two men, close friends, had been enjoying an aerial vacation trip in the North, and Post intended later to fly to Asia. News of the fatal accident was sent to Seattle by Sergt. Stanley R. Morgan, signal corps operator at Point Barrow. He said he had recovered the bodies from the wreckage.

RIVALS in the matter of publicity, the house and senate committees on the activities of lobbyists got into a tangle that certainly didn't enhance

their dignity. Howard C. Hopson, the long sought head of Associated Gas and Electric Utilities system, permitted the emissary of the house committee to find him, and Senator Hugo Black flew into a rage and had his committee threaten Höpson with contempt proceedings

H. C. Hopson unless he appeared be-fore it. Chairman O'Connor of the house body was angered by this and declared: "Hopson is in my custody. Ive got him. Nobody else has got Nobody else is going to get

The elusive, chunky utilities magnate told the house committee about his various companies and related the saga of his travels while he was being sought. But he politely refused to answer questions concerning the sources and amount of his income. He testified that he "believed" the Associated Gas system had spent "eight or nine hundred thousand dollars" in opposition to the Wheeler-Rayburn utility

O'Connor introduced in the house a resolution that severely slammed the senate, but it dropped when word came that Senator Black would wait to take Hopson after O'Connor's bunch was through with him. However, it gave opportunity for a ridiculous quarrel between the New Yorker and Rankin of Texas.

Late in the day Hopson calmly walked into Black's committee room and asked: "Is some one here looking for me?" Black and his committee then questioned the utilities man for an hour or two and got mighty little out of him except smooth sarcasm that made the chairman quite furious. At that time both Hopson and his attorney had been served with contempt

GOV. MARTIN L. DAVEY of Ohlo has "pulled a fast one" on the Republicans in behalf of the Democratic party. The G. O. P. leaders were demanding a state-wide by-election in Ohio to fill the vacancy created by the death of Representativeat-Large Charles V. Truax, believing the result would demonstrate, even more clearly than did the Rhode Island election, the waning strength of the administration. But Governor Davey went to Washington and consulted with President Roosevelt and then announced that he would not call and could not be compelled to call a special congressional election until next year. His declared reason was the cost, not fear of party defeat. Court action to force the calling of the election has been started but Davey says there is no restriction of his discretion in fixing the time of the election.

SURROUNDED by a group of notables and in the glare of photographers' flashlights, President Roosevelt put his signature on the social security act, of which he said: "If the senate and house of representatives in this long and arduous session had done nothing more than pass this bill the session would be regarded as historic for all time."

Among those who were present were Senator Robert F. Wagner of New York and Representative John Lewis of Maryland, who jointly drafted the bill; Secretary of Labor Frances Perkins, who had a hand in its making, and Senators Pat Harrison, William King and Edward P. Costigan.

In a talk intended for reproduction on the sound screens of the country, the President said:

This social security measure give at least some protection to 30,000,000 of our citizens who will reap direct benefits through unemployment comasation, through old age pensions and through increased services for the

"This law, too, represents a corner stone in a structure which is being built but is by no means complete—a structure intended to lessen the force of possible future depressions, to act as a protection to future administrations of the government against the necessity of going deeply into debt to furnish relief to the needy-a law to flatten out the peaks and valleys of deflation and of inflation-in other words a law that will take care of human needs and at the same time provide for the United States an economic struc ture of vastly greater soundness."

CAPT. ANTHONY EDEN of England, Premier Pierre Laval of France and Baron Pompel Aloisi of Italy met in Paris, as arranged, to see if they couldn't de-

vise a way to avert the Italo-Ethiopian war, due to begin in Sep-Eden had a plan all prepared and after outlining it to Laval he laid it before Baron Aloisi. The latter, of course, had no power to assent but was compelled to submit the proposals to Premier Mussolini.

That Il Duce would accept it without change was considered unlikely, but it formed a basis for discussion. According to the best information, the Eden plan embraced these chief

points: 1. Important economic concessions

for Italy in Ethiopia. 2. A proposal that Italy be given

the right to colonize and exploit rich, sparsely inhabited portions of the Ethiopian uplands probably under a League of Nations mandate as is provided for former German colonies in article XXII of the League of Nations covenant. 3. The offer of an outlet direct

to the sea for Ethiopia, as a measure of compensation for its concessions.

It was understood in Paris that Mussolini still demanded what would amount to a mandate over Ethiopia so that he would have political as well as economic control over the country. This Great Britain does not like, and France is rather on the fence.

SECRETARY of Agriculture Wallace has changed his mind about the reduction of wheat acreage for 1936. Instead of asking the farmers for a cut of 15 per cent, as was

announced recently, the figure is now placed at 5 per cent. Wallace told reporters that the change was decided upon after the government's Au-gust 1 survey of crop conditions indicated that total wheat production this year would amount to only

808,000,000 bushels as Sec'y Wallace ompared with domestic requirements

of 635,000,000 bushels. The step was taken, he asserted, to assure ample supplies for domestic consumers. He said that it was expected to place the country in a "strengthened position" in the export market. He added the change in policy will not result in any marked reduction in benefit payment to farmers. He did not say what the exact reductions in the payments would amount to.

AAA officials estimated that approxmately 52,000,000 acres would placed under contract this year. They asserted that the government is given adequate powers" to deal with the situation if a bumper wheat harvest should result in 1936.

WHEN the President's social se-curity bill was finally enacted into law, the senate adopting the conference report already agreed to by the house, probably many thousands of men and women all over the country began figuring on the pensions they would receive under its terms. It is unlikely that one in a thousand has any clear idea of how the new progiam's pension system will work, so we reprint here a neat summary prepared by the Associated Press show ing its operation as applied to "Bill Jones":

"Suppose young Bill is twenty when the law goes into effect and makes an average monthly satary of \$100 until he is sixty-five. He will get a monthly pension, until his death, of \$53.75. "In detail, here is what will happen

to him: "In the calendar years 1937, 1938, and 1939 he will pay a salary tax of 1 per cent, or a total of \$36 for the three years. In 1940, 1941, 1942 he will

pay 11/2 per cent, or \$54. In 1943, 1944, and 1945 the tax will be 2 per cent, or \$72. In 1946, 1947, and 1948 the tax will be 216 per cent, or \$90. From 1949 to 1981, inclusive, the tax will be 3 per cent, or a total of \$1,188. "Thus, in 45 years, Bill Jones will

have paid in \$1,440. All the time his employer will have been matching his tax payments, so the total paid to the federal treasury will be \$2,880.

"At sixty-five Bill Jones can expect to live perhaps 10 years more. If he does, he will get back \$6,450.

"When Bill Jones dies this is what will happen:

"His average annual salary will be multiplied by the number of years he paid taxes. In other words, if he dies after he has paid taxes for 45 years, \$1,200 will be multiplied by 45-giving a total of \$54,000. Arbitrarily, the bill stipulates that Bill Jones' estate shall entitled to 31/2 per cent of that, or \$1,890-less any amount he received in pensions before he died.

"If Jones dies before he gets back \$1,890 in pensions, what he actually received is deducted from \$1,890 and the remainder paid to his heirs. If he lives until he gets back all of the \$1,890 and more, his heirs get nothing, "If Jones should die before he

reaches sixty-five, his heirs would be entitled to a payment of 3½ per cent of the total wages on which taxes had

VACATION MEALS

DURING the summer weather is the time when everybody should take a few hours away from the grindstone. The house mother needs a vacation as much as any worker, but usually, a picnic is but an added burden unless everybody takes a hand in planning ind preparing the food. Have everything simple, easy to prepare and then let the young folks do the work; it will be good experience and give mother a rest, if it is possible for her to give up the idea that no one but herself can pack a lunch.

With the frying pan, take along ome eggs and bacon. Scramble the eggs, add the crisp bacon which has been fried and kept hot, serve as a sandwich filling, on well buttered bread. Young, green onions or a simple salad, or a cucumber and radishes, go well with such sandwiches. For the youngsters, take milk, lemonade or cocoa, which may be carried in a thermos bottle. Coffee, too, may be prepared at home, but one of the pleasures of an outing meal is cooking Coffee never tastes better than
